

These study questions are intended to offer the student the opportunity to practice problems covered in MAC1105 and should serve as a general review before taking the final exam. These are not the exam questions. The number of study questions per topic does not necessarily reflect the distribution of problems that will appear on the final exam.

The common final exam for College Algebra consists of multiple choice and free response questions. Students will not be given partial credit for the multiple choice questions; however, students may earn partial credit for the free response questions. NO books, NO formula sheets, and NO notes are allowed during testing!

1. Determine whether each set of points represents a function.
