This collection of critical essays explores how contemporary British authors engage with the theme of crisis in their fiction Of interest to scholars and students of literary and cultural studies this volume investigates crisis as a complex phenomenon not only as a cultural concept involving sociopolitical systems but also as a mode of challenge to established power structures and modes of representation across narrative traditions Through the examination of a variety of leading authors such as Kazuo Ishiguro and award winning texts like Julian Barnes The Sense of an Ending 2011 this collection foregrounds the theme of crisis as a critical commonality emerging among vastly different stylistic expressions of local and global concerns Bringing together a variety of scholars from Germany Italy Greece the UK and the US this collection provides diverse disciplinary perspectives and highlights the significance of social and ethical concerns in contemporary British fiction through the investigation of the theme of crisis On Revision William Germano, 2021-11-05

A trusted editor turns his attention to the most important part of writing revision So you ve just finished writing something Congratulations Now revise it Because revision is about getting from good to better and it s only finished when you decide to stop But where to begin In On Revision William Germano shows authors how to take on the most critical stage of writing anything rewriting it For more than twenty years thousands of writers have turned to Germano for his insider s take on navigating the world of publishing A professor author and veteran of the book industry Germano knows what editors want and what writers need to know Revising is not just correcting typos Revising is about listening and seeing again Revising is a rethinking of the principles from the ground up to understand why the writer is doing something why they re going somewhere and why they re taking the reader along with them On Revision steps back to take in the big picture showing

authors how to hear their own writing voice and how to reread their work as if they didn't write it On Revision will show you how to know when your writing is actually done and until it is what you need to do to get it there **Imagining Ageing** Carmen Concilio, 2018-10-04 What do literary texts tell us about growing old The essays in this volume introduce and explore representations of ageing and old age in canonical works of English and postcolonial literature The contributors examine texts by William Shakespeare Daniel Defoe Julian Barnes Thomas Kinsella Seamus Heaney J M Coetzee Alice Munro Witi Ihimaera and Patricia Grace and together with a medical study they suggest solutions to the challenges arising from the current demographic change brought about by ageing Western populations **Art, History, and Postwar Fiction** Kevin Brazil, 2018 Art History and Postwar Fiction explores the ways in which twenty century novelists responded to visual art and how writing about art was often a means of commenting on historical developments of the period Fiction and Poetry to Help Us Age Laurence W. Mazzeno, Sue Norton, 2025-09-09 This volume explores the theme of age and aging uniquely combining personal reflections from literature professors with sound scholarly analysis of a range of fiction and poetry Bringing together leading literary scholars this collection of essays covers a range of writers and texts representing both the canon and new voices By combining the chapter authors expertise as literary and cultural critics with their own responses to novels short stories and poems the book offers new insights into the life trajectories made available to fiction and poetry readers through compelling narrative and vivid literary representation **Purpose and Providence** Vernon White, 2015-10-22 Do our lives have purpose Despite the rise of secularism we are still confronted by a sense of meaning and direction in the events of history and our own lives something which is beyond us and not our own creation imagination Using the novels of Thomas Hardy and Julian Barnes Vernon White tracks this belief in intellectual history and tests its resilience in modern literature Both novelists portray modern and late modern scenarios where although the idea of an objective purpose has been deconstructed it still haunts the protagonists Using literature as the starting point the discussion moves on to an exploration of this belief in its theological form through the doctrine of providence White critically reviews the classic canon of providence and its pressure points the problems in divine causality the metaphysical assumptions required in its acceptance and the contradictions to be found between God's purpose and the metanarratives of history Using Barth and Frei White suggests new ways of reimagining divine providence to take account of these issues The credibility of this redefined providence is then tested against scripture experience and praxis with the result being an understanding of providence that does not rely on empirical progress **(Re)writing and Remembering** James Dalrymple, Jonathan Fruoco, Virginia Sherman, 2016-02-08 Recounting past events is intrinsic to the storytelling function as most fiction assumes the past tense as the natural means of narrating a story Few narratives draw attention to this process yet others make the act of remembering a primary part of the narrative situation Ranging in its focus from poetry to novels autobiographical memoirs and biopics from the ostensibly fictional to the implicitly real this volume discusses the extent to which such

fictional acts of remembering are also acts of rewriting the past to suit the needs of the present How seamlessly does experience yield to the ordering strictures of narrative and what is at stake in the process What must be omitted or stylised and to what ideological end In making an artefact of the past what role does artifice play and what does this process also tell us about history making

