Office of Management and Budget, 2012 Cumulative Index to the Catalog of the Food and Nutrition Information and Educational Materials Center, 1973-1975 Food and Nutrition Information and Educational Materials Center (U.S.), 1975 Towards the Implementation of the New Urban Agenda Bernhard Müller, Hiroyuki Shimizu, 2017-11-24

This book looks at the New Urban Agenda and prospects of its implementation. In 2016 the New Urban Agenda was endorsed by the General Assembly of the United Nations after having been adopted by the United Nations Conference on Housing and Sustainable Urban Development Habitat III in Quito Ecuador. Together with the Sustainable Development Goals it provides a comprehensive and ambitious roadmap for global debate and action related to sustainable urbanisation during the coming decades. As mature economies and ageing societies Japan and Germany can make considerable contributions to the implementation of the New Urban Agenda. Both countries share a number of similar challenges for environmentally sustainable and resilient urban development under conditions of social change. Furthermore they have vast experience in actively promoting urban transformation towards a more sustainable urban future. At the same time the authors are making a contribution towards implementing the New Urban Agenda. Other countries may build up on the experience provided and the 20 examples described in this book. The work is based on a longstanding cooperation between the Graduate School of Environmental Studies of the Nagoya University Japan, the Leibniz Institute of Ecological Urban and Regional Development Germany and the Technische Universität Dresden Germany.
