Lovecraft's Magick Realism, Robert Anton Wilson, Timothy Leary and Aleister Crowley. Comics genius Grant Morrison offers *Magic for the people*. It's all here and more. **Transhumanism** David Livingstone, 2015-09-02

Transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential. While the name is new, the idea has long been a popular theme of science fiction featured in such films as *2001: A Space Odyssey*, *Blade Runner*, the *Terminator* series and more recently *The Matrix*, *Limitless*, *Her* and *Transcendence*. However, as its adherents hint at in their own publications, transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God. Modeled on the medieval legend of the Golem and Frankenstein, they believe man will be able to create life itself in the form of living machines or artificial intelligence. Spearheaded by the Cybernetics Group, the project resulted in both the development of the modern computer and MK Ultra, the CIA's mind control program. MK Ultra promoted the mind-expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge. And as revealed in the movie *Lucy* through the use of smart drugs and what transhumanists call mind uploading, man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution: the formation of a collective consciousness or Global Brain. That awaited moment is what Ray Kurzweil, a director of engineering at Google, refers to as The Singularity. By accumulating the total of human knowledge and providing access to every aspect of human activity, the Internet will supposedly achieve omniscience, becoming the God of occultism or the Masonic All-Seeing Eye of the reverse side of the American dollar bill. **I Swear I Saw This** Michael Taussig, 2011-10-20

I Swear I Saw This records visionary anthropologist Michael Taussig's reflections on the fieldwork notebooks he kept through forty years of travels in Colombia. Taking as a starting point a drawing he made in Medellin in 2006 as well as its caption *I Swear I saw this*, Taussig considers the fieldwork notebook as a type of modernist literature and the place where writers and other creators first work out the imaginative logic of discovery. Notebooks mix the raw material of observation with reverie juxtaposed in Taussig's case with drawings, watercolors and newspaper cuttings which blend the inner and outer worlds in a fashion reminiscent of Brion Gysin and William Burroughs's surreal cut-up technique. Focusing on the small details and observations that are lost when writers convert their notes into finished pieces, Taussig calls for new ways of seeing and using the notebook as form. Memory emerges as a central motif in *I Swear I Saw This* as he explores his penchant to inscribe new recollections in the margins or directly over the original entries, days or weeks after an event. This palimpsest of afterthoughts leads to ruminations on Freud's analysis of dreams, Proust's thoughts on the involuntary workings

of memory and Benjamin's theories of history fieldwork Taussig writes provokes childhood memories with startling ease I Swear I Saw This exhibits Taussig's characteristic verve and intellectual audacity here combined with a revelatory sense of intimacy He writes drawing is thus a depicting a hauling an unraveling and being impelled toward something or somebody Readers will exult in joining Taussig once again as he follows the threads of a tangled skein of inspired associations The Literary History of Alberta Volume Two George Melnyk, 1998 In this the companion to the landmark volume The Literary History of Alberta Volume One From Writing on Stone to World War Two George Melnyk examines Alberta literature in the second half of the twentieth century At last Melnyk argues Alberta writers have found their voice and their accomplishments have been remarkable The contradictory landscape the stereotypes of the Indian the Mountie and the Cowboy and the language of the Other speaking from the margins these elements all left their impressions on the consciousness of early Alberta But writers in the last few decades have turned this inheritance to their advantage to create compelling stories about this place and its people Today Melnyk discovers Alberta writers can appreciate not only this achievement but also its essential source the symbolic communication of Writing on Stone The Literary History of Alberta Volume Two extends the study of Alberta's cultural history to the present day It is a vital text for anyone interested in Alberta's vibrant literary culture
