

The background of the slide is a photograph of a sunset. The sky is filled with horizontal bands of orange, red, and yellow. In the foreground, a dark silhouette of a forested shoreline is visible on the left. In the middle ground, two small figures are in a canoe on the water, which reflects the colors of the sky.

Resource Devastation on Native American Lands Bruce E. Johansen, 2023-02-09 This book focuses on the toxic legacy of Native North America which is pervasive but largely invisible to most non Native peoples Many toxic sites are located in out of the way rural areas largely forgotten by the majority of America but which nonetheless have supplied its industries with the rudiments of manufacturing for the better part of a century before being closed and cast aside Thousands of contaminated sites exist in the United States due to dumped left out or otherwise improperly managed hazardous waste These sites include manufacturing facilities processing plants landfills and mining sites Based on the 1980 Comprehensive Environmental Response Compensation and Liability Act CERCLA the US Environmental Protection Agency EPA cleans up these so called Superfund sites of which roughly 40 percent are located in Native country The book links present day Native American cultural and economic revival to a fundamental struggle to restore the health of both Native peoples and their homelands It links past and present with a sense of Native Americans perceptions of nature and the sacred

land By doing so it also provides the majority society with an example to emulate as we emerge by necessity from the age of fossil fuels into a sustainable energy paradigm This makes the book a must read for students scholars and researchers of Native American studies US politics environmental studies public policy as well as policy makers interested in a better understanding of the environmental devastation of Native land and its consequences

Indigenous Governance David E. Wilkins,2024 Indigenous Governance is a comprehensive overview and critical assessment of the governing methods utilized by the senior sovereigns within North America Author David E Wilkins provides detailed examination of the origins evolution and structures of these governments and scrutinizes the many diverse arrangements employed by the nearly 600 contemporary Indigenous nations including the more than 200 Alaska Native communities and the complex rapidly evolving situation of Native Hawaiians

Climate Change and Mental Health Equity Rhonda J. Moore,2024-07-18 Climate change is a driver of poverty poor mental health inequity and increased intersectional vulnerability with significant differential global impacts on individual and community health and well being For example people living in low resource settings in high income countries HICs and in low and middle income countries LMICs are at greater risk often experiencing fragile socioeconomic political and health infrastructures and conflict affected settings FCAS that place them at greater risk and vulnerabilities to climate change related mental health impacts The broad goal of this book is to place a social justice and inclusive lens on climate change and mental health equity focusing on these three key elements people place and community The book includes perspectives from the global North the global South and Indigenous perspectives to help provide greater insight into how we can better understand climate change and mental health equity across peoples place and community This book s three pronged approach will focus on certain trends in this emerging and growing field also bridging some of the more extensive gaps and is a tool for better understanding how mental health disparities might be addressed at this time

Routledge Handbook of Environmental Anthropology Helen Kopnina,Eleanor Shoreman-Ouimet,2016-08-12 Environmental Anthropology studies historic and present human environment interactions This volume illustrates the ways in which today s environmental anthropologists are constructing new paradigms for understanding the multiplicity of players pressures and ecologies in every environment and the value of cultural knowledge of landscapes This Handbook provides a comprehensive survey of contemporary topics in environmental anthropology and thorough discussions on the current state and prospective future of the field in seven key sections As the contributions to this Handbook demonstrate the subfield of environmental anthropology is responding to cultural adaptations and responses to environmental changes in multiple and complex ways As a discipline concerned primarily with human environment interaction environmental anthropologists recognize that we are now working within a pressure cooker of rapid environmental damage that is forcing behavioural and often cultural changes around the world As we see in the breadth of topics presented in this volume these environmental challenges have inspired renewed foci on traditional topics such as food procurement ethnobiology and spiritual ecology and

a broad new range of subjects such as resilience nonhuman rights architectural anthropology industrialism and education This volume enables scholars and students quick access to both established and trending environmental anthropological explorations into theory methodology and practice

The US National Climate Assessment Katharine Jacobs,Susanne Moser,James Buizer,2016-08-09 This book offers valuable climate policy and climate assessment lessons depicting what it takes to build a sustained climate assessment process It explores the third U S National Climate Assessment NCA3 report as compared with previous US national climate assessments from both a process and content perspective The U S Global Change Research Program is required by law to produce a National Climate Assessment report every four years and these reports provide a comprehensive evaluation of climate science as well as observed and projected climate impacts on a variety of sectors As the book describes a key contribution of the NCA3 approach is a far more deliberate interdisciplinary process as well as an engagement strategy that brought hundreds of public and private sector stakeholders into the assessment community Among its most important conceptual contributions was an explicit focus on building the infrastructure to conduct better assessments over time and an experimental approach to analysis of the impacts of climate on cross sectoral systems and inter locking and cascading effects across sectors Readers may explore innovations such as the development of regional climatologies and projections for every region of the US as well as the development of the Global Change Information System The book also highlights the need for decision makers to be part of the assessment process in order for assessment findings to be truly useful from a decision maker s perspective Many lessons have been learned by the NCA3 authors that can be useful in future assessments and adaptation processes both within the US and internationally This book passes on such lessons and includes an evaluation of the role of state climate assessments in ongoing national assessment processes

