## **Tunnels Tunnels 1 By Roderick Gordon:**

**Tunnels** Roderick Gordon, Brian Williams, 2012-08-02 Fourteen year old Will Burrows lives with his family in London. He has little in common with them except for a passion for digging which he shares with his father. But when his father disappears down an unknown tunnel, Will's investigation leads him to a terrifying underground world. *Tunnels (Tunnels #1)* Roderick Gordon, Brian Williams, 2011-05-01 The New York Times Bestseller. The story of an outcast boy, his eccentric dad, and the scary underground world they discover through secret TUNNELS. 14 year old Will Burrows has little in common with his strange dysfunctional family. In fact, the only bond he shares with his eccentric father is a passion for archaeological excavation. So when Dad mysteriously vanishes, Will is compelled to dig up the truth behind his disappearance. He unearths the unbelievable: a secret subterranean society. The Colony has existed unchanged for a century, but it's no benign time capsule of a bygone era because the Colony is ruled by a cultlike overclass, the Styx. Before long, before he can find his father, Will is their prisoner. **Closer (Tunnels #4)** Roderick Gordon, Brian Williams, 2011-05-01 Closer to victory or closer to death. An army of darkness is on the march. Who won't escape with their life. The fourth book in the New York Times Bestselling TUNNELS series. At long last reunited with his dad, Will now spends his days exploring the land of the second sun, decoding the cryptic glyphs carved into its three mysterious temples, or eyeing the wild animals with renegade girl Elliott. Chester meanwhile has finally returned Topsoil, where his homecoming is rapidly becoming a horror show. But an army of darkness is on the march. And the ruthless Rebeccas have once more cheated death. With a corps of cold-blooded Limiters at their command, they're determined to hunt Will to the bitter innards of the earth. This time, who WON'T escape with their life.

Spiral (Tunnels #5) Roderick Gordon, Brian Williams, 2012-09-01 Spinning out of control. Just when you thought it couldn't get any deeper, darker, or weirder. Creeping into the open through cracks in the earth, the Styx have surfaced and are now infesting England like some parasitic scourge, carriers of a bizarre black secret that will place every last Topsoiler in mortal peril. Unless Will Burrows puts a stop to the propagation. Armed to the teeth with little more than a motley crew of former commandos as reinforcements, can Will, Chester, and Elliott find a way to squash the threat? Or will they only find themselves in a deadly downward SPIRAL. **A Seriously Useful Author's Guide to Marketing and Publicising Books** Mary

Cavanagh, 2009 Gone are the times when most authors could relax and let their publisher sell their book for them. Nowadays, in a climate of increasing commercialisation, the majority of authors, both new and established, are discovering that they get no help at all. For the self-published, a rapidly expanding market, this has always been largely the case, but now nearly all authors are faced with the task of having to market and publicise their own book. The prospect is a daunting one, but without some form of self-input, it is rare for any book to sell in significant quantities. However, exactly what needs to be done to generate sales and to create a reputation for a book is often a mystery. Thus *Seriously Useful* aims to demystify the processes in a concise, lively, and highly readable way. Although primarily concerned with making sales, it also offers some very useful

pre publication advice including the options and benefits of self publishing In addition it reveals some essential inside information on how the books trade works so the author has an excellent understanding of their book s journey from manuscript to publisher to wholesaler to retailer to reader There are also some very useful contributions from other mainstream and self published authors Written by Mary Cavanagh a novelist and short story writer who has had first hand experience of both mainstream and self publishing Her previous work includes *The Crowded Bed* Transita 2007 and *A Man Like Any Other* The Priest s Tale Matador 2008 Harry Potter S. Gunelius,2008-06-03 The Harry Potter books are the bestselling books of all time In this fascinating study Susan Gunelius analyzes every aspect of the brand phenomenon that is Harry Potter Delving into price wars box office revenue and brand values amongst other things this is the story of the most incredible brand success there has ever been Fantasy Fiction Frances Sinclair,2008 Handbook of fantasy fiction for teachers librarians parents and guardians and children themselves in which to find many titles of fantasy fiction that they like or may be tempted to read Includes groups such as classic fantasy comic fantasy Arthurian dark fantasy animals and dragons

Commissioned by the Cabinet Office and using hitherto untapped British Government records this book presents an in depth analysis of the successful project of 1986 94 This is a vivid portrayal of the complexities of quadripartite decision making two countries plus the public and private sectors revealing new insights into the role of the British and French Governments in the process This important book written by Britain s leading transport historian will be essential reading for all those interested in PPPs British and European economic history and international relations The building of the Channel Tunnel has been one of Europe s major projects and a testimony to British French and public private sector collaboration However Eurotunnel s current financial crisis provides a sobering backcloth for an examination of the British Government s long term flirtation with the project and in particular the earlier Tunnel project in the 1960s and early 1970s which was abandoned by the British Government in 1975 Southwest Builder and Contractor ,1933 **Narrative Space and Time** Elana

Gomel,2014-02-18 Space is a central topic in cultural and narrative theory today although in most cases theory assumes Newtonian absolute space However the idea of a universal homogeneous space is now obsolete Black holes multiple dimensions quantum entanglement and spatio temporal distortions of relativity have passed into culture at large This book examines whether narrative can be used to represent these impossible spaces Impossible topologies abound in ancient mythologies from the Australian Aborigines dream time to the multiple layer universe of the Sumerians More recently from Alice s adventures in Wonderland to contemporary science fiction s obsession with black holes and quantum paradoxes counter intuitive spaces are a prominent feature of modern and postmodern narrative With the rise and popularization of science fiction the inventiveness and variety of impossible narrative spaces explodes The author analyses the narrative techniques used to represent such spaces alongside their cultural significance Each chapter connects narrative deformation of space with historical problematic of time and demonstrates the cognitive and perceptual primacy of narrative in representing imagining and apprehending new forms of space and time This book offers a comprehensive analysis of the connection between narratology cultural theory science fiction and studies of place **Geological Survey Professional**
