The Unheard A Memoir Of Deafness And Africa By Josh Swiller:

The Unheard Josh Swiller, 1994-09-30 A young man's quest to reconcile his deafness in an unforgiving world leads to a remarkable sojourn in a remote African village that pulsates with beauty and violence These are hearing aids They take the sounds of the world and amplify them Josh Swiller recited this speech to himself on the day he arrived in Mununga a dusty village on the shores of Lake Mweru Deaf since a young age Swiller spent his formative years in frustrated limbo on the sidelines of the hearing world encouraged by his family to use lipreading and the strident approximations of hearing aids to blend in It didn't work So he decided to ditch the well trodden path after college setting out to find a place so far removed that his deafness would become irrelevant That place turned out to be Zambia where Swiller worked as a Peace Corps volunteer for two years There he would encounter a world where violence disease and poverty were the mundane facts of life But despite the culture shock Swiller finally commanded attention everyone always listened carefully to the white man even if they didn't always follow his instruction Spending his days working in the health clinic with Augustine Jere a chubby world weary chess aficionado and a steadfast friend Swiller had finally found he believed a place where his deafness didn't interfere a place he could call home Until that is a nightmarish incident blasted away his newfound convictions At once a poignant account of friendship through adversity a hilarious comedy of errors and a gripping narrative of escalating violence The Unheard is an unforgettable story from a noteworthy new talent

A Lens on Deaf Identities Irene W. Leigh, 2009-04-24 The last couple of decades have witnessed an explosion of self and identity related literature spurred in large part by the rapid growth of cultural racial and ethnic diversity in the population of the United States the desire to better understand the interface between identity and social groups and the question of whether confronting differences brings about changes in self representation Much of this literature has however often overlooked the fact that diversity encompasses other domains including disabilities such as deafness A Lens on Deaf Identities fills this gap by exploring identity formation in deaf persons How a deaf person develops in societies or groups with preconceived notions of disability deafness and what is best for deaf people has implications not only for the psychological well being and self esteem of the deaf person but also for what a deaf identity really means and who decides that identity The issue of identity formation amongst this population is fraught even the terminology used to describe people with deafness or hearing loss contradicts

the notion of a single deaf experience Deaf deaf oral deaf Oral Hearing Loss hearing impaired acquired hearing loss deaf with a hearing mind and so on The book explores the major influences on deaf identity including the relatively recent formal recognition of a Deaf culture the different internalized models of disability and deafness the appearance of deaf identity theories in the psychological literature the presence of greater racial and ethnic diversity in deaf individuals technology such as the cochlear implant that strongly affects the identity of deaf people and deaf people s ongoing experiences of stigma and oppression A Lens on Deaf Identities will appeal to students and professional researchers in deaf studies and deaf education

Deaf Subjects Brenda Jo Brueggemann,2009-05 In this probing exploration of what it means to be deaf Brenda Brueggemann goes beyond any simple notion of identity politics to explore the very nature of identity itself Looking at a variety of cultural texts she brings her fascination with borders and between places to expose and enrich our understanding of how deafness embodies itself in the world in the visual and in language Taking on the creation of the modern deaf subject Brueggemann ranges from the intersections of gender and deafness in the work of photographers Mary and Frances Allen at the turn of the last century to the state of the field of Deaf Studies at the beginning of our new century She explores the power and potential of American Sign Language wedged as she sees it between letter bound language and visual ways of

learning and argues for a rhetorical approach and digital future for ASL literature The narration of deaf lives through writing becomes a pivot around which to imagine how digital media and documentary can be used to convey deaf life stories Finally she expands our notion of diversity within the deaf identity itself takes on the complex relationship between deaf and hearing people and offers compelling illustrations of the intertwined and sometimes knotted nature of individual and collective identities within Deaf culture