Traditional Ecological Knowledge Melissa K. Nelson, Daniel Shilling, 2018-10-11 Provides an overview of Native American philosophies practices and case studies and demonstrates how Traditional Ecological Knowledge provides insights into the sustainability movement

New Dimensions of Diversity in Nordic Culture and Society Jenny Björklund, Ursula Lindqvist, 2016-04-26 In the new millennium categories of identity have become particularly destabilized with the emergence of a new generation of people in the Nordic region who demand more dynamic and fluid identities New Dimensions of Diversity in Nordic Culture and Society reinvestigates the tired concept of diversity to make room for dynamic new realities as well as the ample new questions to

which they give rise This volume assumes diversity to be a fundamental feature of Nordic modernity Given that the Nordic countries consistently rank among the world's wealthiest, most educated and most egalitarian, these case studies provide important counter narratives to prevailing local and global discourses of Nordicness The contributors not only interrogate historical categories of diversity in a Nordic context including gender, sex, class, ethnicity and race, they also show how these categories intersect They examine new forms of and platforms for diverse ideas and creative expression including fluid masculinities, digital cultures, new media and fashion They question the terms on which the Nordic region's indigenous peoples, the Sami and the Greenlandic Inuit, as well as stateless people such as the Kurds, are brought into Nordic discussions of diversity, citizenship and agency and analyze the implications of particular neo-nationalist and patriarchal discourses that have emerged since the turn of the century The book draws from a variety of disciplinary perspectives and interdisciplinary fields and will spark productive and critical conversations among all with an interest in the national and regional cultures, subcultures and social dynamics that inform modern life in the Nordic region

Decolonizing Our Names in the 21st Century Lauren Beck, Grace A. Gomashie, 2025-09-10 This book combines different decolonial approaches from around the world to offer a roadmap for updating names and naming practices, restoring and protecting precolonial ones and reimagining or recontextualizing the relationship between place, identity and names In a postcolonial context, naming often serves as a bitter reminder of past harms through commemorative naming practices, whether through a system of baptismal names or a former colony's approach to dealing with the names that the colonizer left behind This volume assembles authors who hail from formerly colonized regions of the Americas, Europe, Africa and Asia to engage with this problem of decolonizing names in the twenty-first century from a global perspective The book also points to what strategies have had more success than others while envisioning the tools needed for progress in the future Offering a useful framework with approaches that can easily be used across other geographical contexts, this volume is suitable for scholars and students interested in decolonization, identity and naming practices

Arctic Abstractive Industry Arthur Mason, 2022-04-08 Through diverse engagements with natural resource extraction and ecological vulnerability in the contemporary Arctic, contributors to this volume apprehend Arctic resource regimes through the concept of abstraction Abstraction refers to the creation of new material substances and cultural values by detaching parts from existing substances and values The abstractive process differs from the activity of extractive industries by its focus on the conceptual resources that conceal processes of exploitation associated with extraction The study of abstraction can thus help us attune to the formal operations that make appropriations of value possible while disclosing the politics of extraction and of its representation

Research Handbook on Climate Change Law and Loss & Damage Doelle, Meinhard, Seck, Sara L., 2021-11-17 This timely Research Handbook offers an insightful review of how legal systems, whether domestic, international or transnational, can and should adjust to fairly and effectively support loss and damage (LD) claims in climate change law International contributors guide readers

through a detailed assessment of the history and current state of L D provisions under the UN climate regime and consider the opportunities to fund L D claims both within and outside the UN climate system *Arctic Environmental Modernities*
Lill-Ann Körber, Scott MacKenzie, Anna Westerståhl Stenport, 2017-02-12 This book offers a diverse and groundbreaking account of the intersections between modernities and environments in the circumpolar global North foregrounding the Arctic as a critical space of modernity where the past present and future of the planet s environmental and political systems are projected and imagined Investigating the Arctic region as a privileged site of modernity this book articulates the globally significant but often overlooked junctures between environmentalism and sustainability indigenous epistemologies and scientific rhetoric and decolonization strategies and governmentality With international expertise made easily accessible readers can observe and understand the rise and conflicted status of Arctic modernities from the nineteenth century polar explorer era to the present day of anthropogenic climate change
