Whales and climate Jan-Olaf Meynecke,Hector M. Guzman,Eduardo Secchi,Solène Derville,Russell Richards,2024-01-03

Insights into the Effectiveness of Exercise/Lifestyle Recommendations in Primary Care Tatsunori Ikemoto,Carol Ewing Garber,Patricia C.

Heyn,2023-10-23 The World Health Organization WHO reported that physical activity is one of the leading risk factors for non communicable disease deaths worldwide Several studies have shown that physical activity can reduce the risk of conditions such as heart disease stroke and diabetes Furthermore exercise has been found to be beneficial in certain mental health conditions and improving the quality of life in patients undergoing cancer treatment However WHO estimates that 1 in 4 adults worldwide are not physically active enough This has led to the development of the WHO global action plan on increasing physical activity which includes integrating physical activity into primary health care Globally primary care professionals are already prescribing lifestyle changes including those aimed at increasing physical activity Examples of this include prescription of gym memberships and initiatives that aim to better educate physicians on the benefits of physical

activity on patient health This research topic aims to discuss The effectiveness of exercise lifestyle recommendations in improving patient outcomes in primary care Assessing physical activity in primary care practice The use of exercise prescription to manage neurological diseases The uptake of patients completing a recommended exercise plan and what can be done to increase this The importance of communication between the patient and physician in implementing the exercise plan and how this could be improved Confounding factors that affect the patient in following an exercise plan lifestyle recommendation Examples of where exercise recommendations by primary health care professionals have been successfully implemented in a real world setting Examples of successful clinical and community collaborations with allied health professionals such as exercise physiologists

Key Topics in Psychological Methods Springer Behavioral & Health Sciences,2022-11-03 This volume features cutting edge and impactful articles from across Springer s diverse journals publishing program In this curated collection our editorial team has brought together highly cited and downloaded articles on the topic of Psychological Methods into one single resource Moreover this book enables readers to review a broad spectrum of quality research on a specialized topic which we hope facilitates interdisciplinary and critical discussions of the topic at hand As part of the Key Topics in Behavioral Sciences book series this volume aims to serve as a quick reference for readers when writing or researching new topics or subject areas Other topics in the series will include Psychological Research Methods Health and Behavior Industrial and Organizational Psychology Sports Psychology and Consumer Behavior In the first section of the volume articles focus on such topics as Artificial Intelligence Cultural Learning Human Evolution Human Computer Interaction Referential Triangle Social Interaction Differences Diversity Evolution Genetics Populations and Race Next the second section features research on Double Dialogicality Generalization Qualitative Research Single Case Data Analysis Data Screening Insufficient Effort Responding Research Design Research Methods and Survey Research Lastly in the final section of this collection Data Snooping Harking Publication Bias Simulation Open Science Philosophy Of Science Questionable Research Practices Research Ethics Content Analysis Dictionary Analysis Natural Language Processing Structural Topic Modeling Text Analysis Thematic Analysis and Topic Modeling are discussed

Philosophy of Science in Practice Hsiang-Ke Chao,Julian Reiss,2016-12-27 This volume reflects the philosophy of science in practice approach and takes a fresh look at traditional philosophical problems in the context of natural social and health research Inspired by the work of Nancy Cartwright that shows how the practices and apparatuses of science help us to understand science and to build theories in the philosophy of science this volume critically examines the philosophical concepts of evidence laws causation and models and their roles in the process of scientific reasoning Each chapter is an important one in the philosophy of science while the volume as a whole deals with these philosophical concepts in a unified way in the context of actual scientific practice This volume thus aims to contribute to this new direction in the philosophy of science

Islamic Financial Markets and Institutions Farhad Taghizadeh-Hesary,Hassanudin Mohd Thas Thaker,M. Ishaq Bhatti,Anwar

