First Atomic Bomb Jim Mangi, 2022-06-20 While German and Japanese scientists also labored unsuccessfully to create an atomic bomb by the summer of 1945 the American led team was ready to test its first weapon As the clock ticked down to the detonation time of 05 30 hours on 16 July 1945 the nervous team of technicians and scientists waited ten miles away from Ground Zero deep in the New Mexico desert No one knew how powerful the explosion would be or whether even at such a distance they would be safe from the blast Even so some chose to observe the detonation from a point four miles nearer at the control bunker but then no one was even sure that the bomb would work What if that is actually what happened Under schedule pressure from the White House the scientists assembled the device in part with tape and tissue paper knowing some components were flawed These are verifiable facts It means that as many of those who gathered in the New Mexico desert feared at the time the bomb might not have worked during that first test In The First Atomic Bomb Jim Mangi explores what might happened in the event that the world s first atomic bomb had not been ready for use when it was How would this

have affected the end of the war in the Pacific and indeed the Second World War as a whole Would Emperor Hirohito's armed forces have battled on When might Colonel Paul W Tibbets at the controls of his Boeing B 29 Superfortress Enola Gay have then made his historic flight over Hiroshima and would that city even have remained the target How would Stalin and the Soviets have reacted to such developments and how would this have played out in the post war world The Displaced Rohingyas Sk Tawfique M Haque, Bulbul Siddiqi, Mahmudur Rahman Bhuiyan, 2023-08-25 This volume offers a comprehensive overview of the Rohingya refugee crisis in Bangladesh It analyses the socio cultural and humanitarian challenges of the crisis along with the discourses that have developed on this issue via the local and international media and literature The volume also suggests ways to build sustainable solutions for the Rohingya refugees It discusses wide ranging issues including a historical overview of the Rohingyas the Rakhine State of Myanmar and the issue of religious toleration the struggle for existence in Malaysia and Thailand vulnerable Rohingya in Bangladesh and stratified lives in Bangladeshi camps It also sheds light on social insecurity among Rohingya adolescent girls understanding gender based violence in camps the portrayal of the crisis in Chinese and Indian newspapers and Bangladesh's policy in addressing the Rohingya crisis and repatriation This book will be useful for scholars and researchers of sociology social anthropology refugee studies peace and conflict studies international relations human rights political studies gender studies and South Asian studies Women's Work Jennifer Moore, 2025-03-11 When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained in postconflict societies In Women's Work Jennifer Moore presents a reimagined theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts drawing on seven years of interviews with women activists across ten communities five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone Despite the important differences between the preconflict and conflict histories and demographics of the two countries Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values daily activities and long range goals shared by rural cooperative members in both regions Collective survival communal healing and conflict resolution define the rhythm of these women's daily lives as they go about building peace piecemeal They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well being the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks But most important Moore amplifies these women's voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies Moore theorizes what peacebuilding look like if it were modeled on these women led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed their people and revitalize their local economies Women's Work shows that when women have full socioeconomic citizenship

as well as equitable and respectful partnerships with men transformative justice can be sustained through the arts of collective livelihood violence free conflict management and celebration

Kierkegaard's Journals and Notebooks, Volume 7 Søren Kierkegaard,2014-10-05 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Volume 7 of this 11 volume series includes six of Kierkegaard's important NB journals Journals NB15 through NB20 covering the months from early January 1850 to mid September of that year By this time it had become clear that popular sovereignty ushered in by the revolution of 1848 and ratified by the Danish constitution of 1849 had come to stay and Kierkegaard now intensified his criticism of the notion that everything even matters involving the human soul could be decided by balloting He also continued to direct his barbs at the established Danish Church and its clergy particularly Bishop J. P. Mynster and Professor H. L. Martensen at the press and at the attempt by modern philosophy to comprehend the incomprehensibility of faith Kierkegaard's reading notes include entries on Augustine the Stoics German mystics Luther pietist authors and Rousseau while his autobiographical reflections circle around the question of which if any of several essays explaining his life and works he ought to publish Perhaps unsurprisingly Kierkegaard's more personal reflections return once again to his public feud with M. A. Goldschmidt and his broken engagement to Regine Olsen Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced

