The Event In Science History Philosophy Art By Yeshayahu Ben Aharon:

The Event in Science, History, Philosophy and Art Yeshayahu Ben-Aharon, 2011-10 In this book Dr Ben Aharon demonstrates how the transformation of human consciousness in modern times is expressed in the fields of Science History Philosophy and Art He shows how creative concepts have been discovered and applied in physics biology genetics and artificial intelligence In the Philosophy chapter Ben Aharon traces the thought of Deleuze and Guattari Foucault Derrida Badiou and Levinas and shows that this radical thinking is no longer abstract theoretical reasoning or mere speculation Rather it is an exercise in generating real cognitive and moral substance taking the human beyond the traditional boundaries of body subjectivity and identity The chapter on Art demonstrates how contemporary artistic work joins together with science and thinking to create a new stream of real becoming and evolution The historical decision of our time is then Are we going to apply this new creativity in social life or will we reverse it into its destructive opposite *The Event* Yeshayahu

Ben-Aharon, 2018-04-24 Could it not be that a tremendously important Event is taking place in the world taking place right now of which our own contemporaries have no presentiment This is indeed so A highly important Event is taking place that is perceptible however only to spiritual vision Rudolf Steiner 25 January 1910 What if matter is not solid fixed and dead but a living and creative Event Could the concrete stuff of our existence be in the process of development and becoming Rudolf Steiner predicted that the new Christ Event would penetrate and transform all earthly and cosmic matter life consciousness and evolution Through this Event we have the opportunity to participate in the vortex of creative life No longer detached external spectators we become co creators in the drama of evolution and in the transformation of human consciousness In this original and challenging work Dr Ben Aharon describes how this momentous Event is expressed in the fields of science history philosophy and art and relates some of the fresh and creative concepts that have been discovered and applied in the disciplines of physics biology genetics and artificial intelligence The Event he concludes leads us to face the central and world historical question of our time Are we as a human race going to use the new creative forces that are available to us positively or will we allow this potential for good to change into its destructive opposite The choice is ours **The Three**

Meetings Yeshayahu (Jesaiah) Ben-Aharon, 2022-04-26 How can our souls unite with the etheric Christ experienced in the etheric world since the end of the last century What steps should we take in the second century of the age of Michael to unite with Him At the centre of humanity's evolution stands the Mystery of Golgotha through which the Christ impulse entered the earth Anthroposophy said Rudolf Steiner was given at the beginning of the last century to prepare for the second major Christ event the etheric Second Coming beginning in 1933 This Event is the portal that leads to the mighty and transformative happenings taking place in the etheric world right now enabling us to meet the etheric Christ Michael and Anthroposophia At the heart of this book is an existential question Early in his anthroposophical work Ben Aharon came to realize that without the light of spiritual science the meeting with the etheric Christ remained simply a personal experience

Likewise without the new life forces streaming from the etheric Christ anthroposophy was merely a body of knowledge frozen in time Both needed each other But how was that mutually enlivening bridge to be built Speaking candidly of his personal spiritual path and inner struggles of consciousness Ben Aharon tackles this fundamental dilemma as a prelude to the forthcoming second edition of his book *The New Experience of the Supersensible Contents include The Ur Phenomena of the Modern Christ Experience Paul's Christ Experience and the Birth of Christian Platonism The Michaelic Yoga The Platonic Aristotelian Essence Exchange at the End of the Twentieth Century The Meeting with the Etheric Christ The Abyss and the Event of the Threshold The Knowledge Drama of the Second Coming The Meeting with Michael The Meeting with Anthroposophia*

