that they face many challenges and special circumstances that civilian children and families don't experience. These can include gaps in school attendance and learning due to frequent moves, being separated from a parent who has been deployed, and a sense of isolation in the midst of a civilian community. This unique guide provides parents with the information they need to choose a welcoming school or daycare program and suggests steps they can take to advocate for their children. It also highlights the types of questions parents should ask about how their children are faring socially, emotionally, and academically, such as: What can I do to help my child make a smooth transition to a new school? How can I support my child academically? What resources or staff does my school have to meet the needs of military children?

Schools across America are rolling out new, more rigorous curricula in order to meet the demands created by a new set of English and Mathematics standards known nationally as the Common Core State Learning Standards or Common Core. You can expect to see a number of changes in your child's third grade class based on the requirements of the Common Core standards. In an effort to address Common Core Reading requirements, students will now read more Informational Texts in their English Language Arts assignments. In addition, questions posed about these readings will ask students to find evidence and use it to formulate an argument. To address Common Core Math requirements, students will spend more time developing their understanding of specific and important math
