This is Not the End of the Book Jean-Claude Carrière, Umberto Eco, 2011-05-05 The book is like the spoon once invented it cannot be bettered Umberto Eco These days it is impossible to get away from discussions of whether the book will survive the digital revolution Blogs tweets and newspaper articles on the subject appear daily many of them repetitive most of them admitting ignorance of the future Amidst the twittering the thoughts of Jean Claude Carrière and Umberto Eco come as a breath of fresh air This thought provoking book takes the form of a conversation in which Carrière and Eco discuss everything from how to define the first book to what is happening to knowledge now that infinite amounts of information are available at the click of a mouse En route there are delightful digressions into personal anecdote We find out about Eco's first computer and the book Carrière is most sad to have sold And while as Carrière says the one certain thing about the future is that it is unpredictable it is clear from this conversation that in some form or other the book will survive [Refresh the Book](#)

Epistolarity in a Post-Letter World Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock s Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature

Portable Prose Jarrad Cogle, N. Cyril Fischer, Lydia Saleh Rofail, Vanessa Smith, 2018-11-09 Portable Prose The Novel and the Everyday examines the novel as a privileged site for representing the everyday as well as a physical object that occupies public and private space This collection interrogates the relationships between these differing aspects of the novel's existence negotiating the boundaries between the material world subjective experience and strategies of representation This collection offers a wide array of innovative novelistic explorations with a focus ranging from nineteenth century fiction to contemporary literary theory and explores the portability of novels as both physical things and virtual hermeneutic devices While mimetic qualities of prose remain an integral consideration for literary interpretation this collection argues for more diverse frameworks ones that see aesthetic components of the novel in close connection with reading practices shared structures of feeling and the corporeal In this capacity this volume will argue for readings of texts that consider the capacity for literary culture to move through the world but also to make it or re make it new

Criticism After Theory from Shakespeare to Virginia Woolf Perry Meisel, 2022-05-30 The argument of this book is a simple one that criticism after theory is a single movement of thought defined by synthesis and continuity rather than by conflict and change The most influential figures in criticism since Saussure Bakhtin Derrida and Foucault are wholly consistent with Saussure's foundational Course in General Linguistics 1916 no matter the traditions of complaint that have followed in Saussure's wake from Bakhtin forward These complaints vitiate despite themselves and often hilariously so the misconceptions that have made cottage industries out of quarrels with Saussurean semiology that are based on notions of Saussure that are incorrect The materialist criticism dominant today is actually dependent upon on the legacy of a presumably formalist structuralism rather than a step beyond it New Historicism postcolonialism gender studies environmental criticism archive studies even shared and surface reading are like deconstruction the by products of Saussure's structuralism not its foils Saussure's sign is sensory and concrete Language and materiality are not distinct but one and the same history society the psychological subject even the environment are

systems of signs material archives read and reread by futures that produce the past after the fact Without Saussure contemporary criticism would have no identifiable or effective source The book begins with chapters on Saussure and Derrida Bakhtin and Shakespeare and Freud and Foucault followed by chapters on Victorian and American fiction D H Lawrence and modern poetry Virginia Woolf and Melanie Klein and the historicist tropology of psychoanalysis It concludes with a coda in life writing on the author s epileptic disability

Eco's Chaosmos Cristina Farronato,2003-01-01 While Umberto Eco s intellectual itinerary was marked by his early studies of post Crocean aesthetics and his spectacular concentration on linguistics information theory structuralism semiotics cognitive science and media studies what constitutes the peculiarity of his critical and fiction writing is the tension between a typically medieval search for a code and the hermeneutic representative of deconstructive tendencies This tension between cosmos and chaos order and disorder is reflected in the word chaosmos In this brilliant assessment of the philosophical basis of Eco s critical and fictional writing Cristina Farronato explores the other distinctive aspect of Eco s thought the struggle for a composition of opposites the outcome deriving from his ability to elicit similar contrasts from the past and re play them in modern terms Focusing principally on how Eco s scholarly background influenced his study of semiotics Farronato analyzes *The Name of the Rose* in relation to William of Ockham s epistemology C S Peirce s work on abduction and Wittgenstein s theory of language She discusses Foucault s *Pendulum* as an explicit comment on the modern debate on interpretation through a direct reference to Early Modern hermetic thought correlates *The Island of the Day Before* as a postmodern mixture of science and superstition and reviews Baudolino as an historical fantastic novel that once again situates the Middle Ages in a postmodern context Eco s *Chaosmos* demonstrates how Eco s use of semiotic theory is important for an understanding of the postmodern aspects of today s literature and culture

A Successful Novel Must Be in Want of a Sequel M. Carmen Gomez-Galisteo,2018-04-30 What happened after Mr Darcy married Elizabeth Bennet in *Pride and Prejudice* Where did Heathcliff go when he disappeared in *Wuthering Heights* What social ostracism would Hester Prynne of *The Scarlet Letter* have faced in 20th century America Great novels often leave behind great questions and sequels seek to answer them This critical analysis offers fresh insights into the sequels to seven literary classics including Jane Austen s *Sense and Sensibility* the Bronte sisters *Jane Eyre* Louisa May Alcott s *Little Women* and Daphne du Maurier s *Rebecca*
