The I Ching Or Of Changes By Fu Xi:

Teaching the I Ching (Book of Changes) Geoffrey Redmond, Tze-Ki Hon, 2014-09-01 Chinese traditional culture cannot be understood without some familiarity with the I Ching yet it is one of the most difficult of the world's ancient classics. Assembled from fragments with many obscure allusions, it was the subject of ingenious but often conflicting interpretations over nearly three thousand years. *Teaching the I Ching Book of Changes* offers a comprehensive study at a time when interest in Asian philosophy and the culture of China is on the rise. Still widely read in China, it has become a countercultural classic in the West. Recent scholarship has radically altered our understanding of this foundational work. Geoffrey Redmond and Tze Ki Hon present an up-to-date survey of recent studies, including reconstruction of the early meanings, excavated manuscripts, the New Culture Movement, and the Cultural Revolution. To facilitate introducing the classic to students, the necessary background is provided for university teachers and students, even non-China specialists. The teaching approaches described will foreground the otherness of the classic yet engage the interests of twenty-first century students. Rather than dismissing the text's popular association with divination, they explain why this mode of human thought has persisted for millennia. Thus Redmond and Hon mediate between the two extreme views of the classic: a source of timeless ancient wisdom on the one hand and a historical curiosity on the other. *Teaching the I Ching Book of Changes* makes this important classic accessible to a broad readership, thus providing a crucial service for those interested in China, early civilization, and world religion. Now anyone with a serious interest can understand a text that continues to have a decisive influence on Chinese and world culture three thousand years after its original composition.

The I Ching or Book of Changes, 2011-01-02 The bestselling English translation of the ancient classic of Chinese divination that has inspired millions with its timeless insights into the changing nature of existence. The I Ching or Book of Changes has exerted a living influence in China for thousands of years. Today it continues to enrich the lives of readers around the world. First set down in the dawn of history as a book of oracles, it grew into a book of wisdom with the inclusion of commentaries on its oracular pronouncements, eventually becoming one of the Five Classics of Confucianism and providing a common source for both Confucianist and Taoist philosophy. This edition of the I Ching is the most authoritative and complete translation available, preserving the spirit of the ancient text while providing a vital key for anyone who seeks to live harmoniously with the immutable law of change. The book presents the sixty-four hexagrams of the I Ching along with their texts and interpretations in a format especially designed for easy reference. Unlike many editions of the I Ching, it also features the Ten Wings, supplemental writings traditionally ascribed to Confucius that provide indispensable insights into the symbolic structure of the hexagrams and their place in a cosmology where change is the only constant. With an illuminating foreword by C. G. Jung and an informative introduction by Richard Wilhelm, this beautiful edition of the I Ching shares the essence of wisdom and a true understanding of life.

The Holy Spirit and Ch'i (Qi) Koo Dong Yun, 2012-03-02 This book articulates a contextual pneumatology from a perspective of the Eastern idea of ch i ki in Korean Rather than understanding the Spirit from a Westernized philosophical perspective this book utilizes East Asian categories rooted in the I Ching and Asian religions in dialogue with such prominent Western theologians as Barth Pannenberg Moltmann and Harvey Cox The result is an exciting interaction between the Bible traditions of the West and experiences of the Spirit rooted in East Asia Yun argues that the formal dimension of the Spirit sangjeok is present and active in all cultures and religions while the material dimension of the Spirit muljeok is categorically revealed and embodied through the life of Jesus Christ the event of Pentecost and Charisms given to the church In making his case he mediates a creative balance between countercultural and exclusivist models on the one hand and pluralistic and anthropocentric models on the other
