

ALEXANDER THE GREAT FAILURE

JOHN D. GRAINGER

Alexander The Great Failure The Collapse Of The Macedonian Empire

Michael Rajnik

Alexander The Great Failure The Collapse Of The Macedonian Empire:

Alexander the Great Failure John D Grainger, 2007 A provocative title obviously but this book isn't just polemic and makes some very valid points about the traditional view of Alexander and his supposed genius **Alexander the Great Failure** John D Grainger, 2009-08-11 In this authoritative book John Grainger explores the foundations of Alexander's empire and why it did not survive after his untimely death in 323 BC **Alexander's Veterans and the Early Wars of the Successors** Joseph Roisman, 2012-08-24 From antiquity until now most writers who have chronicled the events following the death of Alexander the Great have viewed this history through the careers, ambitions and perspectives of Alexander's elite successors. Few historians have probed the experiences and attitudes of the ordinary soldiers who followed Alexander on his campaigns and who were divided among his successors as they fought for control of his empire after his death. Yet the veterans played an important role in helping to shape the character and contours of the Hellenistic world. This pathfinding book offers the first in-depth investigation of the Macedonian veterans' experience during a crucial turning point in Greek history. 323-316 BCE. Joseph Roisman discusses the military, social and political circumstances that shaped the history of Alexander's veterans, giving special attention to issues such as the soldiers' conduct on and off the battlefield, the army assemblies, the volatile relationship between the troops and their generals and other related themes, all from the perspective of the rank and file. Roisman also reexamines the biases of the ancient sources and how they affected ancient and modern depictions of Alexander's veterans as well as Alexander's conflicts with his army, the veterans' motives and goals and their political contributions to Hellenistic history. He pays special attention to the Silver Shields, a group of Macedonian veterans famous for their invincibility and martial prowess, and assesses whether or not they deserved their formidable reputation.

Greek and Macedonian Land Battles of the 4th Century B.C. Fred Eugene Ray, Jr., 2012-09-28 With its mixture of famous battles and storied commanders, warfare in 4th-century B.C. Greece has long held a fascination for military enthusiasts and the general public alike. Histories, biographies and popular culture have turned the exploits of noted generals like Xenophon and Iphicrates of Athens, Epaminondas of Thebes and the father-son team of Philip II and Alexander the Great of Macedonia into the stuff of legend. Drawing from ancient accounts along with suitable analogs, this detailed work offers meticulous reconstructions of 187 of the 4th century's most significant land engagements, considering tactical patterns, evolving trends and the lasting impact of the era's most influential military minds. By separating myth from reality, these recreations provide incredible insight into past ways of war that continue to influence the course of combat today **Alexander the Great and His Empire** Pierre Briant, 2010-07-21 Presents a short history of Alexander the Great's conquest of the Persian empire from the Mediterranean to Central Asia. This book sets the rise of Alexander's short-lived empire within the broad context of ancient Near Eastern history under Achaemenid Persian rule as well as against Alexander's Macedonian background **The Rise of the Seleukid Empire, 323-223 BC** John D. Grainger, 2014-08-06 The first of three books on the ancient Greek

dynasty reads with the pull of a novel and shows how the new Empire rose and fell Firetrench The Seleukid kingdom was the largest state in the world for a century and more between Alexander's death and the rise of Rome The first king Seleukos I established a pattern of rule which was unusually friendly towards his subjects and his policies promoted the steady growth of wealth and population in many areas which had been depopulated when he took them over In particular the dynasty was active in founding cities from Asia Minor to Central Asia Its work set the social and economic scene of the Middle East for many centuries to come Yet these kings had to be warriors too as they defended their realm from jealous neighbors John D Grainger's trilogy charts the rise and fall of this superpower of the ancient world In the first volume he relates the remarkable twists of fortune and daring that saw Seleukos an officer in an elite guard unit emerge from the wars of the Diadochi Alexander's successors in control of the largest and richest part of the empire of the late Alexander the Great After his conquests and eventual murder we then see how his successors continued his policies including the repeated wars with the Ptolemaic rulers of Egypt over control of Syria The volume ends with the deep internal crisis and the Wars of the Brothers which left only a single member of the dynasty alive in 223 BC

