Gerson, 1994-03-15 TABLE OF CONTENTS Introduction The ancient biography of Epicurus The extant letters Ancient collections of maxims Doxographical reports The testimony of Cicero The testimony of Lucretius The polemic of Plutarch Short fragments and testimonia from known works From On Nature From the Puzzles From On the Goal From the Symposium From Against Theophrastus Fragments of Epicurus letters Short fragments and testimonia from uncertain works Logic and epistemology Physics and theology Ethics Index **The Epicurus Reader** Epicurus, 1994 TABLE OF CONTENTS Introduction The ancient biography of Epicurus The extant letters Ancient collections of maxims Doxographical reports The testimony of Cicero The testimony of Lucretius The polemic of Plutarch Short fragments and testimonia from known works From On Nature From the Puzzles From On the Goal From the Symposium From Against Theophrastus Fragments of Epicurus letters Short fragments and testimonia from uncertain works Logic and epistemology Physics and theology Ethics Index *The Oxford Handbook of Epicurus and Epicureanism* Phillip Mitsis, 2020 Most complete and detailed account of all areas of Epicurus's philosophy in English Includes a detailed and authoritative account of Philodemus Examines later historical figures who were influenced by Epicureanism Explores the Herculaneum papyri and the inscription of Diogenes of Oenoanda Book jacket *Epicurus* Michael Erler, 2019-11-08 This new introduction into Epicurus practical ethics and politics provides an overview of Epicurus attitudes towards political religious and cultural traditions Emphasising his claim that philosophy is an art of living that helps people to achieve individual happiness the book pays special attention to Epicurus understanding of philosophy as caring for the soul of one's own It explains how this Epicurean self care is connected with caring for others since a happy life requires security that can almost only be found in a community Epicurus practical ethics includes a special appreciation of friendship and a conception of politics which indeed focuses on caring for the souls of others It thus stands firmly in the Socratic tradition This understanding of practical ethics contributed significantly to the fact that despite many hostilities at least practical ethical aspects of Epicurus teachings were still discussed in the Greco Roman Empire and sometimes even appreciated by early Christian philosophers **Epicurus in 60 Minutes** Walther Ziegler, 2022-11-03 The philosopher Epicurus 341 270 BC has been controversial since antiquity His provocative key idea is of compelling simplicity Every human being possesses by nature an internal compass In order to be happy he must do what causes him pleasure and joy and avoid what causes him displeasure and harm He writes Pleasure is the starting point and goal of living blessedly It is our first innate good and our starting point for every choice and avoidance Already newborns follow this pleasure principle But this discovery which might at first seem so obvious struck Epicurus's contemporaries as a monstrous provocation The notion that the highest goal of life is enjoying pleasure stands in stark contrast to the then established teachings of Plato Aristotle and the Stoics These latter saw reason and a life lived by reason as the highest goal of Man Because Epicurus accepted women into his school and even had a love affair with one of them his

contemporaries called him a glutton and sex fiend The Greek poet Timon described him as doggish the Stoic Epictetus as a wastrel Christian authors later even called him the Antichrist But these critiques are fundamentally false because beyond a superficial striving for pleasure Epicurus's deeper concern was a lifelong painstaking care of the self His questions then remain burningly relevant What are the basic human needs whose satisfaction yields a happy life Which needs are really necessary to life and which not How concretely should we deal with these needs for example with the need for food drink sexual intercourse and friendship The book contains almost a hundred quotes from this charismatic ancient philosopher It appears as part of the beloved series Great Thinkers in 60 Minutes which has now been translated worldwide into six languages

*In Between Communication Theories Through One Hundred Questions* Tomas Kačerauskas, Algis Mickūnas, 2020-03-02 This book takes the form of a dialogue It presents two authors specialized in the phenomenology posing questions to each other and offering complex answers for critical discussion The book includes both presentation of different communication schools and philosophizing on the issues of communication The authors debate numerous topics by providing the definition and etymology of communication examining the limits of communication and using a philosophical base of communication The issue which pervades all domains is that of mediation how things such as identities styles and bodies are mediated by culture history and tradition and what the limits are of such mediation This question leads to more complex issues of mediated mediations such that an explication of one medium is framed by another medium leading to a question of meta language as a fundamental unmediated medium This involves some fine points of mediation perspectivity discursivity ethics of communication ideology private and public Throughout the mutual interrogative dialogue the authors touch upon but avoid the daunting commitment to a theory of metacommunication as well as the transcendental problematic of accessing the numerous theoretical thematic and historical aspects of communication

