LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

My criteria were: color, size, and shape.

Did your lizards grow different body types?

Yes, because the lizards that were selected to grow different body types were selected based on their color, size, and shape.

An adaptation is a structure or function that the organism has as a response to its environment. Give an example of a structure and a function that is an adaptation. Provide one example and an explanation of an adaptation in the lizard lab.

An example of an adaptation is the color of the lizard's skin. The color of the skin is an adaptation because it helps the lizard blend in with its environment.

Provide one adaptation that helped the lizards survive in their environment. (i.e., the green lizards were called a camouflage.)

The green lizards were called a camouflage because they were able to blend in with their environment.
