Envy And Other Works:

Envy Юрий Карлович Олеша, 1967 This is the most comprehensive collection in English of Olesha's work. It includes eight stories that have been translated especially for the Anchor edition. Back cover *Understanding Mental Objects* Meir Perlow, 2003-09-02 The ways in which an individual the subject relates to and perceives other people his or her objects has always been a preoccupation of psychoanalysis and in recent years a plethora of concepts has grown up in the literature. In this ground-breaking study Meir Perlow sets out to clarify the changing meanings of the different concepts from context to context, discussing in depth the theoretical issues underlying them. The book begins with an historical survey of how mental objects have been understood in the various schools of psychoanalysis as they have developed. These include Freud and his associates, the object relations approaches of Klein, Fairbairn and Bion, orientations derived from ego psychology such as those of Schafer and Kernberg, and the self-orientation of Winnicott and Kohut. In Part Two the author discusses the conceptual and clinical issues involved in the major differences between the concepts. Finally in Part Three he delineates three basic meanings of the concepts of mental objects as they have emerged in the literature and shows how they are related to ongoing issues in contemporary psychoanalysis. This long overdue clarification of a complex area with its wide-ranging and imaginative grasp of the different theories about objects will be an invaluable reference for all psychoanalysts and psychologists.

Cultures of the Death Drive Esther Sánchez-Pardo, 2003-05-01 A study of melancholia, sexuality and representation in literary and visual texts that can be read at the crossroads of psychoanalysis and the arts in modernism.

Catholic Cults and Devotions Michael P. Carroll, 1989-04-01 Michael Carroll is the first to bring psychoanalytic theory to bear on a range of Catholic cults and devotions including the Rosary, the Angelus, the Stations of the Cross, the Blood Miracles of Naples, the Stigmata, the Forty Hours, the Brown Scapular, and the Sacred Heart of Jesus. Carroll assembles a great deal of historical information that until now has been widely scattered in obscure publications. He suggests why such devotions are absent from the Protestant tradition and argues for a new and more subtle appreciation of the role that Italian Catholicism played in shaping Catholicism generally. *Origines Ecclesiasticæ; Or, the Antiquities of the Christian Church; and Other Works ... Trauma and Forgiveness C. Fred Alford,2014-01-09 Contrary to the view of trauma popularized by literary theorists Trauma and Forgiveness argues that the traumatized are capable of representing their experience and that we should therefore listen more and theorize less Using stories and case studies including testimonies from Holocaust survivors as well as the victims of ordinary trauma C Fred Alford shows that while the traumatized are generally capable of representing their experience this does little to heal them He draws on the British

Object Relations tradition in psychoanalysis to argue that forgiveness which might be expected to help heal the traumatized is generally an attempt to avoid the hard work of mourning losses that can never be made whole Forgiveness is better seen as a virtue in the classical sense a recognition of human vulnerability The book concludes with an extended case study of the essayist Jean Am ry and his refusal to forgive *Object Relations, The Self and the Group* Charles Ashbach,Victor L. Schermer,2005-08-18 Presents a framework for integrating group psychology with psychoanalytic theories of object relations ego and self Key constructs defined discussed and illustrated with practical examples **The Gendered Unconscious** Louise Gyler,2010-04-23 Feminist interventions in psychoanalysis have often attempted either to subvert or re frame the masculinist and phallogentric biases of Freud s psychoanalysis This book investigates the nature of these interventions by comparing the status and treatment of women in two different psychoanalytic models the Kleinian and the feminist models It argues that in fact these interventions have historically tended to reinforce such biases by collapsing the distinction between the gendered minds of individuals and theories of gender This investigation is framed by two steps First in assessing the position of women and the feminine in psychoanalysis The Gendered Unconscious explores not only the ways they are represented in theory but also how these representations function in practice Secondly this book uses a framework of a comparative dialogue to highlight the assumptions and values that underpin the theory and clinical practice in the two psychoanalytic models This comparative critique concludes with the counter intuitive claim that contemporary Kleinian theory may in practice hold more radical possibilities for the interests of women than the practices derived from contemporary psychoanalytic gender theory This book is of significant interest to those studying the psychology of women psychoanalytic studies health psychology sociology gender studies and cultural studies It will also be of interest to clinicians and candidates of professional psychotherapy and psychoanalytic training programmes **Ordinary People and Extra-ordinary Protections** Judith L. Mitrani,2009-03-04 Many people come to analysis appearing quite ordinary on the surface However once below that surface we often come into contact with something quite unexpected extra ordinary protections created to keep at bay any awareness of deeply traumatic happenings occurring at some point in life Judith Mitrani investigates the development and the function of these protections allowing the reader to witness the evolution of the process of transformation wherein defensiveness steadily mutates into communication She lucidly and artfully weaves detailed clinical with a variety of analytic concepts and her original notions including unmentalized experience and its expression in enactments adhesive pseudo object relations and the way in which this contracts and compares with normal and narcissistic object relations provide valuable tools for understanding the infantile transference countertransference and for the refinement of our technique with primitive mental states Ordinary People and Extra Ordinary Protections will prove stimulating and accessible in its style and substance to a broad analytic readership from the serious student of psychoanalysis to the most seasoned professional *Self-in-Relationship Psychotherapy* Augustine Meier,Micheline

Echoes of the Tambaran Paul Roscoe,David Lipset,2011-10-01 In the Sepik Basin of Papua New Guinea ritual culture was

dominated by the Tambaran a male tutelary spirit that acted as a social and intellectual guardian or patron to those under its aegis as they made their way through life To Melanesian scholarship the cultural and psychological anthropologist Donald F Tuzin was something of a Tambaran a figure whose brilliant and fine grained ethnographic project in the Arapesh village of Iahita was immensely influential within and beyond New Guinea anthropology Tuzin died in 2007 at the age of 61 In his memory the editors of this collection commissioned a set of original and thought provoking essays from eminent and accomplished anthropologists who knew and were influenced by his work They are echoes of the Tambaran The anthology begins with a biographical sketch of Tuzin s life and scholarship It is divided into four sections each of which focuses loosely around one of his preoccupations The first concerns warfare history the male cult and changing masculinity all in Melanesia The second addresses the relationship between actor and structure Here the ethnographic focus momentarily shifts to the Caribbean before turning back to Papua new Guinea in essays that examine uncanny phenomena narratives about childhood and messianic promises The third part goes on to offer comparative and psychoanalytic perspectives on the subject in Fiji Bali the Amazon as well as Melanesia Appropriately the last section concludes with essays on Tuzin s fieldwork style and his distinctive authorial voice