The Military Legacy of Alexander the Great
Michael P. Ferguson, Ian Worthington, 2023-11-28 Placing Alexander the Great's leadership command skills and grand strategy within the context of twenty first century military challenges and thus showing continuities in leadership and warfare since his time this volume demonstrates how and why Alexander is relevant to the modern world by emphasizing the need for human leadership in our digital era Not only does this volume explore Alexander's rich military history but also it provides a robust exploration of the twenty first century security environment Theorists and policy makers will gain insight into how Alexander's story informs our thinking about peace war and strategy while practitioners and educators will encounter ways to improve their approaches to leader development and building curricula Ferguson and Worthington set forth these lessons in a thematic framework that organises Alexander's reign into distinct parts together with chapters discussing the lessons and warnings he brings to the modern world Twenty fifth National Security Advisor to the President of the United States Lt Gen H R McMaster provides a thoughtful conclusion to this fascinating volume Alexander's timeless campaigns remain as germane to this age as any other and demonstrate the critical importance of dynamic leadership and historical studies in an era increasingly dominated by the culture of technology The Military Legacy of Alexander the Great is expertly written for students and scholars in a variety of disciplines including Classics Ancient History Modern History Peace Studies and Military Studies It is also of great interest to senior defence leaders military academies leadership and management focused academic programmes intelligence organizations and senior service colleges The volume is also suitable for the general reader interested in warfare military history and history more broadly

Dividing the Spoils
Robin Waterfield, 2012-08-02 Everyone has heard of Alexander the Great the famous conqueror But what happened after his death to the lands he had conquered It took forty years of world changing warfare for his successors to carve up the empire

This thrilling period of unrelenting warfare treachery assassination passion shifting alliances and mass slaughter has been neglected Dividing the Spoils resurrects the fascinating story of this period both the warfare and the world changing cultural developments that were taking place at the same time

Contested Pasts Jennifer Finn, 2022-04-18 Taking as a key turning point the self-fashioning of the first Roman emperor Augustus author Jennifer Finn revisits the idea of universal history in Polybius Justin and Diodorus combined with the Stoic philosophy of determinism present in authors like Plutarch and Arrian Finn endeavors to determine the ways in which Roman authors manipulated narratives about Alexander's campaigns and even other significant events in Mediterranean history to artificially construct a past to which the Romans could attach themselves as a natural teleological culmination In doing so Contested Pasts uses five case studies to reexamine aspects of Alexander's campaigns that have received much attention in modern scholarship providing new interpretations of issues such as his connections to the Trojan and Persian wars the Great Weddings at Susa the battles of Thermopylae in 480 BCE and 191 BCE and Alexander's conflict at the Persian Gates the context of his Last Plans the role of his memory in imagining the Roman Civil Wars and his fictitious visit to the city of Jerusalem While Finn demonstrates throughout the book that the influence for many of these narratives likely originated in the reign of Alexander or his Successors nevertheless these retroactive authorial manipulations force us to confront the fact that we may have an even more opaque understanding of Alexander than has previously been acknowledged Through the application of a mnemohistorical approach the book seeks to provide a new understanding of the ways in which the Romans and people in the purview of the Romans conceptualized their own world with reference to Alexander the Great

