The Time Quartet Box Set Time Quartet 1 4 By Madeleine Lengle:

The Native American Renaissance Alan R. Velie, A. Robert Lee, 2013-11-11 The outpouring of Native American literature that followed the publication of N Scott Momaday's Pulitzer Prize winning *House Made of Dawn* in 1968 continues unabated Fiction and poetry autobiography and discursive writing from such writers as James Welch Gerald Vizenor and Leslie Marmon Silko constitute what critic Kenneth Lincoln in 1983 termed the Native American Renaissance This collection of essays takes the measure of that efflorescence The contributors scrutinize writers from Momaday to Sherman Alexie analyzing works by Native women First Nations Canadian writers postmodernists and such theorists as Robert Warrior Jace Weaver and Craig Womack Weaver's own examination of the development of Native literary criticism since 1968 focuses on Native American literary nationalism Alan R Velie turns to the achievement of Momaday to examine the ways Native novelists have influenced one another Post renaissance and postmodern writers are discussed in company with newer writers such as Gordon Henry Jr and D L Birchfield Critical essays discuss the poetry of Simon Ortiz Kimberly Blaeser Diane Glancy Luci Tapahonso and Ray A Young Bear as well as the life writings of Janet Campbell Hale Carter Revard and Jim Barnes An essay on Native drama examines the work of Hanay Geiogamah the Native American Theater Ensemble and Spider Woman Theatre In the volume's concluding essay Kenneth Lincoln reflects on the history of the Native American Renaissance up to and beyond his seminal work and discusses Native literature's legacy and future The essays collected here underscore the vitality of Native American literature and the need for debate on theory and ideology

Ethics and Children's Literature Claudia Mills, 2016-05-13 Exploring the ethical questions posed by in and about children's literature this collection examines the way texts intended for children raise questions of value depict the moral development of their characters and call into attention shared moral presuppositions The essays in Part I look at various past attempts at conveying moral messages to children and interrogate their underlying assumptions What visions of childhood were conveyed by explicit attempts to cultivate specific virtues in children What unstated cultural assumptions were expressed by growing resistance to didacticism How should we prepare children to respond to racism in their books and in their society Part II takes up the ethical orientations of various classic and contemporary texts including prosaic ethics in the *Hundred Acre Wood* moral discernment in *Narnia* ethical recognition in the distant worlds traversed by L Engle and virtuous transgression in recent Anglo American children's literature and in the emerging children's literature of 1960s Taiwan Part III's essays engage in ethical criticism of arguably problematic messages about our relationship to nonhuman animals about war and about prejudice The final section considers how we respond to children's literature with ethically focused essays exploring a range of ways in which child readers and adult authorities react to children's literature Even as children's literature has evolved in opposition to its origins in didactic Sunday school tracts and moralizing fables authors parents librarians and scholars remain sensitive to the values conveyed to children through the texts they choose to share with them

Through the Eyes of a Child Donna E. Norton, Sandra E. Norton, Amy A. McClure, 2003 In its seventh edition *Through the Eyes of a Child: An Introduction to Children's Literature* continues to be a visually stunning theoretically sound comprehensive overview of children's literature. It focuses squarely on selecting and evaluating quality literature to share with children and guiding them to appreciate and respond to that literature. This edition features multicultural literature and young adult literature in every chapter, expanded coverage of biographies and informational books, and over 100 new children's titles referenced throughout. A children's literature CD-ROM accompanies the book and contains bibliographic information for thousands of titles, making it even easier to share quality literature with children and adolescents.

The Whole Story John E. Simkin, 1996 This work is the only comprehensive guide to sequels in English with over 84,000 works by 12,500 authors in 17,000 sequences.

To See the Wizard Laurie Ousley, 2021-02-19 *To See the Wizard: Politics and the Literature of Childhood* takes its central premise as the title indicates from L. Frank Baum's *The Wonderful Wizard of Oz*. Upon their return to The Emerald City after killing the Wicked Witch of the West, the task the Wizard assigned them, Dorothy, the Tin Woodman, Scarecrow, and Lion learn that the wizard is a humbug, merely a man from Nebraska manipulating them, and the citizens of both the Emerald City and of Oz from behind a screen. Yet they all continue to believe in the powers they know he does not have, still insisting he grant their wishes. The image of the man behind the screen and the reader's continued pursuit of the Wizard is a powerful one that has at its core an issue central to the study of children's literature: the relationship between the adult writer and the child reader. As Jack Zipes, Perry Nodelman, Daniel Hade, Jacqueline Rose, and many others point out, before the literature for children and young adults actually reaches these intended readers, it has been mediated by many and diverse cultural, social, political, psychological, and economic forces. These forces occasionally work purposefully in an attempt to consciously socialize or empower, training the reader into a particular identity or way of viewing the world by one who considers him or herself an advocate for children. Obviously, these wizards acting in literature can be the writers themselves, but they can also be the publishers, corporations, school boards, teachers, librarians, literary critics, and parents, and these advocates can be conservative, progressive, or any gradation in between. It is the purpose of this volume to interrogate the politics and the political powers at work in literature for children and young adults. Childhood is an important site of political debate, and children often the victims or beneficiaries of adult uses of power. One would be hard pressed to find a category of literature more contested than that written for children and adolescents. Peter Hunt writes in his introduction to *Understanding Children's Literature* that children's books are overtly important educationally and commercially, with consequences across the culture, from language to politics. Most adults, and almost certainly the vast majority in positions of power and influence, read children's books as children, and it is inconceivable that the ideologies permeating those books had no influence on their

development If there were a question about the central position literature for children and young adults has in political contests one needs to look no further than the myriad struggles surrounding censorship Mark I West observes for instance Throughout the history of children s literature the people who have tried to censor children s books for all their ideological differences share a rather romantic view about the power of books They believe or at least they profess to believe that books are such a major influence in the formation of children s values and attitudes that adults need to monitor every word that children read Because childhood and young adulthood are the sites of political debate for issues ranging from civil rights and racism to the construction and definition of the family indoctrinating children into or subverting national and religious ideologies the literature of childhood bears consciously political analysis asking how socialization works how children and young adults learn of social cultural and political expectations as well as how literature can propose means of fighting those structures To See the Wizard Politics and the Literature of Childhood intends to offer analysis of the political content and context of literature written for and about children and young adults The essays included in To See the Wizard analyze nineteenth and twentieth century literature from America Britain Australia the Caribbean and Sri Lanka that is for and about children and adolescents The essays address issues of racial and national identity and representation poverty and class mobility gender sexuality and power and the uses of literature in the healing of trauma and the construction of an authentic self **Children's Literature Association Quarterly** ,1996 *Children's Books in Print* ,1993 **Books in Print** ,1991
