Marino, 2024-11-15 Dr Paul L Marino's concise engaging writing style is just one of many reasons that Marino's The ICU Book is the best selling reference in critical care This highly regarded full color resource contains the essential information needed to care for patients in any ICU regardless of the specialty designation of the unit The newly revised Fifth Edition continues the focus on practical aspects of patient care and will appeal to anyone with an interest in the care of critically ill patients The intended audience includes medical students interns and residents in medicine surgery and anesthesiology critical care physicians and nurses physician's assistants respiratory therapists and paramedics

Emergency and Trauma Care for Nurses and Paramedics Kate Curtis, Clair Ramsden, 2015-10-16 Highlighted skills cross references to the Clinical Skills chapter throughout text Over 30 new case studies Patient journey from pre hospital and emergency specific case studies Critical thinking questions at the end of chapters Chapter 35 Obstetric emergencies now includes Supporting a normal birth

Critical Care Nursing Leanne Aitken, Andrea Marshall, Wendy Chaboyer, 2019-06-22 Endorsed by the Australian College of Critical Care Nurses ACCCN ACCCN is the peak professional organisation representing critical care nurses in Australia Written by leading critical care nursing clinicians Leanne Aitken Andrea

Marshall and Wendy Chaboyer the 4th edition of Critical Care Nursing continues to encourage and challenge critical care nurses and students to develop world class practice and ensure the delivery of the highest quality care The text addresses all aspects of critical care nursing and is divided into three sections scope of practice core components and specialty practice providing the most recent research data procedures and guidelines from expert local and international critical care nursing academics and clinicians Alongside its strong focus on critical care nursing practice within Australia and New Zealand the 4th edition brings a stronger emphasis on international practice and expertise to ensure students and clinicians have access to the most contemporary practice insights from around the world Increased emphasis on practice tips to help nurses care for patients within critical care Updated case studies research vignettes and learning activities to support further learning Highlights the role of the critical care nurse within a multidisciplinary environment and how they work together Increased global considerations relevant to international context of critical care nursing alongside its key focus within the ANZ context Aligned to update NMBA RN Standards for Practice and NSQHS Standards *Textbook of Acute Trauma Care* Peter Lax,2022-01-05 This book provides a systemic approach to acute trauma care in line with the ABCDE paradigm and up to date information on assessing and managing major trauma from the pre hospital to the rehabilitation phase The book s early sections are dedicated to identifying and managing pathology caused by massive haemorrhage airway breathing circulation or neurological trauma and examining the current evidence base relating to their management The book then builds from fundamental skills to advanced interventions so that each level of responder can identify and implement aspects of clinical practice that will be of benefit to them at their stage This approach also explains advanced interventions that may be executed subsequently explaining how each phase of care sits together This has a further benefit of producing seamless care for patients by practitioners of different levels using this book as a reference point Later sections deal with specifics of in hospital trauma care by speciality including the explanation of decision making processes by specialities use of diagnostic and interventional radiology rehabilitation and psychological aspects of trauma care The Textbook of Acute Trauma Care also focuses on non clinical issues relevant to trauma such as training and logistics of retrieval and repatriation aviation considerations in HEMS legal and forensic evidence considerations and ethical issues dealing with trauma patients In addition the book contains chapters from international experts on cognitive and human factors relating to healthcare and suggests strategies for training and minimising errors This book is an essential resource for all grades of practitioner from first responders to Consultant Attending Physician level providers *The Acute Management of Surgical Disease* Martin D. Zielinski,Oscar Guillaumondegui,2022-09-15 Emergency General Surgery has become a cornerstone of Acute Care Surgery over the past decade Once the scope of community general surgeons the growing complexity of patients with acute surgical diseases has increasingly driven their care to tertiary referral centers The aging population confounds this problem further as these patients present with more complex comorbidities life threatening physiology and progressively severe anatomic

disease severity To ensure better outcomes the practice has evolved to focus on evidence based practice management guidelines in order to standardize care and optimize outcomes The purpose of this text is to be a comprehensive volume for patients with acute surgical diseases There will be three sections each comprised of multiple chapters The first section will be a comprehensive analysis of the background of Emergency General Surgery The goal of this section will be to provide the reader background into the acute surgical practice and to introduce the reader to the important concepts discussed in the remainder of the textbook The second section will be the largest and will discuss specific acute surgical diseases Individual chapters will outline the diagnostic approach current treatment standards operative approaches and expected outcomes with an emphasis on practice management guideline implementation into practice As acute surgical diseases and surgical critical care are integral to each other the last section will be Critical Care for the Acute Care Surgeon These topics will focus on the critical care concepts essential to surgeons who care for acute diseases This comprehensive text is targeted to any surgeon who takes emergency call for any of the listed diseases including community and referral general and vascular surgeons In addition this would be an excellent resource for all general surgery residents Lastly this would also serve as a resource to intensivists who care for acute surgical patients

Essential SBAs in Clinical Specialties for Medical Students Yeap Boon Tat, Mohd. Firdaus Mohd. Hayati, Fairrul Kadir, May Zaw Soe, 2023-02-17 The young and vibrant four lecturers of the Faculty of Medical and Health Sciences Universiti Malaysia Sabah joined hands for the first time to produce this wonderful book They worked hard to produce good updated questions and answers based on the latest references and international management guidelines The authors are well versed with the latest updates in medical education and curriculum This special book is an asset for all medical students in preparation for their final examinations It follows the single best answer SBA format a real life questioning which is based on various clinical scenarios in the fields of surgery emergency medicine anaesthesiology obstetrics and gynaecology The questions are written in the format of the final exit medical examinations The informative yet comprehensive answers provided to each of the scenarios are based on the latest clinical evidence and global guidelines The authors also provided guidance and explanations on how false answers are ruled out The answers are carefully designed to allow readers to enhance their clinical knowledge understanding and structure of this SBA technique thus making this book a friendly excellent aid for exam preparation In addition this unique book is also feasible to be used for postgraduate examinations and other allied healthcare professionals The authors sincerely hope that students will benefit and enjoy this value for money book
