Higher Living Holly Hester, 2022-03-31 I wrote this book after many people telling me throughout years of ministry that I should I have traveled to many places and I have found that people ask me the same

question over and over Holly how do I truly live higher I decided to write this book to simply answer that question It is my sincere hope that after you read this book not only will you have the insight to do just that but you will know what it personally means to you to live in your higher life I hope this book helps you find your true calling and purpose directly given by the Lord As we dive into these books into each chapter I ask one thing only be open Be open to more Let me explain There are levels in each of us to live out our desire to live to a higher living The desire should be there to begin When the desire is there access is the way a higher level called the beyond then occurs for us This is where living higher begins Posture will change There is a certain level of insight purpose and access that is achieved when desire grows and posture changes There is a birthing It is not simply living only a mistake of thought so many make So here is the question again How The answer is not how It is desire posture and access to a higher way Let us start with desire The word desire is translated from the Greek word *epithumia* from *epi* meaning focused on Another use of this term is inordinate or excessively large It is my prayer that we have an inordinate desire to truly live higher and to focus on what this can mean for us in the same way it meant to me as I have written each chapter It is my strong desire that we focus right now When there is a lack of focus vision becomes very blurry I can recall having a blurred vision when others would ask me what living higher meant I can even recall a time when a picture was taken of me as a child with my eyes closed A relative later found this picture and asked me how I was able to sleep standing up while the camera caught my image I ask us all that my relative asked me How are we able to keep our eyes closed right now Let us have the strong inordinate desire to focus on the moment This desire to open our eyes will naturally pull the camera lens to us What happened Nothing We opened our eyes After desire comes to posture Picture posture is necessary when capturing a memory Are we willing to change our posture for the cameras in life It s interesting what happens after we open our eyes for the camera changes our position Finally we achieve access to see closer look at change more The camera gives access Access to function in life is far greater than desire or even posture believe it or not Haven t we all glanced at a picture that was taken of us before Perhaps a picture that we take with others involved These three elements are the agents for higher territory a greater way A new ground and a new look from a different angle in each situation Our camera lens must focus

Love's Promises Martha M. Ertman, 2016-05-24 Blends memoir and legal cases to show how contracts can create family relationships Most people think of love and contracts as strange bedfellows or even opposites In *Love's Promises* however law professor Martha Ertman shows that far from cold and calculating contracts shape and sustain families Blending memoir and law Ertman delves into the legal cases anecdotes and history of family law to show that love comes in different packages each shaped by different contracts and mini contracts she calls deals Family law should and often does recognize that variety because legal rules like relationships aren t one size fits all The most common form of family which Ertman calls Plan A come into being through different kinds of agreements than the more uncommon families that she dubs Plan B Recognizing the contractual core of all families shows that Plan B is neither unnatural nor unworthy of

legal recognition just different After telling her own moving and often irreverent story about becoming part of a Plan B family of two moms and a dad raising a child Ertman shows that all kinds of people straight and gay married and single related by adoption or by genetics use contracts to shape their relationships As couples navigate marriage reproductive technologies adoption and cohabitation they encounter contracts Sometimes hidden and other times openly acknowledged these contracts ensure that the people they think of as family are legally recognized as family in the eyes of the law Family exchanges can be substantial like vows of fidelity or small like I cook and you clean But regardless of scope the agreements shape the emotional social and financial terrain of family relationships Seeing the instrumental role contracts will help readers better understand how contracts and deals work in their own families as well as those around them Both insightful and paradigm shifting Love's Promises lets readers in on the power of contracts and deals to support love in its many forms and to honor the different ways that our nearest and dearest contribute to our daily lives **Radical Happiness** Lynne Segal, 2017-11-07

Why are we so obsessed by the pursuit of happiness With new ways to measure contentment we are told that we have a right to individual joy But at what cost In an age of increasing individualism we have never been more alone and miserable But what if the true nature of happiness can only be found in others In **Radical Happiness** leading feminist thinker Lynne Segal believes that we have lost the art of radical happiness the art of transformative collective joy She shows that only in the revolutionary potential of coming together it is that we can come to understand the powers of flourishing **Radical Happiness** is a passionate call for the re-discovery of the political and emotional joy that emerge when we learn to share our lives together **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings

have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc. can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self-portraits and autofiction as well as media transformations of the genre this three-volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self-representation in non-Western cultures and on inter- and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross-references The handbook addresses scholars of cultural and literary studies students as well as non-academic readers **The Imprint of Another Life** Margaret Homans, 2013-07-18
