The Future Of Love By Daphne Rose Kingma:

The Future of Love Daphne Rose Kingma, 2010-04-21 The future of relationships is moving us toward the vaulting awareness of who we really are as human beings something we have managed to avoid for a very long time by being so thoroughly committed to convention This is the future of love vast love love beyond boundaries love without preconceptions and judgments love without outdated myths love which can actually be experienced At a time when over half of all marriages are ending in divorce Daphne Rose Kingma a well known therapist and relationship expert has recognized that our familiar ways of thinking about relationships are no longer working I have written this book because it is clear that many of our previous assumptions about relationships need to be dismantled writes Kingma As we go through this process we will discover a number of new ideas that our relationships can have different forms than we ever imagined that they will serve different purposes that they will require different offerings from us They will also bring us new gifts We are in the midst of a sea change in which not only are many traditional relationships failing but unexpected new arrangements are beginning to appear gay marriages are surfacing step families abound and many people are consciously choosing to live alone As Kingma explains these transformations should not be feared instead they represent a real opportunity In the past conventional relationships were often destroyed by an overemphasis on the nuts and bolts of psychology on working to achieve the unattainable perfect relationship while ignoring our most vital selves our souls The glorious message of *The Future of Love* is that the disturbing changes we are all experiencing are actually part of the soul's plan as it breaks down outdated conventions to bring us a new fuller understanding of love
