

Dishwasher racks

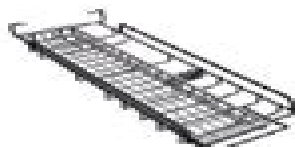

ASKO's dishwasher racks are flexible and sturdy, made with heavy gauge steel wire coated with a nylon/graphite material called Viscant™, making them extra durable. Their mesh is finer than in other dishwashers, in order to keep your dishes and utensils in place. All ASKO lower racks can be fully extended onto the dishwasher door. You'll find that ASKO dishwashers are much easier to load and unload and they provide you with endless loading possibilities and flexibility.

New Middle Rack

Our new middle rack gives you more flexibility and more loading capacity. It is divided into two baskets: one designed for large utensils (whisks, knives, spatulas, etc.) which are difficult to place in the upper or lower rack, and another basket for glasses, breakfast and/or soup bowls and cups which are tricky to place in an upper rack due to their shape and size. This rack also has its own unique spring system. Both baskets are removable separately for flexible loading. By removing them you increase the loading height in the lower rack.

Knife Rack

In order to protect children, glass and china, you can place sharp knives in the special knife rack protectively installed in the top of the dishwasher. The rack has its own spring system to ensure the knives get really clean.

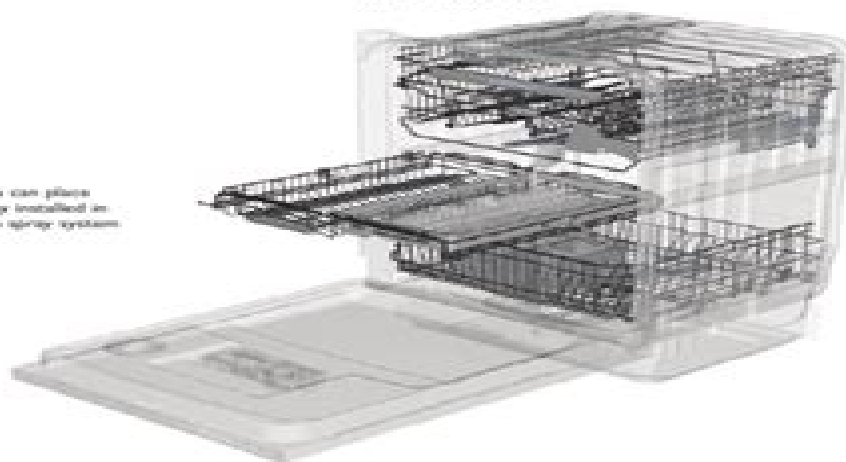

Cutlery Basket

Our handy cutlery basket features roomy sections for easily sorting your cutlery. The well-thought-out design allows your forks and knives to dry faster, eliminating any collection of water. It is also stable and the handle is ergonomically adjusted for easy loading and unloading. The space below the handle is extra high to prevent you from cutting yourself on knives or other sharp objects.

The small CutleryPlus™ basket can be placed (and filled with, for instance, smaller spoons) in the upper rack or in another part of the lower rack - all for flexible loading. If you wash a lot of silver and stainless steel you can now separate them to avoid discoloration.
