### **This Alien Shore By Cs Friedman:**

This Alien Shore C.S. Friedman, 2020-11-01 The first novel in a space opera duo set in the second age of stellar colonization It is the second age of stellar colonization The first age ended in disaster when it was discovered that superluminal travel inflicted permanent genetic damage to all who used it mutating Earth's far flung colonists in body and mind Earth abandoned them But some of the colonies survived and a new Outworld civilization of Variants has germinated They have given humanity back the stars but at a high price a monopoly over all commerce Following a corporate raid on a remote satellite an unusual young woman flees for the Up and Out But her narrow escape does not mean safety For speeding across the galaxy pursued by ruthless but unknown adversaries this young woman will discover a secret which is buried deep inside her psyche a revelation the universe may not be ready to face

**The Secret Life of Stories** Michael Bérubé, 2016-06-17 How an understanding of intellectual disability transforms the pleasures of reading Narrative informs everything we think do plan remember and imagine We tell stories and we listen to stories gauging their well formedness within a couple of years of learning to walk and talk Some argue that the capacity to understand narrative is innate to our species others claim that while that might be so the invention of writing then re-wired our brains In *The Secret Life of Stories* Michael Bérubé tells a dramatically different tale in a compelling account of how an understanding of intellectual disability can transform our understanding of narrative Instead of focusing on characters with disabilities he shows how ideas about intellectual disability inform an astonishingly wide array of narrative strategies providing a new and startling way of thinking through questions of time self reflexivity and motive in the experience of reading Interweaving his own stories with readings of such texts as Faulkner's *The Sound and the Fury* Haddon's *The Curious Incident of the Dog in the Night Time* Kingston's *The Woman Warrior* and Philip K Dick's *Martian Time Slip* Bérubé puts his theory into practice stretching the purview of the study of literature and the role of disability studies within it Armed only with the tools of close reading Bérubé demonstrates the immensely generative possibilities in the ways disability is deployed within fiction finding in them powerful meditations on what it means to be a social being a sentient creature with an awareness of mortality and causality and sentience itself Persuasive and witty Michael Bérubé engages Harry Potter fans and scholars of literature alike For all readers *The Secret Life of Stories* will fundamentally change the way we think about the way we read

Utopian and Dystopian Explorations of Pandemics and Ecological Breakdown Heather Alberro, Emrah Atasoy, Nora Castle, Rhiannon Firth, Conrad Scott, 2024-07-31 This edited collection which is situated within the environmental humanities and environmental social sciences brings together utopian and dystopian representations of pandemics from across literature the arts and social movements Featuring analyses of literary works TV and film theater politics and activism the chapters in this volume home in on critical topics such as posthumanism multispecies futures agency political ecology environmental justice and Indigenous and settler colonial environmental relations The book asks how do pandemics and ecological breakdown show us the ways that humans are

deeply interconnected with the more than human world And what might we learn from exploring those entanglements both within creative works and in lived reality Brazilian Indian Polish and Dutch texts feature alongside classic literary works like Defoe's *A Journal of a Plague Year* 1722 and Matheson's *I Am Legend* 1954 as well as broader takes on movements like global youth climate activism These investigations are united by their thematic interests in the future of human and nonhuman relationships in the shadow of climate emergency and increasing pandemic risk as well as in the glimmers of utopian hope they exhibit for the creation of more just futures This exploration of how pandemics illuminate the entangled materialities and shared vulnerabilities of all living things is an engaging and timely analysis that will appeal to environmentally minded researchers academics and students across various disciplines within the humanities and social sciences The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
