Everyone has the right to seek asylum under international law. However successive governments in Australia have declared the need to stop the boats whatever the cost be it human economic moral or legal. In this new book Jane McAdam and Fiona Chong find that Australia's policies towards refugees have hardened since their bestselling *Refugees: Why seeking asylum is legal and Australia's policies are not* was published in 2014. Now *Refugee Rights and Policy Wrongs* provides a wholly updated account of Australian refugee law and policy. Bringing facts to bear on a highly politicised debate, McAdam and Chong explain why Australia falls short of its own international commitments when it comes to policies on offshore processing, detention and boat turnbacks among others. This up to date account of Australia's refugee laws and policies could not come at a more crucial time and is compelling reading for anyone seeking to understand the human impacts of Australia's practices. This book should be read by all Australians concerned about the inhumanity demonstrated by successive federal governments when dealing with refugees seeking our protection. Ian McPhee AO

The Trafficking of Children Elizabeth A. Faulkner, 2023-04-10 The phenomenon of child trafficking holds a unique position as an issue of significant contemporary relevance occupying a principal place in debates about human rights today The interchangeable terms trafficking and modern slavery evoke emotive responses and proclamations about abolition of contemporary ills viewed as the ultimate aberration when a child is involved The classification of children under legal frameworks marks them as different as others and in the context of laws implemented to address trafficking slavery and children on the move more generally this distinction is complicated This book charts the emergence decline and re emergence of child trafficking law and policy during the twentieth and twenty first centuries It provides a systematic and comprehensive overview of the historical origins of child trafficking by utilising the wealth of information located within the non digitised archives of the League of Nations It focusses upon the Committee on the Traffic in Women and Children to engage with League of Nations policy to provide an insightful and original contribution to the current body of literature This is a book that seeks to critique the entanglements of children's rights and colonialism in relation to the mobility and exploitation of children It centralises

the legacy of colonialism the undercurrents of race white supremacy patriarchy and their ongoing influence upon contemporary anti trafficking legal and policy responses Through utilizing what the author identifies as the anti trafficking machine as a theoretical framework the book challenges contemporary law and policy responses to child trafficking This theoretical framework has been adopted to illustrate a central hypothesis of the book that the contemporary anti trafficking agenda is both imperialist and a continuity of colonial attitudes
