Vance, Robbie Nickel, 2007 Teacher and Librarian Partnerships in Literacy Education in the 21st Century Joron Pihl, Kristin Skinstad van der Kooij, Tone Cecilie Carlsten, 2017-03-22 This volume explores teacher and librarian partnerships in literacy education showing that such partnerships are essential to literacy education in 21st century

Teacher and librarian partnerships contribute significantly to the realization of the democratic mandate of the teaching and library profession. Partnerships respond to the educational challenges characterized by an unprecedented pace of knowledge development, digitalization, globalization, and extensive transnational migration. The contributors reconceptualize literacy education based on teacher and librarian partnerships. Studies from Sweden, Norway, and the U.K. analyze such partnerships as sociocultural and intercultural practices, documenting ways in which teacher and librarian partnerships in literacy education enhance reading literacy, learning, empowerment, and social justice. The authors treat literacies as social practices rather than as an autonomous skill, working with interdisciplinary perspectives that draw on educational research. New Literacy Studies, library and information science, and interprofessional studies. Partnerships facilitate reading for pleasure and reading engagement in work with school subjects and curriculum goals, irrespective of socio-economic or cultural background or gender. The partnerships facilitate work with multimodal literacies and inquiry-based learning, both of which are essential in the 21st century. Equally important, the contributors show that the partnerships foster work with the multiple literacies of students and communities and students' attachment to the public and school library. The contributors also analyze tensions and contradictions in literacy education and in school library policy and practice and attempts to deal with these challenges. *Teacher and Librarian Partnerships in Literacy Education in the 21st Century* brings together leading scholars in educational research and literacy studies, including Brian V. Street, Teresa Cremin, Joan Swann, and Joron Pihl. The volume addresses scholars and is relevant for students, teachers, librarians, and politicians. *Resources in Education*, 2001-04. *The School Library Manager*, Blanche Woolls, Joyce Kasman Valenza, April M. Dawkins, 2023-06-15. The seventh edition of this comprehensive school library management text expands upon the role of the school librarian, especially in the ever-growing digital realm, and highlights the importance of school librarian leadership and outreach. In an era of budget cuts, reduced staffing, and a global pandemic, it is more important than ever for new LIS professionals and established school librarians and administrators to demonstrate the value of school libraries to decision makers. This revised and updated edition of a classic text adds two well-known authors to help lead readers through the many essential management tasks and skills required to administer the successful school library program. It emphasizes the importance of the school librarian in providing digital access to information for teachers and students, describes how facilities are being modified to accommodate new resources and programming, and offers new ways to use AASL standards to evaluate programs. All chapters are updated, and the text addresses such timely subjects as providing information resources when students, teachers, and librarians are interacting online. A new chapter highlights the importance of the school librarian's leadership in schools, districts, and communities. This invaluable textbook teaches practical skills for school library management and offers inspiration and guidance for growing LIS careers. *Information Literacy Assessment in K-12 Settings*, Lesley S. J. Farmer, James Henri, 2008. This work helps library educators address information literacy assessment issues systematically within their own settings. Global trends and

cultural contexts are duly noted in exploring assessment processes and use as well as in analyzing and categorizing existing assessment instruments
