Out of Bounds Pamela A. Patton, Maria Alessia Rossi, 2023-10-03 Where are the limits of medieval art as a field of study What happens when conventionally trained art historians disregard the chronological geographical or cultural parameters that both direct and protect their scholarship Beginning with Thelma K Thomas and Alicia Walker's acute assessment of the need for a medieval art history for now the essays in Out of Bounds ask what happens when the study of medieval art disregards boundaries that it once obeyed The volume focuses on questions surrounding the production of knowledge and on how scholarly investigation beyond the conventional thematic boundaries of medieval art history is changing demonstrating how the field can address the ethics of scholarship today by positing a global turn in response to growing demands for socially responsible medieval studies Collectively the contributors demonstrate how going out of bounds can transform modern understanding of the people traditions and relationships that gave rise to medieval works As such this book argues for the necessity of reshaping scholarly discourse about the nature and significance of medieval art and generates fresh scholarly interpretations and important new critical tools for teaching and researching the Middle Ages The contributors to this volume are Suzanne Conklin Akbari Michele Bacci Jill Caskey Eva Frojmovic Sarah M Gu rin Christina Maranci Alice Isabella Sullivan Thelma K Thomas Michele Tomasi and Alicia Walker

The African National Congress and the Regeneration of Political Power Susan Booysen, 2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its

liberation credentials and extracts immense power from its deep anchorage in South Africa's people. It is immersed in electoral politics that marks the state of its overwhelming power cyclically. As government, the ANC is the object of protest but not protest designed to bring the ruling party to its knees. The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa's democracy seem so diluted. Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle. The ANC and the Regeneration of Political Power unpacks these contradictions. It focuses on four faces of the ANC's political power: the organisation, the people, political parties and elections, and policy and government, and explores how the ANC has acted since 1994 to continuously regenerate its power. By 2011-12, the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties. This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come.