Culture Wars in British Literature Tracy J. Prince, 2012-09-18 The past century's culture wars that Britain has been consumed by but that few North Americans seem aware of have resulted in revised notions of Britishness and British literature Yet literary anthologies remain anchored to an archaic Anglo English interpretation of British literature Conflicts have been played out over specific national vs British identity some residents prefer to describe themselves as being from Scotland England Wales or Northern Ireland instead of Britain in debates over immigration race ethnicity class and gender and in arguments over British literature These debates are strikingly detailed in such chapters as The Difficulty Defining Black British British Jewish Writers and Xenophobia and the Booker Prize Connections are also drawn between civil rights movements in the U S and UK This generalist cultural study is a lively read and a fascinating glimpse into Britain's changing identity as reflected in 20th and 21st century British literature

Cultures and Literatures in Dialogue Elena Bollinger, 2022-12-30 This book addresses the narrative construction of Russian cultural memory in the work of Julian Barnes It investigates how Barnes's texts tend to display a memory process as a transcultural mode of the creation of English and Russian national identities Examining a need to revisit Russian canonical works the detailed discursive analysis of the selected English texts exposes an intertextual remembering by duplication thus contributing to the prevention of forgetting through the recuperation of still misrecollected cultural meanings By creatively incorporating Russian intertextual elements into his work as a novelist the author seems to insist on sweeping across and beyond national boundaries revealing how frail the invention of tradition is when leading to the illusion of a solid collective memory and its political legitimization The book considers not only a constructive dialogue between Barnes's fiction and Russian classical literature but also this writer's interpretative mostly imaginative integration of Russian literature and culture into his work as a novelist Exploring the double meaning of a literary metaphor as a mnemonic image of memory and

a product of imagination it offers a comprehensive analysis of Barnes's texts which play with intertextuality as an efficient tool of displacement of official memory providing a deeper understanding of historical and cultural processes related to the constantly moving architecture of transcultural memory *Pieces of Light* Charles Fernyhough, 2012-07-05 Shortlisted for the Royal Society Winton Prize 2013 and the 2013 Best Book of Ideas Prize Memory is an essential part of who we are But what are memories and how are they created A new consensus is emerging among cognitive scientists rather than possessing a particular memory from our past like a snapshot we construct it anew each time we are called upon to remember Remembering is an act of narrative as much as it is the product of a neurological process *Pieces of Light* illuminates this theory through a collection of human stories each illustrating a facet of memory's complex synergy of cognitive and neurological functions Drawing on case studies personal experience and the latest research Charles Fernyhough delves into the memories of the very young and very old and explores how amnesia and trauma can affect how we view the past Exquisitely written and meticulously researched *Pieces of Light* blends science and literature the ordinary and the extraordinary to illuminate the way we remember and forget *An Introduction to Literature, Criticism and Theory* Andrew Bennett, Nicholas Royle, 2016-03-02 Lively original and highly readable *An Introduction to Literature Criticism and Theory* is the essential guide to literary studies Starting at *The Beginning* and concluding with *The End* chapters range from the familiar such as Character Narrative and The Author to the more unusual such as Secrets Pleasure and Ghosts Now in its fifth edition Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works so that a reading of *Jane Eyre* opens up ways of thinking about racial difference for example while Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literature and laughter The fifth edition has been revised throughout and includes four new chapters Feelings Wounds Body and Love to incorporate exciting recent developments in literary studies In addition to further reading sections at the end of each chapter the book contains a comprehensive bibliography and a glossary of key literary terms A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature **The Novel** Michael Schmidt, 2014 With contributions from Great Britain Ireland America Canada Australia India and Southern Africa influenced by great novelists working in other languages and encompassing a range of genres the story of the novel in English unfolds like a richly varied landscape that invites exploration rather than a linear journey **Where Is My Cute Little Nose?** Pasquale De Marco, 2025-03-08 In a world of noses big and small long and short there lived a little nose who embarked on an extraordinary journey of self discovery Join our young protagonist as they embark on an adventure to find their missing nose encountering a cast of quirky and memorable characters along the way With determination and a sprinkle of magic our hero searches high and low from the depths of the sock drawer to the vast expanse of the backyard leaving no stone unturned in their quest Along the way they learn valuable lessons about friendship self acceptance and the importance
