Active Collaborative Education Journey Teaching:

Active Collaborative Education Judith Barak,Ariela Gidron,2015-12-28 ACE Active Collaborative Education set out on its educational journey in October 2001 At the time graduates of the college were enthusiastically accepted in the field smoothly slipping into the school system and highly appreciated as good teachers However this situation did not please this book s contributors They wanted to see ACE graduates as different teachers agents of change and innovation in their classrooms as well as in the wider circles of their society It is against this background that the ACE program came into being subversive in spirit focusing on the process as much as on its end results on dialogue instead of on competition and on learning communities and participation as much as on individual engagement

Teacher Education and the Political Matthew Clarke,Anne Phelan,2017-01-12 Teacher Education and the Political is a striking book which addresses the nature and purpose of teacher education in a global context characterised by economic and political anxieties around declining productivity and social inclusion These anxieties are manifested in recent policy developments such as the promotion of professional standards the deregulation and marketisation of teacher education and the imposition of performance related regimes that tie teachers pay to outcomes in high stakes testing The book assesses the implications of such policies for the work of teachers as well as for teacher educators and those undertaking initial teacher training It is argued that these policy moves can be read as a depoliticising and de intellectualising of teacher education In this context they illustrate how contemporary theory can provide a language for critiquing recent developments and imagining new trajectories for policy and practice in teacher education Drawing on the work of theorists from Derrida and Mouffe to Agamben and Lacan this book argues for the need to maintain a space for intellectual autonomy as a critical dimension of the ethico political work of teachers Together these ideas and analyses provide examples of the power of negative thinking illustrating its capacity to unsettle comfortable truths and foreground the political nature of teacher education Current teachers teacher educators and school leaders will be particularly interested readers alongside those concerned with policy in the wider educational landscape

Ways of Learning to Teach Shlomo Back,2012-10-22 This book deals with commonly reported accusations about the nature of teacher education based on arguments and disagreements about what teacher education should do how it should do it and what it should produce in its graduates Much of these accusations are on out of date or obsolete ideals of the good teacher It is a philosophical exploration of the crisis in which teacher education finds itself in the world of neo liberal capitalism privatization accountability consumerism and globalization The book develops a meta theory of teacher education which analyses three major approaches to teacher education Enlightenment Romanticism and Belief Oriented programs each of them suggest a different epistemological and ethical world view Accordingly each of them lead to a different vision of teachers identity and inform different type of programs of teacher education While critically discussing how each of the three approaches is manifested in various Teacher Education programs the book proposes a new synthesis arising from them

Although seemingly contradictory they can be seen as various aspects of a more balanced multifaceted and adequate ideal of a better way to prepare teachers in the present era *Ways of Learning to Teach* is a tribute to the work of teacher educators and is informing for anyone who is interested in teaching and learning in the 21st century This is a compelling book that brings together a number of conflicting and often taken for granted views of teacher preparation in ways that helps to makes sense of the complex enterprise that is teacher education Back offers an interesting and thought provoking way of understanding criticisms about teacher education and offers a positive and productive way forward This book is a must read for teacher educators

Exploring Heutagogy in Higher Education Amnon Glassner, Shlomo Back, 2020-04-17 This book explores heutagogy self determined learning a new approach to teaching and learning in higher education and proposes a paradigm shift in teaching learning and the educational enterprise and ecosystem The first part of the book presents the philosophical psychological and sociological foundations of heutagogy and describes lessons learned from prior experiences of its implementation The second part presents a collaborative self study of five heutagogy courses in higher education The third discusses how the academic community can enhance the paradigm change and compares heutagogy to similar academic approaches The concluding chapter of the book explores the question of what next and suggests some possible elaborations of heutagogy At the beginning it was very difficult for me to appreciate the course s mode of learning All my life I had learned in a traditional manner Occasionally I felt that I was being thrown into deep water without a lifeguard But as the course progressed I succeeded in letting go of my deeply rooted habits and discovered a new learning approach through which I found in myself a new learner Student s reflection this book suggests a novel approach to learning and education and will become a widely read one Dr Lisa Marie Blaschke Carl von Ossietzky University of Oldenburg

