Hewitt,1996 An easy guide to developing and releasing your psychic abilities Cover **The Problem of Disenchantment** Egil Asprem,2018-05-31 Challenges the conventional view of a disenchanted and secular modernity and recovers the complex relation that exists between science religion and esotericism in the modern world Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil

Asprem argues for a conceptual shift in how we view this key narrative of modernity. Instead of a sociohistorical process of disenchantment that produces increasingly rational minds, Asprem maintains that the continued presence of magic and enchantment in people's everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries. Drawing on a wide range of early twentieth-century primary sources from theoretical physics, occultism, embryology, radioactivity, psychical research, and other fields, Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value, meaning, and the limits of knowledge. *The Problem of Disenchantment* is in its entirety extraordinarily well researched, argued, and written, representing at once the most complete and nuanced treatment of the notion of disenchantment within this network of scientific, religious, philosophical, and esoteric discourses and currents.

Nova Religio [Out-of-Body Experiences](#) Samantha Treasure, 2025-05-01 This illuminating guide investigates the incredible phenomena of out of body experiences, including why they happen, how to make sense of them, as well as how to pursue or avoid these experiences. Breaking free from the usual template of astral projection manual or personal account, this book takes an eclectic approach, weaving together anthropology, science, spirituality, and fascinating accounts. It takes a neutral and holistic approach while refusing to shy away from the stranger aspects of this phenomena. This includes fieldwork with Eckankar, a new religious movement; interviews with Korean and Siberian shamans; participation in neuroscience experiments; a year interviewing alien contactees; and attendance at various workshops, retreats, and lectures that are increasingly marketed within the growing spiritual marketplace. Based on interviews the author has conducted since 2015, the book will also explore how astral projection changes over the course of an episode or lifetime, taking into consideration generational, cultural, and biological differences. For example, utilising her background in medical anthropology, Samantha Treasure explores the links between OBEs and sleep paralysis, epilepsy, and Charles Bonnet Syndrome, interviewing both experiencers and specialists. This book will also aim to reclaim OBEs from their growing commodification within social media and the wellness industry and will challenge definitions that privilege certain types of experience or narratives. While including evidence for their potential as a healing or spiritual tool, the author will also include the voices of experiencers and researchers who think otherwise, exploring their rationale while avoiding either sugar coating or fear mongering. This is the definitive guide to this fascinating phenomenon.