**Truth and Irony** Terence J. Martin, 2015-12-15 Tapping into selected works of Erasmus of Rotterdam this book offers a series of philosophical meditations designed to retrieve and deploy a distinctively Erasmian manner of thinking one that is capacious in its perception agile in its judgments and unsettling in its irony In purpose it takes a philosophical route addressing perennial questions of self knowledge what we can know and how best to communicate what we take to be true what we ought to do or how we should live and what we might hope for or what would offer us fulfilment In method however this work taps into the various strategies of irony at play in the works of Erasmus looking for guidance in handling these age

old questions What readers will find in Erasmus is a knack for playfully reversing appearances and realities a penchant for pushing disturbing questions relentlessly to the limit and a skill for juxtaposing oddly matched opposites Again and again Erasmus presses readers to rethink these fundamental questions with dexterity and nuance ever ready to appreciate the surprising and unsettling upshot of ironic insight *The Shadow of Unfairness* Jeffrey Edward Green,2016 Many observers of Western democracies from Thomas Piketty in *Capital in the Twenty first Century* to proponents of compaign finance reform in the United States have lamented the rise of plutocracy claiming that putatively democratic capitalist societies are moving ever closer to rule by and for the wealthy These critics common understanding seems to be that the movement toward plutocracy is not only a pernicious and growing phenomenon but also one that might have been prevented In this sequel to his prize winning book *The Eyes of the People* Jeffrey Edward Green advances the polemical argument that plutocracy is a permanent feature of any liberal democratic regime Green draws on philosophy history social science and literature to ask what democracy can mean in a world where it is understood that socioeconomic status to some degree will always determine opportunities for civic engagment and career advancement Under this shadow of unfairness Green argues that the most advantaged are rightly subjected to compulsory public burdens And just as provocatively he urges ordinary citizens living in politics permanently darkened by plutocracy to acknowledge their second class status and the uncomfortable civic ethics that come with it specifically an ethics whereby the pursuit of egalitarianism is informed at least in part by indignation envy uncivil modes of discourse and even the occassional suspension of politcal care *The Shadow of Unfairness* is likely to unsettle all sides of the political and educational systems will always be tainted by socioeconomic inequality from dust jacket

[The Conversion and Therapy of Desire](#) Mark J. Boone, 2016-04-21 The first fruits of the literary career of St Augustine the great theologian and Christian philosopher par excellence are the dialogues he wrote at Cassiciacum in Italy following his famous conversion in Milan in 386 AD These four little books largely neglected by scholars investigate knowledge ethics metaphysics the problem of evil and the intriguing relationship of God and the soul They also take up the ancient philosophical project of identifying the principles and practices that heal human desires in order to attain happiness renewing this philosophical endeavor with insights from Christian theology Augustine's later books such as the Confessions would continue this project of healing desire as would the writings of others including Boethius Anselm and Aquinas Mark Boone's *The Conversion and Therapy of Desire* investigates the roots of this project at Cassiciacum where Augustine is developing a Christian theology of desire informed by Neoplatonism but transformed by Christian teaching and practices

*Pursuits of Wisdom* John M. Cooper, 2013-08-25 This is a major reinterpretation of ancient philosophy that recovers the long Greek and Roman tradition of philosophy as a complete way of life and not simply an intellectual discipline Distinguished philosopher John Cooper traces how for many ancient thinkers philosophy was not just to be studied or even used to solve particular practical problems Rather philosophy not just ethics but even logic and physical theory was literally to be lived Yet there was great disagreement about how to live philosophically philosophy was not one but many mutually opposed ways of life Examining this tradition from its establishment by Socrates in the fifth century BCE through Plotinus in the third century CE and the eclipse of pagan philosophy by Christianity *Pursuits of Wisdom* examines six central philosophies of living Socratic Aristotelian Stoic Epicurean Skeptic and the Platonist life of late antiquity The book describes the shared assumptions that allowed these thinkers to conceive of their philosophies as ways of life as well as the distinctive ideas that led them to widely different conclusions about the best human life Clearing up many common misperceptions and simplifications Cooper explains in detail the Socratic devotion to philosophical discussion about human nature human life and human good the Aristotelian focus on the true place of humans within the total system of the natural world the Stoic commitment to dutifully accepting Zeus's plans the Epicurean pursuit of pleasure through tranquil activities that exercise perception thought and feeling the Skeptical eschewal of all critical reasoning in

forming their beliefs and finally the late Platonist emphasis on spiritual concerns and the eternal realm of Being Pursuits of Wisdom is essential reading for anyone interested in understanding what the great philosophers of antiquity thought was the true purpose of philosophy and of life
