Handbook of Multicultural Counseling Joseph G. Ponterotto, 2001-04-25

This Second Edition of the Handbook of Multicultural Counseling marks an important turning point. It brings together the voices of some pioneers who have paved the way and introduces us to new voices who while influenced by the pioneers have taken different paths. Because the multicultural community is well represented in content and scholarship in this second addition the reader can be assured that the view points represented in this book speak to the core issues of the field. I am excited about this Handbook because the authors answer the question that is often heard at many a conference: Where is the research to support multicultural counselling? I am equally excited about this Handbook because it breaks new ground by using as its anchor oral histories which demonstrate that for many of us multicultural counselling is not simply a research agenda but a life long journey that cannot always be measured. The underlying theme of social justice only reinforces our commitment to this journey. Drs Ponterotto, Casas, Suzuki and Alexander have once again helped shape the multicultural conversation. To those who have often said: Where is the research? Look not further. Donald B. Pope-Davis, University of Notre Dame. Its First Edition set a standard for a then emerging field. Now The Handbook of Multicultural Counseling Second Edition presents not merely an update of the original but a completely reconceived work reflecting the many developments that continue to expand the field of multicultural counselling. This new edition features mostly brand new chapters and expanded coverage of historical perspectives on the field highlighted by personal accounts from some of the pioneers in the area: professional and ethical issues, counselling's role in fighting oppression, psychological measurement theories, research design, gender issues and higher education issues. With contributions once again from the field's key leaders as well as top emerging scholars, this new edition maintains the breadth and comprehensiveness of the original. The Handbook of Multicultural Counseling Second Edition is a critical resource for counsellors, counselling students and other mental health professionals who seek to improve their competence in treating a culturally diverse clientele.

The Science I Know Suzanna Roman-Oliver, 2024-07-08

The Science I Know: Culturally Relevant Science Lessons from Secondary Classrooms is a collection of culturally relevant lesson plans written by secondary science teachers. Each lesson discusses how the tenets of academic success, cultural competence and critical consciousness that are part of the theory of Culturally Relevant Pedagogy (CRP) are addressed. Ladson-Billings (1995). Additionally, each lesson plan is structured following the 5E learning cycle (Bybee, 2006) and aligned to the Next Generation Science Standards (NAS, 2012). The goal of this book is to help science teachers understand how to go about designing lessons that are culturally relevant. The hope is that the lessons detailed in each chapter will inspire teachers to draw the cultural knowledge from their students and capitalize on it when designing science lessons. After an introductory chapter that discusses how science education has shifted in recent decades to address the needs of diverse students, the main body of the text is divided into three sections.
