 cognitive skills and behaviors are associated with intelligence yet decades of research has yielded little consensus on its
 definition Emerging from often conflicting studies is the provocative idea that intelligence evolved as an adaptation humans
 needed to keep up with and survive in challenging new environments The Handbook of Intelligence addresses a broad range
 of issues relating to our cognitive and linguistic past It is the first full length volume to place intelligence in an evolutionary
 cultural framework tracing the development of the human mind exploring differences between humans and other primates
 and addressing human thinking and reasoning about its own intelligence and its uses The works of pioneering thinkers from
 Plato to Darwin Binet to Piaget Luria to Wechsler are referenced to illustrate major events in the evolution of theories of
 intelligence leading to the current era of multiple intelligences and special education programs In addition it examines
 evolutionary concepts in areas as diverse as creativity culture neurocognition emotional intelligence and assessment
 Featured topics include The evolution of the human brain from matter to mind Social competition and the evolution of fluid
 intelligence Multiple intelligences in the new age of thinking Intelligence as a malleable construct From traditional IQ to
