through Haizi's poetry and explores its relationship with Jesus Christ. As the dialogical journey, it names four stages of homecoming, roots, vision, journey, and arrival. By taking an interdisciplinary approach, literary study, intercultural dialogue, and comparative theology, Xiaoli Yang convincingly demonstrates that the common language between the poet Haizi and the Lukan Jesus provides a crucial and rich source of data for an ongoing table conversation between culture and faith.

Casanova Was a Librarian Kathleen Low, 2015-01-09 What do Casanova, Pope Pius XI, Benjamin Franklin, and first lady Laura Bush have in common? At one time, all were members of the librarian profession. While librarians are often stereotyped as quiet, shy ladies who wear their gray hair in a dignified bun, that doesn't reflect the variety and diversity of today's library professionals. As of 2004, 159,000 people in the United States held the job of librarian. Although only 18 percent of that number was male, the median age for librarians was a young 47, far from the gray-haired bun-wearing ladies of our imaginations. From pickup lines to bumper stickers, this volume takes a light-hearted look at the many facets of the librarian occupation. Beginning with statistics, it enumerates gender divisions, personality types, salaries, and educational requirements for various types of librarians, including public, academic, school, and special librarians. Other topics include specific occupational health risks, job-related recreation, and novelty gifts for library professionals. Instances of librarians found in prose, poetry, film, and musicals are also discussed. Catalogue of the Library of the University of London, Including the Libraries of G. Grote and A. De Morgan (mainly Compiled by T. Nichols). University of London, Thomas Nichols (of the British Museum.), 1876

The Economics of Libraries Marco Ferdinando Martorana, Ilde Rizzo, 2024-04-15 Libraries are included in the widely accepted definition of Cultural and Creative Industries, together with heritage, performing arts, museums, visual arts, and archives, and they play an important role in the creative value chain. The Economics of Libraries highlights the economic importance of the library sector. Providing an accessible and concise expert overview of the most important economic features and diversified functions of libraries, the authors also summarise the challenges and opportunities deriving from digital technologies, the management of cultural infrastructures, and audience development. This unique short-form book fills a longstanding gap in our understanding of the demand and supply of library services. This book will be of interest to researchers and scholars in the fields of economics and the creative and cultural industries. It also provides useful insights for students and lecturers, as well as topics of discussion for professionals.

Social Justice and Activism in Libraries Su Epstein, Carol Smallwood, Vera Gubnitskaia, 2019-05-07 In a rapidly changing world with myriad

conflicting voices the library's role as a place of safety and inclusion and as a repository of knowledge cannot be overstated. Librarians must serve as community leaders with a mission to educate and inform ready to model the principles they support. The question for many is how. Experienced librarians offer ideas and guidance in seeking new creative paths working to support change in library organizations and reexamining principles that may be taken for granted. Theoretical foundations are discussed along with practical ideas such as the creation of book groups for the intellectually disabled and partnership with social workers or advocates for employees with disabilities.

The New Downtown Library Shannon Christine Mattern, 2007. The past twenty years have seen a building boom for downtown public libraries. From Brooklyn to Seattle, architects, civic leaders, and citizens in major U.S. cities have worked to reassert the relevance of the central library. While the libraries' primary functions as public spaces where information is gathered, organized, preserved, and made available for use have not changed over the years, the processes by which they accomplish these goals have. These new processes and the public debates surrounding them have radically influenced the utility and design of new library buildings. In *The New Downtown Library*, Shannon Mattern draws on a diverse range of sources to investigate how libraries serve as multiuse public spaces, anchors in urban redevelopment, civic icons, and showcases of renowned architects like Rem Koolhaas, Cesar Pelli, and Enrique Norton. Mattern's clear and careful analysis reveals the complexity of contemporary dialogues in library design, highlighting the roles that staff, the public, and other special interest groups play. Mattern also describes how the libraries manifest changing demographics, new ways of organizing collections, and delivering media, and current philosophies of librarianship. By identifying unifying themes as well as examining the differences among various design projects, Mattern brings to light the social forces as well as their architectural expressions that form the essence of new libraries and their vital place in public life. Featured libraries are located in Brooklyn, Cincinnati, Cleveland, Chicago, Denver, Los Angeles, Minneapolis, Nashville, New York, Phoenix, Salt Lake City, San Antonio, San Francisco, Seattle, and Toledo. Shannon Mattern is assistant professor of media studies and film at The New School.

And with the current widespread retirements and turnover at the most senior levels of library leadership, more and more libraries are being led by interim leaders. *Interim Leadership in Libraries: Building Relationships, Making Decisions, and Moving On* draws on evidence-based research, professional expertise, and personal experience to address the practical implications that arise from the decision to appoint interim leaders. Authors from a variety of institutions who have served in many different interim roles explore this unique type of leadership in five thorough sections: Building Relationships for Interim Leaders, Leading with Confidence, Making Long-Term Decisions as an Interim Leader, Leading Through Contraction When No One Can Be Hired, and Moving On When the Dust Settles.
