Emancipating New York David Nathaniel Gellman, 2006 David N Gellman has written the most complete study to date of the abolition of slavery in New York State Focusing on public opinion he shows New Yorkers engaged in vigorous debates and determined activism during the final decades of the eighteenth century as they grappled with the possibility of freeing the state's black population In 1799 gradual emancipation in New York began a profound event Gellman argues It helped move an entire region of the country toward a historically rare slaveless democracy creating a wedge in the United States that would ultimately lead to the Civil War Gellman presents a comprehensive examination of the reasons for and timing of New York's dismantling of slavery It was the northern state with the greatest number of slaves more than 20 000 in 1790 Newspapers pamphlets legislative journals and organizational records reveal how whites and blacks citizens and slaves activists and politicians responded to the changing ideologies and evolving political landscape of the early national period and concluded that slavery did not fit with their state's emerging identity Support for the institution atrophied and eventually the preponderance of New York's political leaders endorsed gradual abolition The first book on its subject *Emancipating New York* provides a fascinating narrative of citizenry addressing longstanding injustices central to some of the greatest traumas of American history The debate within the New York public sphere over abolition proved a pivotal contest in the unraveling of worldwide slavery Gellman shows and set the stage for intense political conflicts in the nineteenth century

BOOK JACKET *Hip Hop's Inheritance* Reiland Rabaka, 2011-03-31 *Hip Hop's Inheritance* arguably offers the first book length treatment of what hip hop culture has literally inherited from the Harlem Renaissance the Black Arts movement the Feminist Art movement and 1980s and 1990s postmodern aesthetics By comparing and contrasting the major motifs of the aforementioned cultural aesthetic

traditions with those of hip hop culture all the while critically exploring the origins and evolution of black popular culture from antebellum America through to Obama's America Hip Hop's Inheritance demonstrates that the hip hop generation is not the first generation of young black and white folk preoccupied with spirituality and sexuality race and religion entertainment and athletics or ghetto culture and bourgeois culture Taking interdisciplinarity and intersectionality seriously Hip Hop's Inheritance employs the epistemologies and methodologies from a wide range of academic and organic intellectual activist communities in its efforts to advance an intellectual history and critical theory of hip hop culture Drawing from academic and organic intellectual activist communities as diverse as African American studies and women's studies postcolonial studies and sexuality studies history and philosophy politics and economics and sociology and ethnomusicology Hip Hop's Inheritance calls into question one dimensional and monodisciplinary interpretations or rather misinterpretations of a multidimensional and multivalent form of popular culture that has increasingly come to include cultural criticism social commentary and political analysis

The Ideological Origins of African American Literature Phillip M. Richards, 2025-06-27

Inquiry into African American literature in recent decades has neglected to probe the intellectual structure of the tradition's aesthetics and its underlying ideology In *The Ideological Origins of African American Literature* Phillip M Richards begins this reconstructive work illuminating the dialectical backstory of black prose and poetry in America Richards argues that the social and political forces that influenced white literature were uniquely reacted to absorbed and often times rejected by African American literary figures from the eighteenth century Puritan notions of a God centered history to the onset of Romanticism and Modernism in the nineteenth and twentieth centuries Building his case for ideological continuity Richards surveys a profoundly creative period of 125 years launched by an African American reaction against a racist mid eighteenth century American culture This epoch in African American literature saw a fusion of Puritan Protestant culture into a religious and secular worldview drawing in the poetry of Phillis Wheatley antebellum slave narratives Richard Allen and the periodicals of the ambitious African Methodist Episcopal movement all of which would form the underlying foundation of a Black Victorian culture A rising black middle class Richards argues would later be secularized by an eroding religious tradition under the pressures of nineteenth century modernity the trauma of Jim Crow and the emerging northern ghetto Richards further traces the emergence of Romanticism which appeared with white American authors such as Emerson Thoreau and Whitman but would not take shape in African American literature until the likes of W E B Du Bois and Langston Hughes took stock of Anglo European culture at the end of the nineteenth century *The Ideological Origins of African American Literature* illustrates a pattern of black writing that eschews the hegemonic white culture of the day for an evolving black culture that would define an American literary landscape

Lawrence Hogue,1986-11-25 The

central thesis of Lawrence Hogue's book is that criticism of Afro American literature has left out of account the way in which ideological pressures dictate the canon. This fresh approach to the study of the social ideological and political dynamics of the Afro American literary text in the twentieth century based on the Foucauldian concept of literature as social institution examines the universalization that power effects how literary texts are appropriated to meet ideological concerns and needs and the continued oppression of dissenting voices. Hogue presents an illuminating discussion of the publication and review history of major and neglected texts. He illustrates the acceptance of texts as exotica as sociological documents or as carriers of sufficient literary conventions to receive approbation. Although the sixties movement allowed the text to move to the periphery of the dominant ideology providing some new myths about the Afro American historical past, this marginal position was subsequently sabotaged, co-opted or appropriated. Afros became a fad, presidents gave the soul handshake, the hip talking black was dressing one style and talking another. This study includes extended discussion of four works: Ernest J. Gaines's *The Autobiography of Miss Jane Pittman*, Alice Walker's *The Third Life of Grange Copeland*, Albert Murray's *Train Whistle Guitar* and Toni Morrison's *Sula*. Hogue assesses the informing worldviews of each and the extent and nature of their acceptance by the dominant American cultural apparatus.

Crossroads Modernism Edward Michael Pavlić, 2002. An essential reconsideration of black literature and culture and its response to modernity. In the African American encounter with modernism, all was not confrontation. Rather, as Edward M. Pavlić demonstrates here, African American artists negotiated the intersection of high modernism in Europe and American discourse to fashion their own distinctive response to American modernity. A deft repositioning of black literature and culture, Pavlić's book re-envisioning the potentials and dilemmas where the different traditions of modernism meet and firmly establishes African American modernism at this cultural crossroads. Offering new insights into the work of a variety of African American artists including Ralph Ellison, Richard Wright, Zora Neale Hurston, James Baldwin, Toni Morrison, Robert Hayden, David Bradley, Yusef Komunyakaa, Romare Bearden and John Coltrane, Pavlić explores the complex ways in which key modernist philosophical ideas and creative techniques have informed black culture. *Crossroads Modernism* also provides an in-depth look at how West African cultural legacies are brought to bear in the structure of a truly African American modernist creative process. The book brings to light two interrelated strains of black modernism: Afro Modernism, which employs established modernist concerns and conceits to illuminate internal and psychological experience; and Diasporic Modernism, which places greater emphasis on shared cultural space and builds on traditions rooted in West African cultures. Whereas much has been said about the generally racist use of blackness in constituting modernism, *Crossroads Modernism* is the first book to expose the key role that modernism has played in the constitution of blackness in African American aesthetics. In light of this work, canonical texts in African American literature can no longer be read as devoid of their own singular contribution to international modernism.
