Book 3 S. J. Heyworth, 2019-05-16 Presents a clear and detailed guide to a central book of the Fasti Ovid's account of Rome and its calendar *Motion and Genetic Definitions in the Sixteenth-Century Euclidean Tradition* Angela

Axworthy, 2022-06-11 A significant number of works have set forth over the past decades the emphasis laid by seventeenth century mathematicians and philosophers on motion and kinematic notions in geometry These works demonstrated the crucial role attributed in this context to genetic definitions which state the mode of generation of geometrical objects instead of their essential properties While the growing importance of genetic definitions in sixteenth century commentaries on Euclid's Elements has been underlined the place uses and status of motion in this geometrical tradition has however never been thoroughly and comprehensively studied This book therefore undertakes to fill a gap in the history of early modern geometry and philosophy of mathematics by investigating the different treatments of motion and genetic definitions by seven major sixteenth century commentators on Euclid's Elements from Oronce Fine 1494 1555 to Christoph Clavius 1538 1612 including Jacques Peletier 1517 1582 John Dee 1527 1608 1609 and Henry Billingsley d 1606 among others By investigating the ontological and epistemological conceptions underlying the introduction and uses of kinematic notions in their interpretation of Euclidean geometry this study displays the richness of the conceptual framework philosophical and mathematical inherent to the sixteenth century Euclidean tradition and shows how it contributed to a more generalised acceptance and promotion of kinematic approaches to geometry in the early modern period *Smart Computing and Communication* Meikang Qiu, Keke

Gai, Han Qiu, 2022-03-14 This book constitutes the proceedings of the 6th International Conference on Smart Computing and Communication SmartCom 2021 which took place in New York City USA during December 29 31 2021 The 44 papers included in this book were carefully reviewed and selected from 165 submissions The scope of SmartCom 2021 was broad from smart data to smart communications from smart cloud computing to smart security The conference gathered all high quality research industrial papers related to smart computing and communications and aimed at proposing a reference guideline for further research Conference was held online due to the COVID 19 pandemic *Environmental Subsidies to*

Consumers Shigeru Matsumoto, 2015-06-12 A typical consumer underestimates the benefits of future energy savings and underinvests in energy efficiency relative to a description of the socially optimal level of energy efficiency To alleviate this energy efficiency gap problem various programs have been implemented In recent years many governments have started providing consumers with subsidies on the purchases of eco friendly products such as hybrid cars and energy efficient appliances This book conducts a comprehensive analysis of the environmental subsidy programs conducted in Japan and examines their impacts on consumer product selection consumer product use and environmental outcome The book also proposes recommendations for future environmental and industrial policies The book's empirical findings will be of interest to those who are researching on and policymakers of environmental and industrial policies *Advances in neuroprotective*
