Resources in Education, 2001 **Research in Education**, 1970 *Research in Education*, 1972 **Cultivating Entrepreneurial Changemakers Through Digital Media Education** Byrd, Leslie Simone, 2021-01-22 The role of the journalist has been significantly altered and is far beyond that of being just a reporter of news in modern times Social entrepreneurship is rooted in a venture that seeks to create revenue while being anchored in providing social value to the communities the enterprise serves Combining these creates the concept of a social newspreneur which takes elements of the old business model and creates new opportunities In this way media can be reformed by everyday people who have a vision for restoring trust and facilitating alternative activities to inspire civic engagement in new and unique ways As such journalism program administrators have realized that the time has come to alter and provide innovative educational opportunities that prepare students for careers outside of traditional employment Entrepreneurship education across the disciplines is quickly becoming the status quo on today's college campuses However in making these curricular changes faculty must engage in significant assessment of these new approaches to ensure that students are obtaining a return on their investment in the college education and degree that they seek **Cultivating Entrepreneurial Changemakers Through Digital Media Education** is a crucial reference book that cultivates timely and relevant practices in the development of improved teaching methods assessments information delivery and technological tools that are used to facilitate and support the social entrepreneurship and digital journalism education space It explores the role of media innovation and how the landscape is ripe for the influx of social entrepreneurs or the rise of the social newspreneur The chapters cover areas such as methods used in journalism programs social entrepreneurship in course design educational technologies student learning outcomes and how these programs foster civic engagement This book is a valuable reference tool for university faculty university administrators news organization leaders journalists reporters broadcasting agencies professors practitioners stakeholders researchers academicians and students **Manual on the Implementation of ICAO Language Proficiency Requirements** International Civil Aviation Organization, 2004 *An Introduction to Applied Linguistics* Norbert Schmitt, 2013-11-26 *An Introduction to Applied Linguistics* Second Edition provides a complete authoritative and up to date overview of the state of the field Each of the 15 chapters offers an extended survey of a central element of Applied Linguistics and is co authored by two leading international specialists thus ensuring a full and balanced treatment of the topic covered The book is divided into three sections a description of language and language use essential areas of enquiry and the four skills and testing An Introductory chapter familiarises readers with key issues and recurrent themes whilst hands on activities and further reading sections for each chapter encourage practical analysis and wider reading For this new edition each chapter has been fully revised in line with new research and thinking in Applied Linguistics With its accessible style broad coverage and practical focus this book is ideal for students of applied linguistics TESOL and second

language pedagogy as well as practicing teachers and researchers wishing to update their knowledge Handbook of Teaching and Learning Persian as a Second Language Hooman Saeli, 2025-09-26 This collection explores relevant pedagogical and sociolinguistic topics in the teaching and learning of Persian as a foreign and second language Owing to the dearth of research in many areas pertaining to the teaching and learning of Persian this handbook provides empirically supported insights into various aspects of these areas While the literature on teaching and learning Persian is growing the field lacks a cohesive collection on Persian as a foreign second language The book addresses issues pertaining to the standardization and validation of teaching and assessment methods which remain under explored in the contexts of teaching and learning Persian It also covers the teaching of Persian pragmatics the use of corpora as well as a range of different areas within linguistics including phonetics prosody and historical linguistics This comprehensive collection contributes substantially to the scientific study of many aspects of teaching and learning Persian which have been neglected for decades A must have text in Persian language pedagogy and Persian sociolinguistics it an essential book for those in teaching and learning in Persian language programs worldwide Content-Based Instruction in Foreign Language Education Stephen B. Stryker, Betty Lou Leaver, 1997-09-01 This book offers concrete and practical ideas for implementing content based instruction using subject matter rather than grammar through eleven case studies of cutting edge models in a broad variety of languages academic settings and levels of proficiency The highly innovative models illustrate content based instruction programs for both commonly and less commonly taught languages Arabic Croatian French German Indonesian Italian Russian Serbian and Spanish and for proficiency levels ranging from beginners to fluent speakers They include single teacher and multi teacher contexts and such settings as typical language department classrooms specialty schools intensive language programs and university programs in foreign languages across the curriculum All of the contributors are pioneers and practitioners of content based instruction and the methods they present are based on actual classroom experiences Each describes the rationale curriculum design materials and evaluation procedures used in an actual curriculum and discusses the implications of the approach for adult language acquisition **L2 Interactional Competence and Development** Joan Kelly Hall, John Hellermann, Simona Pekarek Doehler, 2011-07-18 Drawing on data from a range of contexts including classrooms pharmacy consultations tutoring sessions and video game playing and a range of languages including English German French Danish and Icelandic the studies in this volume address challenges suggested by these questions What kinds of interactional resources do L2 users draw on to participate competently and creatively in their L2 encounters And how useful is conversation analysis in capturing the specific development of individuals interactional competencies in specific practices across time Rather than treating participants in L2 interactions as deficient speakers the book begins with the assumption that those who interact using a second language possess interactional competencies The studies set out to identify what these competencies are and how they change across time By doing so they address some of the difficult and yet

