The Book in the United States Today William Gordon Graham, Richard Abel, 1997-01-01 This volume is based on a special issue of Logos that grew out of a meeting of an international group of book trade hands It is the first broad scale account and assessment of the commercial aspects of the U S book trade from publisher to library by way of book dealers and wholesalers Two major phenomena concentration into larger units and concern about the electronic future are recurring themes in this collection Concentration characterizes bookselling as much as publishing and the electronic future preoccupies librarians even more than publishers Chapters and contributors to The Book in the United States Today include A Religious Country Reflected in its Publishing Industry by Werner Mark Linz Children s Books 500 Million a Year by Charles E Gates U S School Publishing by Cameron S Moseley The Paperback Conquest of America by Betty Ballantine Medical Publishing in the U S by Eric J Newman The U S College Textbook by Robert R Worth The American University Library by Hendrik Edelman and Between Academe and the Marketplace University Presses Face the 21st Century by Naomi B Pascal In the postscript Gordon Graham discusses one of the defects of the U S book industry today a shortage of collective memory The common ground of the industry he writes is seen in securing legal rights and political advantage not in any ideological attachment to the shared product its history or its culture The Book in the United States Today provides important information for publishers librarians authors and book sellers

The Economics of the Publishing and Information Industries Albert N. Greco, 2014-12-05 Books scholarly journals business information and professional information play a pivotal role in the political social economic scientific and intellectual life of nations While publications abound on Wall Street and financial service companies the relationship between Wall Street s financial service companies and the publishing and information industries has not been explored until now The Economics of the Publishing and Information Industries utilizes substantive historical business consumer economic sociological technological and quantitative and qualitative methodologies to understand the people trends strengths opportunities and threats the publishing industry and the financial service sector have faced in recent years Various developments both economic and demographic contributed to the circumstances influencing the financial service sector s investment in the publishing and information industries This volume identifies and analyzes those developments clearly laying out the forces that drove the marriage between the spheres of publishing and finance This book offers insight and analysis that will appeal to those across a wide variety of fields and occupations including those in financial service firms instructors and students in business communications finance or economics programs business and financial reporters regulators private investors and academic and major public research libraries

Italy for Sale , 2023-08-14 In the late nineteenth and early twentieth centuries Italian Renaissance art objects and even the idea of Italy itself figured heavily both

in the dynamic international art market and in the eyes of the general public The alternative objects that were actively dispersed and collected authentic works pastiches Renaissance inspired counterfeits and reproductions in the diverse media of paint plaster terracotta and photography had a tremendous impact on visual culture across social strata These essays examine less studied aspects of this market through the lens of just a few of the countless successful sales of objects out of Italy

Shadow Libraries Joe Karaganis,2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan s Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan s story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Bal zs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski
