History of the Novel in English** Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in  
English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction  
written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and  
each volume includes chapters on the processes of production distribution and reception and on popular fiction and the  
fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of  
US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second  
World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of  
US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a  
failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became  
suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary  
historian might well chart a movement within literary cultures away from nationalism and toward what we would call  
cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards  
difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had  
significant competition for the US public's attention from other forms of narrative and media film television comic books  
videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual  
form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its  
encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically  
associated with multiculturalism in the United States *The Cancer Plot* Reginald Wiebe, Dorothy Woodman, 2024-04-05 In  
*The Cancer Plot* Reginald Wiebe and Dorothy Woodman examine the striking presence of cancer in Marvel comics Engaging  
comics studies medical humanities and graphic medicine they explore this disease in four case studies Captain Marvel Spider  
Man Thor and Deadpool Cancer the authors argue troubles the binaries of good and evil because it is the ultimate nemesis  
within a genre replete with magic mutants and multiverses They draw from gender theory disability studies and cultural  
theory to demonstrate how cancer in comics enables an examination of power and responsibility key terms in Marvel's  
superhero universe As the only full length study on cancer in the Marvel universe *The Cancer Plot* is an appealing and  
original work that will be of interest to scholars across the humanities particularly those working in the health humanities  
cultural theory and literature as well as avid comics readers **Understanding Superhero Comic Books** Alex
