Dancing about Architecture is a Reasonable Thing to Do Joel Heng Hartse, 2022-02-07 Writing about music far from being the specialized domain of the rock critic with encyclopedic knowledge of micro genres or the fancy pants star journalist flying on private planes with Led Zeppelin has become something almost any music lover can do and does It's been said however that writing about music is a difficult even pointless enterprise an absurd impossibility like dancing about architecture But aside from the fact that dancing about architecture would be awesome what is that ineffable something that drives people to write about music at all In this short insightful book Joel Heng Hartse unpacks the rock writer Richard Meltzer's assertion that writing about music should be a parallel artistic effort with music itself and argues that music and the impulse to write about it is part of the eminently mysterious desire for meaning making that makes us human Touching on the close resonances between music language love and belief Dancing about Architecture is a Reasonable Thing to Do is relevant to anyone who finds deep human and spiritual
