Postcolonial Echoes and Evocations Derek O'Regan, 2006 This work is a sedulous enquiry into the intertextual practice of Maryse Cond in Moi Tituba sorci re noire de Salem 1986 Travers e de la mangrove 1989 and La Migration des coeurs 1995 the texts of her oeuvre in which the practice is the most elaborate and discursively significant Arguing that no satisfactory reading of these novels is possible without due intertextual reference and interpretation the author analyses salient intertexts which flesh out and in the case of Travers e de la mangrove shed considerable new light on meaning and authorial discourse Whether it be in respect of canonical William Faulkner Emily Bront Nathaniel Hawthorne postcolonial Aim C saire Jacques Roumain or other Anne H bert Saint John Perse writers the author explores Cond s intertextual choices not only around such themes as identity resistance m tissage and errance but also through the dialectics of race culture male female centre periphery and past present As both textual symbol and enactment of an increasingly creolised world intertextuality constitutes a pervasively powerful force in Cond s writing the elucidation of which is indispensable to evaluating the significance of this unique fictional oeuvre

Poetry, Politics, and the Body in Rimbaud Robert St.

Clair, 2018-08-30 Bodies abound in Rimbaud s poetry in a way that is nearly unprecedented in the nineteenth century poetic canon lazy creative rule breaking bodies queer bodies marginalized and impoverished bodies revolting and revolutionary historical bodies The question that Poetry Politics and the Body seeks to answer is What does this corporeal density mean for reading Rimbaud What kind of sense are we to make of this omnipresence of the body in the Rimbaudian corpus from first to last from the earliest poems in verse celebrating the sheer simple delight of running away from wherever one is and stretching one s legs out under a table to the ultimate flight away from poetry itself In response this book argues that the body appears often literally as a kind of gap breach or aperture through which Rimbaud s poems enter into contact with history and a larger body of other texts Simply put the body is privileged lyrical material for Rimbaud a figure for human beings in their exposed finite creatureliness and in their unpredictable agency and interconnectedness Its presence in the early work allows us not only to contemplate what a strange sensuous thing it is to be embodied to be both singular and part of a collective it also allows the poet to diagnose and the reader to perceive a set of seemingly intractable real socio economic political and symbolic problems Rimbaud s bodies are in other words utopian bodies sites where the historical and the lyrical the ideal and the material do not so much cancel each other out as become caught up in one another