Cognitive Yoga: How a Book is Born Yeshayahu Ben-Aharon, 2017-11-09 This little book relates some experiences I had during the spiritual research which was eventually published in my book *Cognitive Yoga* Usually I am concerned with communicating the objective results of my research and not what I experienced whilst doing it But an objective description of what the individual soul undergoes during spiritual research can be valuable to the study of anthroposophy and to those who pursue the spiritual path themselves Through faithful inner work says the author the path of spiritual science can become a living spiritual being an intimate friend in the realms of soul and spirit This being can blossom into an extended spiritual community or school One can converse and co create with this spiritual school including the being of one's teacher by learning its inner language In 2012 Yeshayahu Ben Aharon was confronted with a major obstacle in his research work After struggling alone he felt he could not progress without consulting his colleagues in the spiritual world The intimate soul experiences described in this book took place during such a gathering a special festive occasion with an active and engaged community of spiritual beings I want to share some aspects of what I experienced during this event in the more personal and imaginative language of storytelling It is a kind of new individual Christmas nativity tale about the earthly

ripening of a research problem its heavenly conception embryonic life and finally the birth on earth of what becomes a physical book printed black on white Chapters include Four Stages of Development The Mystery of Conception An Insurmountable Problem Some Soul Experiences on the Threshold A Co Creative Journey The Author is Pregnant A Book is Born

Cognitive Yoga

Yeshayahu (Jesaiah) Ben-Aharon, 2016-09-05 Are you ready to begin the process of making yourself a new etheric body and individuality In the last century Rudolf Steiner issued a challenge for practitioners of western spiritual science Would it be possible to develop a new form of cognitive or Michaelic yoga In contrast to the eastern yogis of old who practiced the spiritualization of inhalation and exhalation such contemporary yogic practice would involve a spiritualization of thinking as well as a transformation of perceptions and sensations In Cognitive Yoga Dr Ben Aharon responds to that call developing the entire modern yogic process and describing it in remarkable detail Through the methods presented committed practitioners of anthroposophy can create a living framework for spiritual research through a fully spiritualized thinking accompanied by a complete renewal of the experiences of perception and sensation as well as of the human body itself Included in the contents of this extraordinary book is a comprehensive guide to the spiritualization of the senses and how this leads to a transmutation of the deepest and most unconscious bodily processes and functions Cognitive Yoga culminates in a pioneering description of a completely individualized meeting with the etheric Christ in the etheric world the most important spiritual and human experience that people can have in our time and over the millennia to come This seminal work built on decades of first hand research provides tangible evidence that western spiritual schooling is not only alive and well but also full of potential for future development Ben Aharon offers a fully formulated and practical guide to a knowledge of the present revelations of the spiritual world

The Time is at Hand! Yeshayahu (Jesaiah) Ben-Aharon, 2024-04-24 The twenty first century is the second middle century of the three centuries of the present age of Michael and it is the most decisive one If humanity again misses Michael's goal it will hardly be possible to recuperate from it and human evolution will be derailed for a long time The present age of Michael can therefore rightly be called the Apocalypse of the age of Michael Yeshayahu Ben Aharon In five lively challenging lectures Dr Ben Aharon offers encouraging perspectives on the apocalyptic challenges facing humanity The key Michaelic task for human beings today he says is to comprehend fully the new revelation of the etheric Christ On the success of this depends humanity's resurrection from the abyss from the grave of civilization However it can still be achieved and the time is at hand The author describes the global School of Spiritual Science's contemporary work to create a path to conscious recognition of the Christ and Michael impulses Offering numerous fresh viewpoints into the trials of our time The Time is at Hand is an essential handbook for any serious student of anthroposophy The talks from 2017 and 2022 are titled Ahrimanic Immortality the Matrix and the Technological Singularity Michaelic Immortality The Two Apocalyptic Beasts and the Mystery of the Wound Follow This Star and The Time is at Hand Jerusalem Yeshayahu (Jesaiah)

The New Experience of the Supersensible Jesaiah Ben-Aharon, 2007 According to Rudolf Steiner s spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds The force that leads to this development called by various names in different cultural and religious traditions is called the Christ impulse by Anthroposophy in accordance with Christian terminology Because of new naturally endowed

suprasensory faculties human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse This experience is said to be a naturally given initiation and today we increasingly hear of such suprasensory experiences Today however a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking This book builds an all important bridge between the naturally given suprasensory experience and its conscious cognition As a result empirical suprasensory research can investigate the different aspects of Christ's etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age This new paperback edition adds a new introductory chapter
