The Foundations Of Leninism By Joseph Stalin:

Foundations of Leninism J. V. Stalin, 2019-11-29 The foundations of Leninism is a big subject To exhaust it a whole volume would be required Indeed a whole number of volumes would be required Naturally therefore my lectures cannot be an exhaustive exposition of Leninism at best they can only offer a concise synopsis of the foundations of Leninism Nevertheless I consider it useful to give this synopsis in order to lay down some basic points of departure necessary for the successful study of Leninism Lenin was a Marxist and Marxism is of course the basis of his world outlook But from this it does not at all follow that an exposition of Leninism ought to begin with an exposition of the foundations of Marxism To expound Leninism means to expound the distinctive and new in the works of Lenin that Lenin contributed to the general treasury of Marxism and that is naturally connected with his name Only in this sense will I speak in my lectures of the foundations of Leninism

On the Foundations of Leninism Joseph Stalin, 2024-05-09 In April 1924 not long after Lenin's death Stalin delivered a series of lectures at Sverdlovsk University that were published under the title *On the Foundations of Leninism* These talks given in early April were meant to codify Lenin's ideas into a coherent doctrine for party cadres Stalin covered topics ranging from Marxist philosophy to policy issues he emphasized the Hegelian roots of Marxism defended the dictatorship of the proletariat and discussed the nationalities question among other subjects Essentially this text was Stalin's systematic exposition of what he believed Leninism to be blending Marxist theory with Lenin's innovations Officially published in 1924 in Moscow as lectures this work was aimed at party and academic audiences The content systematically defines Leninism as it stood in Stalin's view Stalin asserts that Leninism is built on Marxism but adds emphasis on dictatorship of the proletariat as a weapon to suppress counter revolution He affirms that socialism must be internationalist yet tactically flexible in national questions He also declares Marxist philosophy to be dialectical materialism with Lenin's contributions as supplementary No comprehensive English title predated Soviet collections but later translations often use *The Foundations of Leninism* The book reads like an educational primer it states its theses up front and then elaborates with examples from recent history The importance of this work is twofold First it signaled Stalin's authority in defining official ideology in the post Lenin period By putting Leninism into formal language Stalin positioned himself as the chief interpreter of Lenin's legacy Second as a historical document it reveals Stalin's early 1920s priorities for instance chapters on philosophy and party organization show he regarded these as core The lectures were republished widely in the USSR and became part of Leninist textbooks They later served as a source of doctrine within the Communist International In short *On the Foundations of Leninism* helped solidify Stalin's doctrinal leadership just as the Party was wrestling with Lenin's funeral and succession struggles This modern Critical Reader's Edition includes an illuminating afterword tracing Stalin's intellectual relationships with revolutionary philosophers and politicians including Hegel Feuerbach Engels and Ricardo containing unique research into his intellectual development and economic metaphysical theories religious impulses
