The Urban Tree Duncan Goodwin, 2017-04-07 There is a growing evidence base that documents the social environmental and economic benefits that urban trees can deliver Trees are however under threat today as never before due to competition for space imposed by development other hard infrastructures increased pressure on the availability of financial provision from local authorities and a highly cautious approach to risk management in a modern litigious society It is therefore incumbent upon all of us in construction and urban design disciplines to pursue a set of goals that not only preserve existing trees where we can but also ensure that new plantings are appropriately specified and detailed to enable their successful establishment and growth to productive maturity Aimed at developers urban planners urban designers landscape architects and arboriculturists this book takes a candid look at the benefits that trees provide alongside the threats that are eliminating them from our towns and cities It takes a simple applied approach that explores a combination of science and practical experience to help ensure a pragmatic and reasoned approach

to decision making in terms of tree selection specification placement and establishment In this way trees can successfully be incorporated within our urban landscapes so that we can continue to reap the benefits they provide *The Playing Grounds of College Football* Mark Pollak,2018-12-12 College football teams today play for tens of thousands of fans in palatial stadiums that rival those of pro teams But most started out in humbler venues from baseball parks to fairgrounds to cow pastures This comprehensive guide traces the long and diverse history of playing grounds for more than 1000 varsity football schools including bowl eligible teams as well as those in other divisions FCS D2 D3 NAIA The Sustainability Ethic in the Management of the Physical, Infrastructural and Natural Resources of Zimbabwe Chirisa, Innocent,2019-05-27 Humanity has extensively exploited natural and physical resources since the Industrial Revolution in Europe A geological era now called the Anthropocene has been coined in environmental and developmental circles to mark the increased domination of humanity on Earth and its resources Today the ecological footprint on the fragile planet continues to increase Mass industrialisation like what China is doing and pushing for is one of the drivers for increased urbanisation that results in increased demand for land It is also the stimulus behind increased deforestation overfishing and pollution As the fragility of the Earth increases global bodies like the Intergovernmental Panel on Climate Change are pushing to reduce the Earth's temperature Human efforts to manage the problem cascade from a global to a regional to a national as well as to much localised scales Missing though are nuanced contributions at national and community levels which this book is an attempt to bridge The nagging sense of responsibility is what this book explores under the label of sustainability ethic As a case study the book examines the use of sustainability ethic in the management of the physical infrastructural and natural resources of Zimbabwe This ethic is built on pillars that include participation of people households in their pursuit for sustainable livelihoods appropriate technology tools and techniques for environmental protection It also hinges on stewardship and structures institutions policies and processes of governance and sustainability There are also the aspects of ethics laws and indigenous technical knowledge for sustainability capacity building and education plans and programmes for sustainability and population and demographic determinants processes and outcomes for sustainability The book is a timely contribution to an urgent global concern and climate change debate *A World of Homeowners* Nancy Kwak,2018-09-28 In Latin America Scandinavian housing experts explained that housing is too important a commodity to be subjected to the same general market conditions as other goods but the Americans ridiculed such a stance The Cold War was fought with bricks and mortar not just small hot wars in poor places and the threat of nuclear Armageddon Privatisation began in Malaysia in the 1940s in West Germany Taiwan Burma and South Korea in the 1950s India in 1964 Jordan in 1965 Brazil in 1966 Guatemala and Nigeria in 1967 and the Philippines again in 1968 In the 1960s the US granted loans to expand the private housing sectors in Chile Colombia Costa Rica Ecuador El Salvador Guatemala Nicaragua Panama Peru Uruguay and Venezuela They began housing projects in Rhodesia Zambia and Mali They moved into Senegal in 1972 Botswana in 1973 Tanzania in 1974 and Kenya in 1975 all the while spreading the