Allah Pitchay, 2025-09-28 Islamic finance has experienced significant growth particularly in the Middle East driven by financial innovation and the expansion of asset securitization. This progress is crucial for the future development of Islamic financial institutions (IFIs) but it also requires a strong regulatory framework and effective monetary policies to ensure stability and inclusivity. Maintaining compliance with Islamic law while addressing modern financial challenges presents unique complexities from risk sharing mechanisms to the integration of digital banking. This book examines the evolving landscape of Islamic finance exploring the challenges that IFIs face including limited financial inclusion, the dominance of non-Muslim ownership and gaps in regulatory oversight. It emphasizes the importance of transparency, standardized regulations and incorporating Shariah compliance into financial supervision. Through empirical research and case studies from various markets including Iran, Malaysia and Indonesia, the book highlights the risks and opportunities within Islamic financial markets. Key topics include financial inclusion, regulatory reforms, the resilience of Islamic finance during economic crises and the role of fintech in expanding access to Islamic financial services. The book also discusses innovative financial instruments such as Islamic crowdfunding, green sukuk and Takaful, highlighting their potential to promote sustainable development. It argues that while Islamic finance offers ethical and stable alternatives to conventional banking, stronger governance, technological integration and policy reforms are necessary to ensure its long-term viability. Bringing together insights from leading researchers and practitioners, this book provides a comprehensive analysis of the current state and prospects of Islamic finance. It is an essential resource for policymakers, financial regulators and industry professionals looking to enhance financial stability and inclusivity within the Islamic financial system.

Advances in Marine and Freshwater Monitoring to support Aquatic Ecosystem Conservation and Restoration

Elisabetta Manea, Caterina Bergami, Robert Ptacnik, 2023-11-13 Conserving and restoring freshwater and marine ecosystems are priorities addressed by several European and global conservation initiatives. Many management and conservation initiatives have been put in place to support the achievement of declared national and global conservation and sustainability goals. Nonetheless, the extent to which all these initiatives can provide lasting positive effects on conservation and restoration targets is often impaired, limited by the lack of robust baseline data and systematic monitoring, which in turn are constrained by the limited number of long-term monitoring programs and limited dedicated funding. This collection underlines the importance of monitoring in times of global change and shifting baselines and the urgency of boosting conservation strategies to ensure progression towards meeting global conservation objectives. Emphasis is given also to the socio-ecological contexts and dimensions of conservation efforts and the potential of societal engagement in monitoring practices, a key enabling factor to turn conservation initiatives into practical actions and ecosystem protection.

Applied Artificial Higher Order Neural Networks for Control and Recognition

Zhang, Ming, 2016-05-05 In recent years, Higher Order Neural Networks (HONNs) have been widely adopted by researchers for applications in control, signal generating, pattern recognition, nonlinear

recognition classification and prediction of control and recognition scenarios Due to the fact that HONNs have been proven to be faster more accurate and easier to explain than traditional neural networks their applications are limitless Applied Artificial Higher Order Neural Networks for Control and Recognition explores the ways in which higher order neural networks are being integrated specifically for intelligent technology applications Emphasizing emerging research practice and real world implementation this timely reference publication is an essential reference source for researchers IT professionals and graduate level computer science and engineering students Controversies in Economics and Finance Imad A. Moosa, 2020-11-27 In this fascinating book Imad A Moosa challenges existing preconceptions surrounding normative economics arguing that what some economists see as undisputed facts of life may be myths caused by dogmatic thinking Plausible explanations are suggested for puzzles in various areas of economics and finance such as the home bias puzzle the PPP puzzle and the presidential puzzle Controversies in Economics and Finance is a thought provoking and stimulating read that exposes common flaws in economic analysis It will be of great benefit to academics graduate students and policy makers looking to understand the limits of economic analysis

york county school division wikipedia - Jan 28 2022

web the york county school division or ycsd is a school division school district in york county virginia united states the

division consists of approximately 12 750 students

math resources math resources york county school division - Aug 15 2023

web math resources students can reach several math resources through their clever accounts including brainpop and brainpop jr watch videos about math concepts ixl

basics of nuclear physics and fission institute for - Feb 08 2023

web fission is when an atomic nucleus is divided into smaller nuclei which releases heat energy and produces gamma radiation fusion is when two or more atomic nuclei join

am 25 3 fission and fusion of atomic nuclei henry county - May 31 2022

web mar 10 2023 fission chain reaction the energy harnessed in nuclei is released in nuclear reactions fission is the splitting of a heavy nucleus into lighter nuclei and