Cases on Inquiry through Instructional Technology in Math and Science Lennex, Lesia, Nettleton, Kimberely Fletcher, 2012-01-31 There exists a wealth of information about inquiry and about science technology engineering and mathematics STEM but current research lacks meaningfully written thoughtful applications of both topics *Cases on Inquiry through Instructional Technology in Math and Science* represents the work of many authors toward meaningful discourse of inquiry used in STEM teaching This book presents insightful information to teachers and teacher education candidates about using inquiry in the real classroom case studies from which research suggests appropriate uses and tangible direction for creating their own inquiry based STEM activities Sections take the reader logically through the meaning of inquiry in STEM teaching how to use technology in modern classrooms STEM projects which successfully integrate inquiry methodology and inquiry problem solving within STEM classrooms with the aim of creating activities and models useful for real world classrooms

Parenting with Focus Naomi Hellen McDonald, 2024-03-07 In writing *Parenting with Focus A Comprehensive Guide to ADHD for Families* my intention was to create a resource that could serve as a beacon for families navigating the often turbulent waters of ADHD Having witnessed firsthand the challenges and triumphs that come with raising children with ADHD I was inspired

to share this journey with others This book is a culmination of years of research personal experiences and conversations with experts across various fields related to ADHD My goal is to provide parents caregivers and educators with a deep understanding of what ADHD is and isn't debunking myths and shedding light on the most current evidence based practices in ADHD care and management More than just a guide this book is a companion offering practical advice strategies and encouragement to those committed to providing the best possible support for their children ADHD can be complex and multifaceted affecting every aspect of a family's life However with the right knowledge and tools it is entirely possible to navigate this journey with grace and effectiveness Whether you're a parent newly encountering an ADHD diagnosis or you've been managing ADHD within your family for years my hope is that this book empowers you to foster an environment where your child can thrive

Teacher Education through Active Engagement Lori Beckett, 2013-12-04 Teacher Education through Active Engagement identifies and addresses a contemporary issue the ways in which teaching and teacher education are articulated by politicians civil servants business leaders and educational entrepreneurs intent on profit making in the current global neoliberal policy context This is often characterised by narrow and ill conceived ideas about teacher characteristics and competences recruiting and fast tracking graduates from elsewhere into the profession the reform of teacher training with less emphasis on theory and academic study a narrow focus on teachers core skills and the promotion of training in model teaching schools In this book contributors challenge this conceptualisation and demonstrate practitioners necessary intellectual activity to wrest back professional control By drawing on practice focused research carried out in sites of educational policy and practice each chapter exemplifies for teachers student teachers and teacher educators the sort of knowledge work to coordinate a professional reply to non educationalists who dictate the terms of teaching and teacher education The book provides directions for encouraging critical thinking analytical skills and political activism which consider the needs and interests of diverse children and young people in real classrooms real schools and real communities Illustrated throughout with practice focused research and drawing on the historical case of Winifred Mercier and her colleagues at the City of Leeds training college who challenged the establishment to leave a legacy of professional control the book will appeal to practitioners academics and researchers in the fields of teacher education and education studies

Leadership for Change in Teacher Education Susan E. Elliott-Johns, 2015-02-03 Leadership for Change in Teacher Education Voices of Canadian Deans of

Education presents a rich sampling of diverse perspectives on the topic in a unique collection of reflections contributed by Canadian deans of education. The focus of the inquiry: What would we hear from deans of education invited to share their perspectives on leadership for change in contemporary teacher education? Invited deans of education reflect on the research policies and practices currently informing their leadership. The results: fourteen engaging and provocative essays offer important insights and increased understandings of the complex nature of their work and explore concerns raised in relation to lived experience and the multi-faceted processes of leading change for teacher education in contemporary contexts. Reflections in these short essays underscore the critical role of deans in provoking, supporting, and championing new ideas and approaches to pedagogy for teacher education and make clear the complexities inherent in leading the change. The Coda highlights the limited scope of related research available in the current literature and recommends urgent attention in both research and practice to the preparation of deans and support for their ongoing professional learning and sustainable leadership. This book will be of great interest to scholars, deans of education, teacher educators, university administrators, and other policymakers. Leadership for Change was a catalyst to immersing myself in this book, promising as it does the Voices of Canadian Deans of Education. A member of the Association of Canadian Deans of Education (ACDE) for over a decade, I have been honoured to join these voices around many conference tables and other informal sessions. The promise of important insights these voices can share is fulfilled within every one of the compelling chapters. The book reminds us of the diverse geographical, political, and theoretical contexts that enhance understandings of multiple perspectives on leadership and the complex educational challenges inherent in contemporary teacher education. A deep commitment to public education and a profound work ethic towards stellar, relevant teacher education resonates across the work of these deans of education. This thought-provoking book makes a valuable contribution to the literature on reconceptualising leadership for teacher education.