unresolved issues that arise when it comes to comparing actions or practices across different moments in time **The Routledge Handbook of Second Language Acquisition and Individual Differences** Shaofeng Li, Phil Hiver, Mostafa Papi, 2022-05-30 The Routledge Handbook of Second Language Acquisition and Individual Differences provides a thorough in depth discussion of the theory research and pedagogy pertaining to the role individual difference ID factors play in second language acquisition SLA It goes beyond the traditional repertoire and includes 32 chapters covering a full spectrum of topics on learners cognitive conative affective and demographic sociocultural variation The volume examines IDs from two perspectives one is how each ID variable is associated with learning behaviors processes and outcomes the other is how each domain of SLA such as vocabulary or reading is affected by clusters of ID variables The volume also includes a section on the common methods used in ID research including data elicitation instruments such as surveys interviews and psychometric testing as well as methods of data analysis such as structural equation modeling The book is a must read for any second language researcher or applied linguist interested in investigating the effects of IDs on language learning and for any educator interested in taking account of learners individual differences to maximize the effects of second language instruction **Forum** ,1988 **Handbook of Research on Discourse Behavior and Digital Communication: Language Structures and Social Interaction** Taiwo, Rotimi, 2010-05-31 A compendium of over 50 scholarly works on discourse behavior in digital communication *Resources in Education* ,1996 **Teaching and Learning Pragmatics** Noriko Ishihara, Andrew D. Cohen, 2014-07-16 An understanding of sociocultural context is crucial in second language learning yet developing this awareness often poses a real challenge to the typical language learner This book is a practical language teachers guide that focuses on how to teach socially and culturally appropriate language for effective communication Moving beyond a purely theoretical approach to pragmatics the volume offers practical advice to teachers with hands on classroom tasks included in every chapter Readers will be able to Identify possible causes of learner errors and choices in cross cultural communication Understand second language acquisition theories that support their classroom practices Develop a pragmatics focused instructional component classroom based assessments and curricula Help learners to become more strategic about their learning and performance of speech acts Incorporate technology into their approach to teaching pragmatics This book aims to close the gap between what research in pragmatics has found and how language is generally taught today It will be of interest to all language teachers graduate students in language teaching and linguistics teacher educators and developers of materials for teaching language **Developing Writing Competence in L2 Chinese Classrooms** Li Yang, Laura Valentín-Rivera, 2023-04-26 This edited volume focuses on writing Chinese as a second language L2 It provides readers with cutting edge empirical research and insightful teaching methods and strategies for effectively developing L2 writing competence in L2 Chinese classroom contexts The themes encompass heritage versus foreign language writers individual versus collaborative writing writing as process versus writing as product writing focused

intervention and written corrective feedback in L2 Chinese classrooms as well as online writing instruction during and beyond the pandemic In addition to providing meaningful and innovative contributions for graduate students and researchers who wish to further explore learners writing development in L2 Chinese each chapter offers practical detailed and insightful pedagogical recommendations to assist language teachers and educators graduate students and research scholars in making well informed decisions on writing instruction in L2 Chinese and to facilitate the implementation of writing focused activities within classrooms