A Compendium of World Sovereigns: Volume I Ancient Timothy Venning, 2023-06-30 The Compendium of World Sovereigns series contains three volumes Ancient Medieval and Early Modern These volumes provide students with easy to access who's who with details on the identities and dates ages and wives where known of heads of government in any given state at any time within the framework of reference The relevant original and secondary sources are also listed in a comprehensive bibliography Providing a clear reference guide for students to who was who and when they ruled in the dynasties and other ruler lists for the Ancient Medieval and Early Modern worlds primarily European and Middle Eastern but including available information on Africa and Asia and the pre-Columbian Americas The trilogy accesses and interprets the original data plus any modern controversies and disputes over names and dating reflecting on the shifts and widening of focus in student and academic studies Each volume contains league tables of rulers records and an extensive bibliographical guide to the relevant personnel and dynasties plus any controversies so readers can consult these for extra details and know exactly where to go for which information All relevant information is collected and provided as a one-stop shop for students wishing to check the known information about a world Sovereign The Ancient volume begins with the Pharaohs in Egypt and moves through Greece Classical and Early Medieval Armenia Crimea Syria Jordan Israel and Judah Persia India and ends with the Roman World in the east and west A

Compendium of World Sovereigns Volume I Ancient provides students and scholars with the perfect reference guide to support their studies and to fact check dates people and places A History of Western Public Law Bruno Aguilera-Barchet,2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events **After Demosthenes** Andrew J. Bayliss,2011-07-21 A comprehensive analysis of Athenian political life from 322 262 BC rejecting the notion that political life ended with the death of Demosthenes **The Conquest of Persia: Alexander the Strategist** Cían Harte,2014-06-10 The Conquest of Persia Alexander the Strategist is an in depth analysis of Alexander the Great s ability as an overall strategist His military prowess leadership qualities and his ability to win a battle has rarely been in doubt His decision making however has been called into question and this book focuses on some of the most crucial strategic decisions he had to make Included are analyses of his initial campaigns to secure the Balkans his decision to siege Halicarnassus and subsequently his bold decision to de mobilise his fleet and seek to destroy the Persian navy by land Additionally analysed is the risky adventure of attempting to breach the seemingly impregnable island city of Tyre his choice to annex Egypt and visit the oracle of Siwa as well as his insistence to march through the Gedrosian Desert on his return to Babylon This book argues that at the most critical junctures of his campaign to take over the Persian Empire Alexander s strategic decision making abilities were found wanting **Reign of Arrows** Nikolaus Leo Overtoom,2020 From minor nomadic tribe to major world empire the story of the Parthians success in the ancient world is nothing short of remarkable Reign of Arrows provides the first comprehensive study dedicated entirely to early Parthian history and the first comprehensive effort to evaluate early Parthian political history since 1938 **Alexander the Great** Ian Worthington,2012-03-12 This exciting new edition includes a selection of the most significant and representative published articles and chapters about Alexander and covers all the main areas of debate and discussion in Alexander scholarship **Empire and Politics in the Eastern and Western Civilizations** Andrea Balbo,Jaewon Ahn,Kihoon Kim,2022-08-22 The volume includes the proceedings of the 2nd Roma Sinica project conference held in Seoul in September 2019 and aims to compare some features of the ancient political thought in the Western classical tradition and in the Eastern ancient thought The contributors coming from Korea Europe USA China Japan propose new patterns of interpretation of the mutual interactions and proximities between these two cultural worlds and offer also a perspective of continuity between contemporary and ancient political thought Therefore this book is a reference place in the context of the comparative research between Roman and early Greek thought and Eastern thought Researchers interested in Cicero Seneca Plato post Platonic and post Aristotelic philosophical schools history ancient Roman and Chinese languages could find interesting materials in this work **Ezekiel, Daniel** EuGene Carpenter,David Thompson,2018-02-06 The Cornerstone Biblical Commentary series provides up to date evangelical scholarship on the Old and New Testaments Each

volume is designed to equip pastors and Christian leaders with exegetical and theological knowledge to better understand and apply God's Word by presenting the message of each passage as well as an overview of other issues surrounding the text. The commentary series has been structured to help readers get at the meaning of Scripture passage by passage through the entire Bible. The New Living Translation is an authoritative Bible translation rendered faithfully into today's English from the ancient texts by 90 leading Bible scholars. The NLT's scholarship and clarity breathe life into even the most difficult to understand Bible passages but even more powerful are stories of how people's lives are changing as the words speak directly to their hearts. That's why we call it The Truth Made Clear. David L. Thompson, Ph.D., The Johns Hopkins University, has written scores of popular and professional articles. His books include Bible Study That Works and God's Healing for Hurting Families. Dr. Thompson, an ordained elder in The Wesleyan Church, has pastored several churches. Eugene Carpenter, Ph.D., Fuller Theological Seminary, is Scholar in Residence and Professor of Old Testament Hebrew and Biblical Theology at Bethel College, Mishawaka, IN. He has authored and contributed to several books including commentaries on Exodus and Deuteronomy.

