Smart Girls Get What They Want By Sarah Strohmeyer:

Smart Girls Get What They Want Sarah Strohmeyer, 2012-06-26 Gigi Bea and Neerja are best friends and total overachievers. Even if they aren't the most popular girls in school, they aren't too worried. They know their real lives will begin once they get to their Ivy League colleges. There will be Ivy and there will be cute guys in the libraries, hopefully with English accents. But when an unexpected event shows them they're missing out on the full high school experience, it's time to come out of the honors lounge and into the spotlight. They make a pact: They will each take on their greatest challenge and they will totally rock it. Gigi decides to run for student rep, but she'll have to get over her fear of public speaking and go head-to-head with gorgeous California Will. Bea used to be one of the best skiers around until she was derailed. It could be time for her to take the plunge again. And Neerja loves the drama club but has always stayed behind the scenes until now. These friends are determined to show the world that smart girls really can get what they want, but that could mean getting way more attention than they ever bargained for.

This Is My Brain on Boys Sarah Strohmeyer, 2016-05-10 Jane Austen's Emma meets The Rosie Project in this quirky, irresistible romantic comedy from Sarah Strohmeyer, the author of *Smart Girls Get What They Want*. Addie Emerson doesn't believe in love. Not for herself anyway. With one year left of high school, she's more interested in snagging a full scholarship to Harvard than a full-time boyfriend. That doesn't mean she's oblivious to the ways of the heart. Or rather, the head. Because after months of research, Addie has discovered how to make anyone fall in love. All you need is the secret formula. But will her discovery be enough to win the coveted Athenian Award and all its perks: See above, full scholarship to Harvard. Or will she be undone by Dexter, her backstabbing lab partner who is determined to deep-six her experiments at their exclusive private school. Those are the least of her problems now that she's survived a death-defying flight with a mysterious, dark-haired boy who has delicious chocolate brown eyes and a few secrets of his own. With an experiment to mastermind an infatuated exchange student on her hands and at least one great white shark more on that later, can Addie's prefrontal cortex outwit her heart? Or will she have to give in to her amygdala and find out once and for all if this thing called love is more than just her brain on drugs.
