Occupational Musculoskeletal Disorders Nordin M. Hadler, 2005 This standard setting book is known for its practical approach to the assessment, management, and counseling of patients with regional musculoskeletal disorders resulting in occupational incapacity. The approach is supported by a display of the relevant science and the author's philosophy in approaching uncertainties and discrepancies. The Third Edition offers discussions of the current approach to the diagnosis and management of fibromyalgia and its sister functional somatic syndromes. Recent scientific studies explore the treatment of regional musculoskeletal disorders when such a sufferer feels compelled to seek care from a physician, surgeon, or alternative provider. Dr. Hadler has pioneered an understanding of the interfaces between statutory recourse for disabling regional musculoskeletal disorders and the patient and physician. Witty and persuasive, Hadler's text is grounded in sound scientific principles and has been recommended by ACOEM, JAMA, JBJS, and others.

Diagnosis and Management of Marfan Syndrome Anne H. Child, 2016-04-06 This book has been written in response to the many excellent questions posed by our patients and their care teams, questions which deserve the best informed and up-to-date answers provided by our experts in each of the many health areas affected by Marfan syndrome. The aim of this text is to provide a summary of the present-day understanding of diagnosis, management, and best medical and surgical treatment of infants, children, and adults with Marfan syndrome. The authors cover the lifelong problems from birth to old age in each affected system. Forty percent of this information is the result of new, careful research based on a well-defined, longitudinally studied UK patient population.