How the Brahmins Won Johannes Bronkhorst, 2016-03-21 This is the first study to systematically confront the question how Brahmanism, which was geographically limited and under threat during the final centuries BCE, transformed itself and spread all over South and Southeast Asia. Brahmanism spread over this vast area without the support of an empire without the help of conquering armies and without the intermediary of religious missionaries. This phenomenon has no parallel in world history yet shaped a major portion of the surface of the earth for a number of centuries. This book focuses on the formative period of this phenomenon roughly between Alexander and the Guptas.

By the Spear Ian Worthington, 2014 Alexander the Great is arguably one of the best known and most exciting figures from antiquity. He waged war as a Homeric hero and lived as one conquering native peoples and territories on a superhuman scale. From the time he invaded Asia in 334 to his death in 323, he expanded the Macedonian empire from Greece in the west to Asia Minor, the Levant, Egypt, Central Asia, and India, Pakistan, and Kashmir in the east. Although numerous other kings and generals forged empires, Alexander produced an empire that was without parallel if only for a moment. And yet Alexander could not have achieved what he did without the accomplishments of his father, Philip II.

359-336 Long after Philip's death and Alexander's invasion of Asia, Philip remained a constant presence in Alexander's life and decisions. It was Philip who truly changed the course of Macedonian history, transforming a weak, disunited and economically backward kingdom into a military powerhouse. A warrior king par excellence, Philip left Alexander with the greatest army in the Greek world, a centralized monarchy, economic prosperity, and a plan to invade Asia. For the first time, *By the Spear* offers an exhilarating military narrative of the reigns of these two larger-than-life figures in one volume. Ian Worthington gives full breadth to the careers of father and son, showing how Philip was the architect of the Macedonian empire which reached its zenith under Alexander only to disintegrate upon his death. *By the Spear* also discusses how armies in this period were used as avatars of social and cultural change and how the problems Alexander

faced in dealing with a multi cultural subject population the strategies he took to what might be called nation building shed light on contemporary problems in culturally dissimilar regions of the world The end result is a gripping account of the role these kings played in creating a vast empire and of the enduring legacy they left behind By the Spear s twofold approach of military narrative and social and cultural influence will set it apart from all previous histories of Philip and Alexander The Origins of Higher Learning Roy Lowe,Yoshihito Yasuhara,2016-10-04 Higher education has become a worldwide phenomenon where students now travel internationally to pursue courses and careers not simply as a global enterprise but as a network of worldwide interconnections The Origins of Higher Learning Knowledge networks and the early development of universities is an account of the first globalisation that has led us to this point telling of how humankind first developed centres of higher learning across the vast landmass from the Atlantic to the China Sea This book opens a much needed debate on the origins of higher learning exploring how why and where humankind first began to take a sustained interest in questions that went beyond daily survival Showing how these concerns became institutionalised and how knowledge came to be transferred from place to place this book explores important aspects of the forerunners of globalisation It is a narrative which covers much of Asia North Africa and Europe many parts of which were little known beyond their own boundaries Spanning from the earliest civilisations to the end of the European Middle Ages around 700 years ago here the authors set out crucial findings for future research and investigation This book shows how interconnections across continents are nothing new and that in reality humankind has been interdependent for a much longer period than is widely recognised It is a book which challenges existing accounts of the origins of higher learning in Europe and will be of interest to all those who wish to know more about the world of academia

Alexander The Great Failure The Collapse Of The Macedonian Empire Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable.
