The Last Man Alive By As Neill:

The Last Man Alive Alexander Sutherland Neill, 1969 The adventures of a group who survived a poisonous cloud that turned everyone else into stone A. S. Neill Richard Bailey, 2014-10-23 A S Neill was probably the most famous school teacher of the twentieth century His school Summerhill founded in 1921 attracted admiration and criticism from around the world and became an emblem of radical school reform and child centred education Neill claimed that he was a practical man but this book reveals that Summerhill expresses a comprehensive and distinctive set of ideas Whether he wanted to be or not Neill was an important educational thinker with a powerful influence on current educational approaches and philosophy A S Neill is the first book to examine this philosophy of education in detail It begins by showing how Neill s fascinating life story gives clues to the origin of his ideas and why they mattered so much to him It goes on to explore the main themes of his philosophy showing how they relate to the work of other great educational thinkers and how they are novel It also discusses whether there are lessons that could and should be learned by other schools from the original alternative free school of Summerhill **Neill of Summerhill (Routledge Revivals)** Jonathan Croall, 2013-09-13 A S Neill was arguably the most famous child educator of the twentieth century He was certainly the most controversial All over the world countless parents and teachers have been shocked delighted or inspired by his subversive ideas about education or by a visit to that dreadful school which continues to this day Summerhill First published in 1983 this sympathetic but critical exploration of his iconoclastic ideas and personality is the result of interviews with two hundred ex pupils parents and teachers about life at Summerhill and of the practicality of Neill s philosophy about child freedom Jonathan Croall has also drawn on many unpublished letters and documents which help to illuminate Neill s personal struggles and his analysis and friendship with Homer Lane Wilhelm Stekel and Wilhelm Reich The result is a fascinating and revealing portrait of a remarkable man who in his absolute determination to be on the side of the child remained in permanent opposition to the adult world Cuerpo de Maestros. Häberlen,2014-07-24 Learning How to Feel explores the ways in which children and adolescents learn not just how to express emotions that are thought to be pre existing but actually how to feel The volume assumes that the embryonic ability to feel unfolds through a complex dialogue with the social and cultural environment and specifically through reading material The fundamental formation takes place in childhood and youth A multi authored historical monograph Learning How to Feel uses children s literature and advice manuals to access the training practices and learning processes for a wide range of emotions in the modern age circa 1870 1970 The study takes an international approach covering a broad array of social cultural and political milieus in Britain Germany India Russia France Canada and the United States Learning How to Feel places multidirectional learning processes at the centre of the discussion through the concept of practical knowledge The book innovatively draws a framework for broad historical change during the course of the period Emotional interaction between adult and child gave way to a focus on emotional interactions among children while gender categories became less distinct Children were increasingly taught to take responsibility for their own emotional development to find authenticity for themselves In the context of changing social political cultural and gender agendas the building of nations subjects and citizens and the forging of moral and religious values Learning How to Feel demonstrates how children were provided with emotional learning tools through their reading matter to navigate their emotional lives *The New York Times Book Review* ,1970-04 **Histories, Myths and**
