The Picture of Society in "The Lottery" by Shirley Jackson Anna Dabek, 2014-11-26 Essay from the year 2008 in the subject American Studies Literature grade A course American Literature language English abstract Shirley Jackson's short story The Lottery was first published in the New Yorker in 1948 and it aroused a lot of controversy among the newspaper's readers Those who read Jackson's story were totally confused and unable to understand the author's intentions In 1948 issue of the San Francisco Chronicle Jackson accounted for her reasons behind writing the story Explaining just what I had hoped the story to say is very difficult I suppose I hoped by setting a particularly brutal ancient rite in the present and in my own village to shock the story's readers with a graphic dramatization of the pointless violence and general inhumanity in their own lives Jackson in Kosenko 1985 27 Although the author succeeded in startling the readers the motives for portraying the American society in such a way were still unclear Is there any correspondence between the writer's personal experiences and the image of society she depicts in The Lottery First of all the village described in the story seems to be similar to a rural area in which Jackson lived when she wrote it Secondly the short story villagers violence may have its origin in an incident from Shirley Jackson's life She created the story after she had been pelted with stones by some school children while she had been going home What is more Lynette Carpenter makes the interesting remark that Jackson had a tendency to bestow her own features of character on her heroines