Museums and Social Responsibility Kevin Coffee,2022-12-23 Museums and Social Responsibility examines inherent

contradictions within and effecting museum practice in order to outline a museological theory of how museums are important cultural practices in themselves and how museums shape the socio cultural dynamics of modern societies especially our attitudes and understandings about human agency and creative potential Museums are libraries of objects presenting thematic justification that dominant concepts of normativity and speciality as well as attitudes of cultural deprecation By sorting culture into hierarchies of symbolic value museums cloak themselves in supposed objectivity delivered with the passion of connoisseurship and the surety of scholarly research Ulterior motives pertaining to socio economic class racial and ethnic othering and sexual subjugation are shrouded by that false appearance of objectivity This book highlights how the socially responsive practitioner can challenge and subvert taken for granted motivations by undertaking liberatory museum work that engages subaltern narratives engages historically disadvantage populations and co creates with them dialogical practices of collecting preserving exhibiting and interpreting It points to examples in Africa Asia Europe and the Americas not as self contained entities but as practices within a global web of relationships and as microcosms that define normality and abnormality that engage users in critical dialogue and that influence are conditioned by and disrupt taken for granted understandings and practices of class ethnicity sex gender thinking and being Suitable for students researchers and museum professionals *Museums and Social Responsibility* presents a comprehensive argument and proposes critical reflective processes to the practitioner so that their museum work may more effectively engage with and change their societies and the world

The Silver Bullet Solution James E. Gierach, 2023-11-21 What's been missing the past 30 years that prevented voters and leaders from hearing or acting upon the Gierach call and the Civil Society call for legalized controlled and regulated drugs and drug markets Why the public repulsion from the Silver Bullet Solution to the many tentacled drug prohibition monster Have you lost a child to fentanyl or heroin overdose Are you worried about losing a loved one to drug addiction or drug accident Is your neighborhood threatened by violent crime and gangs Is it safe for your child to get to school go to the park or play outside Do you live in a safe suburban neighborhood but yet feel like you need a firearm to be safe in your own home car or traveling on a big city expressway Do you believe the World War on Drugs 62 years old has been a dismal failure and ongoing drug seizures by the ton are evidence of that failure Regardless of color does it anger you that Blacks Latinos and poor Whites are sitting in American prisons for drug crimes at disparate rates Did you know that drug prohibition causes needless bullet holes and that bullet hole healthcare greatly contributes to an unaffordable healthcare system whether called Obamacare Trumpcare or Single Payer This book offers answers to these challenges and it broadcasts the idea that there is something YOU CAN DO about it You can help the new public opinion evolve Human rights and encryption Schulz, Wolfgang, Hoboken, Joris van, 2016-12-05 **Neoliberal Moral Economy** Jörg Wiegratz, 2016-11-17 This book offers a fresh take on a major question of global debate what explains the rise in economic fraud in so many societies around the world The author argues that the current age of fraud is an outcome of not only

political economic but also moral transformations that have taken place in societies reshaped by neoliberalism Using the case of Uganda the book traces these socio cultural and especially moral repercussions of embedding neoliberalism Uganda offers an important case of investigation for three reasons the high level of foreign intervention by donors aid agencies international organisations NGOs and corporations that have tried to produce the first fully fledged market society in Africa there the country s reputation as having adopted neoliberal reforms most extensively and the intensification of fraud in many sectors of the economy since the early 2000s The book explores the rise and operation of the neoliberal moral economy and its world of hard and fraudulent practices It analyses especially the moral economic character of agricultural produce markets in eastern Uganda It shows that neoliberal moral restructuring is a highly political contested and conflict ridden process predominantly works via recalibrating the political economic structure of a country and deeply affects how people think and go about earning a living and treat others with whom they do business The book offers an in depth data based analysis of the moral climate of a market society in motion and in so doing offers insights and lessons for elsewhere in the Global South and North

