Avoiding The Terrorist Trap: Why Respect For Human Rights Is The Key To Defeating Terrorism Thomas David Parker, 2019-06-17 This book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times It is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward

Global Policy Journal

For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources Avoiding the Terrorist Trap addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect

for human rights and the rule of law is the most effective approach to defeating terrorism Unintended Consequences John Ross,1996 A rising by the pro gun lobby brings the government to its knees The story begins when Henry Bowman a geologist in Iowa fires on federal agents thinking they are terrorists The conflict escalates agents and congressmen die and to bring peace the president agrees to repeal anti gun laws and pardon the rebels The Day It Finally Happens Mike Pearl,2020-09-22 From a VICE magazine columnist a deeply entertaining if occasionally horrifying Joshua Piven coauthor of *The Worst Case Scenario Survival Handbook* look at how humanity is likely to weather such happenings as nuclear war a global internet collapse antibiotics shortages and even immortality If you live on planet Earth you re probably scared of the future How could you not be Some of the world s most stable democracies are looking pretty shaky Technology is invading personal relationships and taking over jobs Relations among the three superpowers the US China and Russia are growing more complicated and dangerous A person watching the news has to wonder is it safe to go out there or not Taking inspiration from his virally popular VICE column *How Scared Should I Be* Mike Pearl games out many of the could it really happen scenarios we ve all speculated about assigning a probability rating and taking us through how it would unfold He explores what would likely occur in dozens of possible scenarios among them the final failure of antibiotics the loss of the world s marine life a complete ban on guns in the US and even contact with extraterrestrial life and reports back from the future providing a clear picture of how the world would look feel and even smell in each of these instances For fans of such bestsellers as *What If* and *The Worst Case Scenario Survival Handbook* *The Day It Finally Happens* is about taking future events that we don t really understand and getting to know them in close detail Pearl s well researched speculations induce daydreams and nightmares and mark him as one of his generation s most interesting writers Alec Ross New York Times bestselling author *Terrorism and Societies* Stephen Vertigans,2016-03-16 Which socializing agents are influential in people joining terror groups What ideologies do terror groups hold Which aspects of societies and social contexts contribute towards groups forming and people joining them This book considers a range of influential terror groups from the last 40 years exploring relationships between people local and global social processes and activities that result in acts of terrorism Examining Islamic groups alongside nationalist red and far right organizations Stephen Vertigans identifies important similarities in the social contexts experiences of members and some of their demands Key questions are applied to a range of case studies of contemporary relevance The groups studied originated from Europe the United States Asia and Africa and are associated with religion nationalism pro state terrorism militias and racism Each chapter offers the reader a clear understanding about why particular terror groups form while comparative analysis draws out commonalities and distinctions Right-Wing Extremism in Canada and the United States Barbara Perry,Jeff Gruenewald,Ryan Scrivens,2022-06-29 This book is the first collection of scholarship featuring both Canadian and American scholarship on the resurgent right wing extremist movement in the two countries It is particularly timely given the recent rise in political populism that has

Defining Danger James W Clarke, 2018-02-06 Since 1789 when George Washington became the first president of the United States forty three men have held the nation's highest office Four were killed by assassins and serious attempts were made on the lives of eight others Add to that list the names of Martin Luther King Jr and Malcolm X and it is reasonable to conclude that political prominence in the United States entails grave risks In *Defining Danger* James W Clarke explores the cultural and psychological linkages that define assassinations and a new era of domestic terrorism in America Clarke notes an upsurge in political violence beginning with the assassination of John F Kennedy in 1963 Since then there have been ten assassination attempts on nationally prominent political leaders That is two more than the eight recorded in the previous 174 years of the nation's presidential history New elements of domestic terror in American life were introduced in the 1990s by Timothy McVeigh the Oklahoma City Bomber Ted Kaczynski the Unabomber and Eric Rudolph the abortion clinic bomber These men were politically motivated their crimes unprecedented These events and the perpetrators behind them are the subjects of this book The volume conveys two central themes The first is that individual acts of violence directed toward America's democratically elected leaders represent a defining element of American politics The second addresses how danger is defined through an analysis of the motives and characteristics of twenty one perpetrators responsible for these acts of political violence where shots were fired or bombs detonated and in most instances victims died The importance and originality of this material have been acknowledged in presentations to and consultations with the U S Secret Service and some of the nation's top independent private investigators It is written in an accessible and engaging style that will appeal to the informed general reader as well as to professionals in a variety of fields especially in the wake of recent events and the specter of future violence that sadly haunts us all

Bolgiano, 2017-08-09 It pulls no punches shuns no controversial topic and glosses over no issues or problems that beset America's law enforcement community in our day For those who may be prone to suspect the motives of these self confessed lovers of cops and warriors the title of this book should be sufficient to allay such concerns John C Hall Supervisory Sp

We Defy! Tommy Attaway Jr, 2015-12-16 A small group of Texans become frustrated with the loss of liberty in their lives and determine that situation to be no longer tolerable Using the past as a guide they found their own community and proceed

to establish a society based on the principles which founded the United States and Texas They decide to ignore unconstitutional edicts of the national government and live as the founders of the United States Intended for free people to live As the community grows the residents are confronted with issues of local government and eventually they come to the attention of federal government authorities Those authorities are determined to enforce the US Code of Federal Regulations and the Texas bid defiance Page 4 of cover *The American Spectator* ,1997 **A Rhetoric of Style** Barry Brummett,2008-07-07 Exploring style in a global culture In *A Rhetoric of Style* Barry Brummett illustrates how style is increasingly a global system of communication as people around the world understand what it means to dress a certain way to dance a certain way to decorate a certain way to speak a certain way He locates style at the heart of popular culture and asserts that it is the basis for social life and politics in the twenty first century Brummett sees style as a system of signification grounded largely in image aesthetics and extrarational modes of thinking He discusses three important aspects of this system its social and commercial structuring its political consequences and its role as the chief rhetorical system of the modern world He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition It is through style that we stereotype or make assumptions about others political identities their sexuality their culture and their economic standing To facilitate theoretical and critical analysis Brummett develops a systematic rhetoric of style and then demonstrates its use through an in depth exploration of gun culture in the United States Armed with an understanding of how this rhetoric of style works methodologically students and scholars alike will have the tools to do their own analyses Written in clear and engaging prose *A Rhetoric of Style* presents a novel discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty first century *Eco Terrorism* Fouad Sabry,2024-05-27 What is Eco Terrorism Eco terrorism is an act of violence which is committed in support of environmental causes against people or property How you will benefit I Insights and validations about the following topics Chapter 1 Eco terrorism Chapter 2 Radical environmentalism Chapter 3 Earth First Chapter 4 Craig Rosebraugh Chapter 5 Rod Coronado Chapter 6 Thermcon Chapter 7 Leaderless resistance Chapter 8 Domestic terrorism in the United States Chapter 9 Tre Arrow Chapter 10 Timeline of Earth Liberation Front actions II Answering the public top questions about eco terrorism Who this book is for Professionals undergraduate and graduate students enthusiasts hobbyists and those who want to go beyond basic knowledge or information for any kind of Eco Terrorism **Founders** James Wesley Rawles,2012-09-25 From the author of the instant New York Times bestseller *Survivors* comes its follow up another lightning paced thriller about survival in America after an apocalyptic socioeconomic crash **F.