nuclear fusion development processes equations facts - Jul 13 2023

web nuclear fusion and nuclear fission are two different types of energy releasing reactions in which energy is released from high powered atomic bonds between the particles within

nuclear fission and fusion ans about nuclear nuclear - Apr 29 2022

web nuclear fusion and nuclear fission are two different types of energy releasing reactions in which energy is released from high powered atomic bonds between the particles within

fission vs fusion what s the difference live science - Dec 26 2021

web sep 10 2023 the energy released in the process of fusion is 3 4 times higher than that of what is released by fission this process is endothermic one class of nuclear weapons

difference between nuclear fission and nuclear fusion - Apr 10 2023

web since energy and mass are equivalent nuclei with higher binding energy per nucleon have a lower atomic weight per nucleon the key to release of nuclear energy from fission of

fisson and fusion of atomic nuclei key 2022 iriss ac - Dec 06 2022

web fusing two light nuclei can liberate as much energy as the fission of 235 u or 239 pu the fusion of four protons to form a helium nucleus two positrons and two neutrinos for

fission and fusion chemistry libretexts - Feb 25 2022

web nuclear fission is a reaction in which the nucleus of an atom splits into two or more smaller nuclei the fission process often produces gamma photons and releases a

nuclear fission nuclear fission and fusion aqa - May 11 2023

web apr 1 2021 fission and fusion are two physical processes that produce massive amounts of energy from atoms they yield

millions of times more energy than other sources

25 3 fission and fusion of atomic nuclei key download only - Aug 02 2022

web jul 14 2022 fusion is the opposite reaction of fission in fusion atoms are fused together for a fusion reaction to occur it is necessary to bring two nuclei so close that

11 9 nuclear fission and nuclear fusion chemistry libretexts - Jun 12 2023

web nuclear fission is the splitting of a large atomic nucleus into smaller nuclei in a nuclear reactor a neutron is absorbed into a nucleus typically uranium 235 this causes the

nuclear fission wikipedia - Nov 24 2021

nuclear fission and nuclear fusion division of chemical - Sep 03 2022

web how do fission reactions and fusion reactions differ vocabulary fission neutron moderation neutron absorption fusion reading strategy identifying details in the three

nuclear fission introductory chemistry - Oct 24 2021

fission and fusion chemistry socratic - Nov 05 2022

web and fusion of atomic nuclei key a fascinating function of fictional beauty that pulses with fresh feelings lies an unique trip waiting to be embarked upon written by a virtuoso

difference between nuclear fission and nuclear fusion vedantu - Sep 22 2021

7 5 nuclear fission and nuclear fusion chemistry libretexts - Jan 27 2022

web key terms nuclear weapon a weapon that derives its energy from the nuclear reactions of either fission or fusion fusion a nuclear reaction in which nuclei combine to form

fission and fusion what is the difference - Mar 09 2023

web fission and fusion of atomic nuclei key analysis of cancer risks in populations near nuclear facilities nuclear fission and atomic energy fission and fusion from

nuclear fission examples process britannica - Jan 07 2023

web nuclear binding energy the energy required to split a nucleus of an atom into its component parts nucleon one of the subatomic particles of the atomic nucleus i e a

discovery of nuclear fission wikipedia - Mar 29 2022

web jul 9 2021 fission and fusion are both natural atomic processes that release incredible amounts of energy but in many

ways they are opposites fission involves the splitting

fission and fusion chemistry libretexts - Jul 01 2022

web fission is a nuclear reaction or radioactive decay process in which the nucleus of an atom splits into two or more smaller lighter nuclei and often other particles the fission

nuclear fusion introductory chemistry - Oct 04 2022

web sep 24 2022 fission and fusion the energy harnessed in nuclei is released in nuclear reactions fission is the splitting of a heavy nucleus into lighter nuclei and fusion is the

22 4 nuclear fission and fusion physics openstax - Aug 14 2023

web in creating energy by combining atomic nuclei the fusion reaction holds many advantages over fission first fusion reactions are more efficient releasing 3 to 4 times more energy than fission per gram of fuel
