The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Literary Translation Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter relatedness between the concepts and phenomena of world literature and translation The term worlding presented by Stru Eysteinnsson in this collection is coined by Sarah Lawell in her book *Reading World Literature* 1994 where it denotes the reader's pleasurable reading of the meeting of worlds in a literary translation i.e. the meeting of the different cultural environments embodied in a translation from one language into another Through such reading the reader in fact participates in creating true world literature This is a somewhat unorthodox conception of world literature conventionally defined as great literature shelved in a majestic canonical library In the opening article sparking off the theme of this collection Eysteinnsson asks Which text does the concept of world literature refer to It can hardly allude exclusively to the original which the majority of the work's readers may never get to know On the other hand it hardly refers to the various translations as seen apart from the original It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages Picking up

on this question at issue all the essays in this collection throw light on the problematic mechanics of cultural encounters when reading the world in literary translation i e in the texts themselves as well as in the ways in which they have become institutionalised as world literature "The" Athenaeum ,1894 **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1891 **The Publishers' Circular and General Record of British and Foreign Literature** ,1872 *The Athenæum* ,1858 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1897 **The Queen's Men and Their Plays** Scott McMillin, Sally-Beth MacLean, 1998-05-28 This is the first book devoted to the Queen's Men one of the major acting companies of the age of Shakespeare In describing the troupe's position in the general political situation and the London theatre scene of the 1580s the authors break new ground by showing how Elizabethan theatre history can be refocused by concentrating on the company which produced the plays rather than on the authors who wrote them The book combines a thorough examination of documentary evidence with textual and critical analysis to provide a full account of the characteristics which gave the company its identity its acting style staging methods touring patterns and repertoire The conclusions will interest Elizabethan historians as well as students and scholars of early modern theatre