Walsh, 2014-07-08 A scholarly examination of the emergence of English Pentecostalism at the beginning of the twentieth century This study aims to elucidate the origins of how the Pentecostal message came to England highlighting reasons for its appeal to an initially small constituency while tracing its emergence in specific religious localities which ranged from Anglican vestry to mission hall platform to domestic drawing room Its chief purpose is to examine the origins and emergence of a distinctively English version of the Pentecostal phenomenon Global Land Grabbing and Political Reactions 'from Below' Marc Edelman, Ruth Hall, Saturnino M. Borrás Jr., Ian Scoones, Ben White, Wendy Wolford, 2017-08-15 When the 2007 2008 food and financial crises triggered a global wave of land grabbing scholars activists and policy practitioners assumed that this would be met with massive peasant resistance As empirical evidence accumulated however it became clear that

political reactions from below to land grabbing were quite varied and complex Violent resistance outright expulsions everyday weapons of the weak and demands for better terms of incorporation into land deals were among the outcomes that emerged Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina Mexico Guatemala Nicaragua Colombia Ethiopia Madagascar Mozambique Uganda Mali Ukraine India and Laos as well as the Rio 20 Sustainable Development Conference Initiatives from below in response to land deals have involved local and transnational alliances and the use of legal and extra legal methods and have brought victories and defeats This book was first published as a special issue of The Journal of Peasant Studies

Relentless Reformer Robyn Muncy, 2016-10-11 Josephine Roche 1886 1976 was a progressive activist New Deal policymaker and businesswoman As a pro labor and feminist member of Franklin D Roosevelt s administration she shaped the founding legislation of the U S welfare state and generated the national conversation about health care policy that Americans are still having today In this gripping biography Robyn Muncy offers Roche s persistent progressivism as evidence for surprising continuities among the Progressive Era the New Deal and the Great Society Muncy explains that Roche became the second highest ranking woman in the New Deal government after running a Colorado coal company in partnership with coal miners themselves Once in office Roche developed a national health plan that was stymied by World War II but enacted piecemeal during the postwar period culminating in Medicare and Medicaid in the 1960s By then Roche directed the United Mine Workers of America Welfare and Retirement Fund an initiative aimed at bolstering the labor movement advancing managed health care and reorganizing medicine to facilitate national health insurance one of Roche s unrealized dreams In *Relentless Reformer* Muncy uses Roche s dramatic life story from her stint as Denver s first policewoman in 1912 to her fight against a murderous labor union official in 1972 as a unique vantage point from which to examine the challenges that women have faced in public life and to reassess the meaning and trajectory of progressive reform

Black Lung Alan Derickson, 2014-04-11 In the definitive history of a twentieth century public health disaster Alan Derickson recounts how for decades after methods of prevention were known hundreds of thousands of American miners suffered and died from black lung a respiratory illness caused by the inhalation of coal mine dust The combined failure of government medicine and industry to halt the spread of this disease and even to acknowledge its existence resulted in a national tragedy the effects of which are still being felt The book begins in the late nineteenth century when the disorders brought on by exposure to coal mine dust were first identified as components of a debilitating and distinctive illness For several decades thereafter coal miners dust disease was accepted in both lay and professional circles as a major industrial disease Derickson describes how after the turn of the century medical professionals and industry representatives worked to discredit and supplant knowledge about black lung with such success that this disease ceased to be recognized Many authorities maintained that breathing coal mine dust was actually beneficial to health Derickson shows that activists

ultimately forced society to overcome its complacency about this deadly and preventable disease He chronicles the growth of an unprecedented movement from the turn of the century miners union to the social medicine activists in the mid twentieth century and the black lung insurgents of the late sixties which eventually won landmark protections and compensation with the enactment of the Federal Coal Mine Health and Safety Act in 1969 An extraordinary work of scholarship Black Lung exposes the enormous human cost of producing the energy source responsible for making the United States the world s preeminent industrial nation *Journal* Council for Exceptional Children,1960
