Do International Corruption Metrics Matter? Omar E. Hawthorne, 2015-10-08 Corruption often seen as the main hindrance to development and growth in many societies has led to greater demand for accountability and transparency in how governments conduct their businesses This text examines the impact of Transparency International's Corruption Perceptions Index and whether or not the CPI and hence TI matter It explores three areas the world's political and economic responses and Jamaica's policy responses to the CPI Jamaica is selected for a case study due to its high CPI rating from TI Jamaica is a country that has strong anti corruption laws but nonetheless sees its CPI ranking worsen almost yearly Taking into consideration the importance scholars and policymakers give to corruption's effect on development the findings show that the CPI the most cited corruption index does not change the behavior of world's political and economic policymakers Although the index is published yearly there is no measured change as it regards political and economic policymakers Nonetheless Jamaican policymakers pay significant attention to their performance on TI's CPI Transparency International's CPI is used as the authoritative tool to assess countries corruption perceptions scores by both international governments and several international agencies The use and reference of TI's CPI does not translate as the main factor in regards to the increase and or decrease of aid flow Surprisingly there was no evidence that the CPI affected the credit rating and or investment flow into Jamaica It did indicate however that TI's CPI is reflective of the global market perceptions of Jamaica's economy Research shows that the index does change policy responses in Jamaica as government officials across varying agencies pay attention to the index and the progression and or worsening of the country's score

Chinese Organizations in Sub-Saharan Africa Terence Jackson, Lynette Louw, Dev K. Boojihawon, 2020-11-09 Trade between China and Africa is increasing year on year while the West increasingly debates the nature and implications of China's presence Yet little research exists at the organizational and community levels While western press reporting is overwhelmingly negative African governments mostly welcome the Chinese presence But what happens at the management level How are Chinese organizations run What are they bringing to communities What is their impact on the local job market How do they manage staff How are they working with local firms This book seeks to provide a theoretical framework for understanding Chinese organizations and management in Africa and to explore how their interventions are playing out at the organizational and community levels in sub-Saharan Africa Based on rigorous empirical research exploring emerging themes in specific African countries this book develops implications for management knowledge education and training provision and policy formulation Importantly it seeks to inform future scholarship on China's management impact in the world generally on Africa's future development and on international and cross cultural management scholarship Primarily aimed at scholars of international management with an interest in China and or in China in Africa this important book will also be of great interest to those working in the area of development studies international
