Armstrong, 2004-02-20 Boot camps have developed over the past two decades into a program that incorporates a military regimen to create a structured environment While some critics of this method of corrections suggest that the confrontational nature of the program is antithetical to treatment authors Doris Layton MacKenzie and Gaylene Styve Armstrong present research knowledge and personal discussions with community leaders that offer insight into both the strengths and weaknesses of this controversial form of corrections Correctional Boot Camps Military Basic Training or a Model for Corrections provides the most up to date assessment of the major perspectives and issues related to the current state of boot camps The book goes beyond cursory examinations of the effectiveness of boot camps presenting an in depth view of a greater variety of issues Correctional Boot Camps examines empirical evidence on boot camps drawn from diverse sources including male female juvenile and adult programs from across the nation The book explores empirical research on both the punitive and rehabilitative components of the boot camp model and the effectiveness of the tough on crime aspects of the programs that are often thought of as punishment or retribution in lieu of a longer sentence in a traditional facility Thus offenders earn their way back to the general public more quickly because they have paid their debt to society by being punished in a short term but strict boot camp Correctional Boot Camps is a comprehensive textbook for undergraduate and graduate students studying corrections and juvenile justice The book is also a valuable resource for correctional professionals interacting with offenders *Life Purpose Boot Camp* Eric Maisel, 2014-10-14 A no excuses cut to the chase program for defining training for and achieving your goals As life gets busier and more complicated we crave something larger and more meaningful than just ticking another item off our to do list In the past we've looked to religion or outside guidance for that sense of purpose but today fewer people are fulfilled by traditional approaches to meaning Bestselling author psychotherapist and creativity coach Eric Maisel offers an alternative an eight week intensive that breaks through barriers and offers insights for living each day with purpose Once you understand how meaning operates how meaning and life purpose are related and what concrete steps you can take toward fulfilling your purpose you will never run out of meaning again This program will develop self awareness and self confidence and give you what you need to fully live the best possible life "Boot Camp" Drug Treatment and Aftercare Intervention Ernest L. Centering Educational Administration Robert J. Starratt,2003-04-02 In this book Starratt enters the national conversation among educational administration scholars and practitioners about what constitutes the core of their knowledge and practice In Part I he develops three main themes cultivating meaning community and moral responsibility which he then positions against national themes about the core of educational administration school improvement democratic community and social justice Rather than focusing on the routine managerial tasks normally associated with school administration budgeting personnel and legal problems time and resource management etc this text asks aspiring school leaders to reflect first on the underlying philosophical and sociological perspectives that constitute the substance of administrative work in education Centering Educational Administration provides A Unique Perspective on Leadership The author views leadership as organically related to teaching and learning as concerned with internal capacity building in response to state imposed accountability pressures and as an existential process of writing one s autobiography through their day to day work An Interdisciplinary View of Educational Administration Centering Educational Administration asks educational administrators to bring contemporary philosophical ethical and anthropological issues as well as learning theory social theory and political theory into their thinking about the daily operation of the school A Unique Perspective on School Improvement This text asserts that school improvement narrowly defined as improving results on high stakes tests can likewise place the nation at risk An equally important agenda is teaching the young the basic satisfactions norms and potential of using their knowledge in the service of the community and of a wider humanity Exercises in Reflective Practice This book challenges the reader to use the ideas of each chapter to analyze the current practices in their school and to propose concrete changes to improve the teaching and learning environment of their school

Torres,2019-01-16 It is incumbent upon man to become aware of the powerful forces that surround him and may be leading him to a possible unexpected outcome He must come out of complacency and see his purpose for what it is was meant to be by the Creator The status quo of oil should be slowly but unequivocally phased out When it first oozed from the ground it became the driving force of the economy It was meant to be that way God made sure of that But man has decided today to abuse that purpose by using it to manipulate economies and start wars in the name of peace only to lead man in the path of destruction by the way of an agenda Man feels he must take control of man contrary to the wishes of God But man can save himself by bringing about the change that is waiting to be unveiled in the ushering in of free energy It is real but must be given the proper venue My life tells a metaphor as a connection like thunder as the voice of God and lighting as the glare of his eyes that foretell a warning though it is so common man tends not to see the connection He must look at things differently It is not for me to judge The Creator has the last word on that just as He has the last word in the written prophecies However I can suggest though controversial it might seem but not to dismiss that perhaps it is a destiny to fit within the context of prophetic events My inquisitiveness with its very humble beginnings and all of its twists and turns brought me to these times and led me to a quest to seek a truth that must be acknowledged It is the key to avert war and bring about peace It is the simple inventions in search of that truth that so many are seeking including me It is the connection between God and man just as certain as Jesus was His begotten son to serve as the check and balance for the assurance of peace if man chooses And it is the complete story a metaphor that parallels the troubles of man with the possible outcomes and in congruence with the vigilance of the angels who don't sleep but are paying attention who will allow peace lest man bring wrath upon himself He is the magnet that holds the truth as is the physical magnet that holds that secret the secret to Finding Free Energy
