**Academic Framework for 21st-Century Schooling: Promoting Global Peace and Harmony** Mukhopadhyay, Marmar, Kundu, Arnab, 2023-10-16 In an era fraught with existential threats *Academic Framework for 21st Century Schooling Promoting Global Peace and Harmony* answers the urgent call for a new path forward The UN

Secretary General's recent address echoing decades of warnings from UNESCO has underscored the dire state of our world. Global warming, pollution, terrorism, unchecked population growth, discrimination, refugee migration, consumerism, and the ominous specter of weapons of mass destruction loom large in an age marked by nationalism and imperialism. The very fabric of human existence is unraveling, and even the UN's well-intentioned MDG and SDG initiatives are in jeopardy. This book, authored by esteemed scholars, proposes a transformation of global education as the antidote to this crisis. It champions the cultivation of a fresh generation with essential attributes like critical thinking, empathy, respect for diversity, and a profound sense of global responsibility. Schools are envisioned as the crucible for shaping these future citizens. At its core, this book offers a well-founded academic framework for global peace and harmony education, addressing the intricacies of 21st-century schooling, curriculum transformation, global best practices, and the vision of happy schooling. It is a clarion call to scholars and educators to lead the way toward a world where peace and harmony are not just ideals but the very foundation upon which humanity thrives. Our world and future generations depend on this transformative journey one we must embark upon without delay.

Assessing Productivity Impacts of Transportation Investments Glen Elliot Weisbrod, 2014. TRB's National Cooperative Highway Research Program NCHRP Report 786. Assessing Productivity Impacts of Transportation Investments presents a methodology for analyzing productivity effects of transportation system improvements to help decision makers choose among alternative investments. The guidance addresses data needs, availability, and sources to support the analysis; agency staff capabilities and audiences for information on productivity improvements. Publisher's description.

An Age of Accountability John L. Rury, 2023-10-13. An Age of Accountability highlights the role of test-based accountability as a policy framework in American education from 1970 to 2020. For more than half a century, the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment. The theory of change embedded in almost all test-based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools. This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps, which repeatedly failed to materialize. But even after very clear disappointments, no other policy framework has emerged to challenge its hegemony. The American public today has little confidence in institutions to improve the quality of goods and services they provide, especially in the public sector. As a consequence, many Americans continue to believe that accountability remains a vital necessity, even if educators and policy scholars disagree.

Evidence, policy, impact. WHO guide for evidence-informed decision-making, 2022-01-11. The importance of evidence-informed approaches in policy formulation and implementation has long been recognized by the World Health Organization (WHO) and its Member States. With the General Programme of Work (GPW) 13 and the creation of the Science Division, WHO has reinforced its science and evidence-based mandate. This guide offers staff and partner organizations a compendium of WHO tools to successfully leverage evidence for policy and impact and promote evidence-informed decision

making for safe and effective health policy and practice at country and global levels Through its framework the guide will increase awareness and uptake of existing tools and best practices and additionally facilitate collaboration between areas within the Organization and with partners across countries and regions

The Unresolved National Question in South Africa Edward Webster,Karin Pampallis,John Mawbey,Jeremy Cronin,2017-03-01 This volume examines the way in which various strands of left thought have addressed the National Question The re emergence of debates on the decolonisation of knowledge has revived interest in the National Question which began over a century ago and remains unresolved Tensions that were suppressed and hidden in the past are now being openly debated Despite this the goal of one united nation living prosperously under a constitutional democracy remains elusive This edited volume examines the way in which various strands of left thought have addressed the National Question especially during the apartheid years and goes on to discuss its relevance for South Africa today and in the future Instead of imposing a particular understanding of the National Question the editors identified a number of political traditions and allowed contributors the freedom to define the question as they believed appropriate in other words to explain what they thought was the Unresolved National Question This has resulted in a rich tapestry of interweaving perceptions The volume is structured in two parts The first examines four foundational traditions Marxism Leninism the Colonialism of a Special Type thesis the Congress tradition the Trotskyist tradition and Africanism The second part explores the various shifts in the debate from the 1960s onwards and includes chapters on Afrikaner nationalism ethnic issues black consciousness feminism workerism and constitutionalism The editors hope that by revisiting the debates not popularly known among the scholarly mainstream this volume will become a catalyst for an enriched debate on our identity and our future

*Teaching for Learning and Learning for Teaching* Christopher Klopper,Steve Drew,2015-10-30 Teaching for Learning and Learning for Teaching focuses on the emerging global governmental and institutional agenda about higher education teaching quality and the role that peer review can play in supporting improvements in teaching and student outcomes This agenda is a pervasive element of the further development of higher education internationally through activities of governments global agencies institutions of higher education discrete disciplines and individual teachers Many universities have adopted student evaluations as a mechanism to appraise the quality of teaching These evaluations can be understood as providing a customer centric portrait of quality and when used as the sole arbiter of teaching performance they do not instil confidence in the system of evaluation by academic teaching staff Providing peer perspectives as counterpoint whether in a developmental or summative form goes some way to alleviating this imbalance and is the impetus for the resurgence of interest in peer review and observation of teaching This book seeks to recognise cases of peer review of teaching in Higher Education to affirm best practices and identify areas that

require improvement in establishing local national and international benchmarks of teaching quality      **Hoard's Dairyman**
