Life as a clinical psychologist Paul Jenkins, 2025-02-28 Would you like to be a Clinical Psychologist If so this is the ideal book for you as it is a jargon free introduction for anyone wanting to work in this demanding but rewarding mental health profession This clear guide invites you to think critically about whether becoming a Clinical Psychologist is right for you questioning and challenging your views and providing an honest perspective of life as a clinical psychologist Written from personal experience of over 10 years working in applied psychology with a unique knowledge of the practice theory and application of Clinical Psychology Paul Jenkins provides a first hand perspective blending anecdotes with factual advice on the clinical academic culture It is also packed with case studies which highlight a range of different career pathways including in other mental health fields and includes coverage of post qualification life to give the reader a sense of the career you can have after training This book offers a broad and realistic perspective on what it's like to be a clinical psychologist including an understanding of the diversity of the role beyond the therapy room and in the current climate of the NHS Much to our

happiness the book is not a how to guide for clinical psychology training but an honest and open reflection on the profession itself The reader is frequently encouraged to explore their motivations to train in clinical psychology Reflections are prompted on both do I want to be a clinical psychologist and what type of clinical psychologist do I want to be We have each been through the interview process this year The book gave us a number of interesting points to discuss in preparation of and in our interviews For example Jenkins considers the validity of evidence based treatment practitioners differing perspectives on this and the limited number of clinical psychologists actively engaged in research This is a balanced and comforting perspective on the route to clinical training It offers a space to ground yourself in what clinical psychology is and what it can be It will be helpful at any stage of the journey we all need to come back to these reflections occasionally Reviewed by Katie Voss and Alice McNamara Assistant Psychologists in The Psychologist magazine September 2021

Madness, Art, and Society Anna Harpin, 2018-01-19 How is madness experienced treated and represented How might art think around and beyond psychiatric definitions of illness and wellbeing Madness Art and Society engages with artistic practices from theatre and live art to graphic fiction charting a multiplicity of ways of thinking critically with rather than about non normative psychological experience It is organised into two parts Structures psychiatrists institutions treatments illuminates the environments figures and primary models of psychiatric care reconsidering their history and contemporary manifestations through case studies including David Edgar s Mary Barnes and Milos Forman s One Flew Over the Cuckoo s Nest Experiences realities bodies moods promblematizes diagnostic categories and proposes more radically open models of thinking in relation to experiences of madness touching upon works such as Richard Kelly s Donnie Darko and Duncan Macmillan s People Places and Things Reading its case studies as a counter discourse to orthodox psychiatry Madness Art and Society seeks a more nuanced understanding of the plurality of madness in society and in so doing offers an outstanding resource for students and scholars alike [This Much I Know About Mind Over Matter ...](#) John Tomsett, 2017-02-17 In This Much I Know about Mind Over Matter John Tomsett addresses with refreshing honesty the growing problem of the mental health issues experienced by children and young people offering up a plan for averting a mental health crisis in our schools Tomsett interweaves his formative and professional experience with strategies for addressing students mental health issues and insights from his interviews with high profile thinkers on the subject including Professor Tanya Byron Natasha Devon Norman Lamb Tom Bennett Claire Fox and Dr Ken McLaughlin The book is replete with truths about the state of children s mental wellbeing about creating a school culture where everyone can thrive and about living in the shadow of his mother s manic depression With his typical mixture of experience wisdom and research based evidence Tomsett explains how he manages the pressure of modern day state school headship in a climate where you are only as good as your last set of examination results a pressure which acutely affects staff and students too He outlines his strategies for mitigating this pressure and turning the tide of students mental health problems The autobiographical narrative modulates between self

effacing humour and heart wrenching stories of his mother's life blighted by mental illness His professional reflections are a wisdom filled blend of evidence based policy and decades of experience in teaching and school leadership Tomsett writes with genuine humility His prose is beautiful in its seeming simplicity When you pick up one of his books you will find you have read the first fifty pages before you have even noticed surely the hallmark of truly great writing Topics covered include the real state of the nation's mental health the perfect storm that is precipitating a mental health crisis in schools the problems of loose terminology what do we really mean when we talk about a mental health epidemic and poor understanding of mental health problems and mental illness the disparity between mental and physical health in public discourse treatment and funding beginning the conversation about mental health the philosophical and psychological principles underpinning the debate strategies to support students in managing their own mental health better resilience growth mindset mindfulness grit failure and mistakes coping with pressure York's school wellbeing workers project evidence based strategies that have worked in Huntington School metacognitive strategies for improving exam performance interviews with professionals in the field the reality of living with a parent with a serious mental illness self concept and achievement perfectionism the relationship between academic rigour and therapeutic education and significantly what the research says what the experts say and what Tomsett's experience says about averting a mental health crisis in schools Suitable for teachers leaders and anyone with an interest in mental health in schools
